FROM THE EDITOR'S DESK

As editor of the GB, I am now able to send and receive messages through electronic mail. This means that you can notify me of upcoming events, ask me to call you for more information, or even send your articles for the GB to me through the computer. I will be able to download and print your communications in my office.

Let's give this a try. It should speed up both getting information in to the GB and make it easier for you. Don't worry about form; as long as you have the necessary information, we'll put it into the proper format here.

Also remember you can use the same electronic mail for submissions to Library News.

My code is BJC.

Dear John:

Just a short note to thank you for inviting the Directors to the reception last Thursday.

Mr. Willis recently received the following letters:

September 11, 1987

Just a note to thank you, and your library staff colleagues, for the hospitality I received as a Visiting Scholar at the University of Kentucky. The UK Library, of course, has been indispensable during my 27 years in Lexington, but the faculty card you arranged for me has made it even more convenient.

Many thanks.

Sincerely,
Charles M. Holmes,
Professor of English
Transylvania University

September 14, 1987

Dear Paul:

Our automation project is progressing mainly because of the leadership of John Bryant. He has great tact and ideas. I know his many hours spent on this project have cost you his services but I know that this project would not have been as successful without him.

Very truly yours,
Joyce Moore,
Head Librarian,
Jefferson
Community College
