MINI-REVIEW:

Current Book Review Citations. v. 1, January 1976. New York, H.W. Wilson Co.

The Reference Department of M.I. King Library has recently received a new index. Current Book Review Citations claims to index book reviews published in more than 1,000 periodicals. It is an author and title cumulation of all reviews indexed in other Wilson indexes, and also an index of all reviews from Booklist, Choice, School Library Journal and Library Journal. The periodicals indexed range from the American Mineralogist and the Journal of the American Statistical Association to Horn Book Magazine and the Journal of Maritime Law and Commerce. Subject coverage is therefore very wide and this may be a useful source for branch libraries.
