A UNIVERSITY IS A PLACE; IT IS A SPIRIT . . . VI

A UNIVERSITY FACULTY is made up of men who not only teach, but also play an active part in adding new knowledge. One of the University's most distinguished professors in both of these areas is Dr. Amry Vandebosch, former head of the Department of Political Science and now director of the Patterson School of Diplomacy and International Commerce.

In 36 years with the University, he has earned perhaps more honors than any other professor. He is internationally known as an author and foreign relations specialist, has participated in foreign missions for the U.S. State Department, and was a member of the group which drafted the United Nations charter. Dr. Vandebosch is the author or joint author of a large number of books and has written numerous articles for major journals.

One of his former students said of him: "He does not descend to the plane of the student, but brings the student up to his own level. He puts a lot of faith in you and you feel that you can't let him down."

Men such as these inspire greater efforts both from their fellow faculty members and from the students. When the students work under such men they may assimilate a view which is the hallmark of all true scholars—one which will not permit them to be satisfied with the mediocre, but will force them to continually seek the best. This is the kind of education which lasts long after specific course content has been forgotten or discarded as the University graduate advances to higher levels of thought and achievement.

Generous Alumnus Gives Scholarship

A selfless and devoted alumnus of the University of Kentucky, Dr. R. C. Kash, '25, of Lebanon, Tenn., has established a scholarship fund at his Alma Mater, income from which will be used to set up a scholarship for a sophomore student who has completed his freshman year at UK.

Requirements for the scholarship include definite financial need, a "B" average in 15 credit hours of work, a wholesome personality, good moral habits, regular church attendance and a zeal for learning.

The first scholarship award from the R. C. Kash Scholarship Fund will be made in the fall of 1963.

In establishing the scholarship Dr. Kash stated that "the donor is endowing this fund because of an abiding faith in the soundness of fiscal and administrative policies at the University; the competence and dedication of members of the faculty; and the wholesome atmosphere at the University of Kentucky in which young people are taught to think and work."

Dr. Kash has established the fund on a perpetual basis, and will make annual contributions to it. The principal will be invested by the University and income from investments will be used for scholarship awards. President Dickey expressed his gratitude to Dr. Kash for his generous and unselfish gift to his Alma Mater.

Dr. Kash is a native of Lee County, Ky., and was graduated from UK in 1925 at the age of 18. He obtained the M.D. degree from Vanderbilt University and a master's in public health from John Hopkins University. He has attended medical seminars at Duke University, Ohio State University and the University of Pennsylvania. He is a member of the University of Kentucky Alumni Century Club. Dr. Kash is believed to be the first person to advocate the use of mass X-rays and mobile units in the detection and control of tuberculosis.

DR. R. C. KASH, '25, from Lebanon, Tenn., discusses with President Frank G. Dickey the establishment of the R. C. Kash Scholarship Fund.

Dr. Kash has spent his mature life in assisting young people to obtain college educations although he has two sons of his own.

Former Dean Edward Wiest Dies At 83

Dean Emeritus Edward Wiest of the UK College of Commerce died February 7 in Lexington. He was appointed dean when the college was established in 1925 and served until 1948 when he went on change-of-work (retirement) status. Since that time he has been doing research on the history of business education in Kentucky. He came to UK in 1918 from the University of Vermont. Survivors include his wife, Mrs. Sidney Pierce Crews Wiest; a daughter, Mrs. Niel Plummer, the former Marjorie Wiest, '35, Lexington, six brothers, a sister, and four grandchildren.

Stahr Named President Of Indiana University

Army Secretary Elvis J. Stahr, Jr., '36, has resigned effective June 30th to become president of Indiana University, Bloomington. President Kennedy accepted the resignation with regret and told Mr. Stahr that he could take over his new post with the "great satisfaction of a job well done" in government.

The Indiana institution has an enrollment of 25,000 and is one of the largest state universities in the country. Mr. Stahr was formerly President of the University of West Virginia before receiving his appointment as Army Secretary. He is a Rhodes Scholar, a member of Phi Beta Kappa, and a former Dean of the UK Law School. The University is honoring him at Commencement on June 11 with an honorary degree of Doctor of Laws.

FIFTH ANNUAL ALUMNI SEMINAR

Can America Compete?

Problems of the U.S. in World Economy

America, long a leader in world trade, is facing more competition from abroad. The European Common Market with its reduced internal and its higher external tariff applied to non-members, the colonial preferential customs duties and trading systems, industry and agriculture abroad operating under low costs, pose a formidable challenge to the American economy. What is America's attitude toward the Common Market? What is her role in the world today? These pertinent questions will be discussed by distinguished alumni and faculty members at the Fifth Annual Alumni Seminar, June 8th and 9th during Alumni Reunion week-end at the University of Kentucky.

Dr. Max J. Wasserman, visiting professor in the Patterson School of Diplomacy and International Commerce and internationally known economist, is chairman of the seminar committee. His most recent book, "Modern Interna-

tional Economics: A Balance of Payments Approach" written in collaboration with Dr. Charles Hultman, Assistant Professor of International Economics, was published in the spring by Simmons, Boardman Books and has been widely acclaimed.

Dr. John B. Hutson, '17, President of Tobacco Associates, Inc., Washington, D. C., will speak at the first morning session on the subject: "The European Common Market." He has had a distinguished career in the field of agricultural economics. During World War II he served as president of the Commodity Credit Corporation and as Under Secretary of Agriculture in 1945 and 1946. Dr. Hutson was appointed Assistant Secretary General in charge of Administration of the United Nations during the organization period from March 1946 to March 1947. Since that time he has been president of Tobacco As-

ates, an organization established to promote the export of flue-cured tobacco and he has participated in numerous international conferences in various parts of the world. In 1947 he received an honorary LL.D. degree from the University.

The second speaker on the Friday morning program will be Dr. Charles W. Hultman, Assistant Professor of International Economics, Patterson School of Diplomacy. His topic will be: "America's Attitude Toward the Common Market." A native of Iowa, Dr. Hultman holds a doctorate degree from the State University of Iowa and was an instructor at that institution prior to joining the University faculty.

Dr. Louis S. Ware, '17, Chairman of the Board, International Minerals and Chemical Corporation, Skokie, Ill., will make the major address at the Friday afternoon session on the subject: "U.S. Grants: Bargain or Burden?" A distinguished alumnus, Dr. Ware began his career as a mining engineer and industrialist in the copper mines of Arizona. A consulting engineer and member of the Alumni Century Club, Dr. Ware became president of his firm in 1939 and in 1958 was elected Chairman of the Board.

International Minerals and Chemical Corporation is the world's largest producer of minerals and chemicals for food production. Dr. Ware has travelled throughout the world and has a broad picture of world economy. In 1952 the University conferred on him the degree of Doctor of Science.

"The U.S. Balance of Payments" will be the subject of an address by Dr. Wasserman on Friday afternoon.

Dr. Laszlo Zsoldos, of the Patterson School of Diplomacy and International Commerce will be the first speaker at the Saturday morning sessions to be held at Spindletop Hall. His subject will be: "The United States Commercial Policy and the Tariff." A native of Szentes, Hungary, Dr. Zsoldos received his Ph.D. degree from Ohio State University and has been an instructor in economics at that institution.

"The Why, What and How of Our New Foreign Aid Program" will be the topic of Mr. Stanley L. McElroy's address Saturday morning. Mr. McElroy graduated from UK in 1950. A member of Phi Beta Kappa, and, also, a member of the Alumni Century Club, he is presently Special Assistant to the Administrator, Agency for Inter-

national Development, Department of State, Washington, D. C. He began his career with the International Business Machines Corporation in 1952 and was appointed Executive Assistant to the President of IBM in 1960. In 1961 he took a leave of absence from his company to enter government service in a special advisory capacity.

Panel discussions will follow each of the three sessions. Mr. George W. Warwick, '16, retired General Manager of Foreign Operations, Armstrong Cork Company, Lancaster, Pa. will be the moderator Friday morning for the discussion on the subject: "Competing Abroad." Mr. Warwick has had wide experience in supervising operations of his firm both in this country and in Europe. A native of Frankfort, he is also a member of the Alumni Century Club. Participants will be Dr. Cecil C. Carpenter, '26, Dean of the College of Commerce; Dr. Harold W. Guthrie, Associate Professor of Economics, College of Commerce; and Mr. Garvice Kincaid, '34, Chairman of the Board, Central Bank, Lexington.

"The United States Dollar in the World Economy" will be the subject of the panel discussion Friday afternoon and Dr. Aubrey Brown, Head, Department of Agricultural

Participants on this panel will be: Dr. James F. Hopkins, '38, Department of History; Dr. D. M. Shuffett, '49, Department of Agricultural Economics; and Mr. Warwick.

The Seminar will end at 12:00 noon and will be followed by the annual reunion picnic of the Alumni Association which will be held on the grounds at Spindletop. Sessions are free to the public.

Members of the Seminar Committee serving with Dr. Wasserman are: Dr. Malcolm Jewell, Department of Political Science, Mrs. Elizabeth Taylor, Radio-TV Dept., Dr. Warren Haynes, College of Commerce, Dr. Brown, Dean Carpenter, Dr. Sullivan, and Miss Helen King.

Faculty Awards

A highlight of the University Research Conference dinner held in March was the presentation of four \$500 Alumni Association awards to faculty members distinguished in the fields of writing, research, teaching and fine arts. Recipients were: Dr. William Clement Eaton, professor of history; Dr. John Thomas Bryans, professor of animal pathology, Prof. Staley F. Adams, associate professor of applied mechanics, and Professor Frederic Thursz, assistant professor of art.

The awards were presented by Dr. Ralph J. Angelucci, chairman of the Faculty-Alumni Awards Committee.

Dr. Eaton was recognized in the field of writing for his book, "The Growth of Southern Civilization, 1790-1860," which was published in 1961.

Dr. Bryans won the award in research for his outstanding research which has provided new knowledge on the route of infection, of pathogenesis, and practical immunological applications for the control of vibriosis in sheep.

Prof. Adams was nominated by Mortar Board and Omicron Delta Kappa, UK senior leadership and scholarship societies for distinguished teaching. He was recognized for "his ability to make usually uninteresting material of service courses interesting and somewhat exciting."

Prof. Thursz received the award in fine arts for original and noteworthy contributions to 20th-century painting.

Dr. Eaton is one of the foremost authorities on cultural and social history of the American South, and has been a member of the UK faculty since 1946. He is also the author of "Freedom of Thought in the Old South," published in 1939 for which he won the \$1,500 Duke University Centennial Prize; "A History of the Old South;" "A History of the Southern Confederacy;" and "Henry Clay and the Art of American Politics."

He has lectured at the University of Manchester in England under the Fulbright program, and has been a recipient of a Guggenheim Fellowship, a Social Science Research Council Grant, and a Huntington Library Grant. He also has lectured at Princeton University, the University of Wisconsin and Columbia University while on leave from UK.

Dr. Bryans currently is conducting a three-year investigation of the possibility that an infection which produces abortion in cattle and sheep might also be transmitted to humans. The study is financed by a \$57,800 grant from the National Institute of Health, a division of the U.S. Department of Health, Education and Welfare.

He is the author or co-author of 24 articles in scholarly or scientific publications pertaining to virus diseases in animals. Before coming to UK in 1951, he was an assist-

ant in veterinary bacteriology at Cornell University, Ithaca, N. Y.

Prof. Adams has been faculty adviser to the UK Engineering Student Council for 11 of the 15 years he has been on the UK faculty. He studied engineering science at Purdue in 1959, attended Iowa State University to study engineering materials in solid state physics on a National Science Foundation Grant in the summer of 1961, and will attend the University of Colorado this summer to study advanced mechanics under another NSF grant.

He is an associate member of Triangle fraternity, has previously been named as "Professor of the Month" by students in the UK College of Engineering, is a member of Tau Beta Pi, engineering honorary, and Sigma Phi Sigma, physics honorary.

A native of Morocco, Thursz was described by a Washington Post art reviewer as "making his canvasses seem to pulsate with their nicely orchestrated tones, close in value but varied in color." At a one-man exhibition at the Jefferson Place Gallery in Washington, 20 drawings and five oils were sold by the end of the exhibition. He has had two exhibits at Jefferson Place and two in Louisville.

Faculty Awards of \$500 each were presented in March to the above professors by the Alumni Association for distinguished teaching and research. From left are: Dr. W. Clement Eaton, professor of history; Prof. Staley F. Adams, associate professor of applied mechanics in the College of Engineering; Dr. John Thomas Bryans, professor of animal pathology; and Prof. Frederic Thursz, assistant professor of art.

LEXINGTON, KENTUCKY

OFFICE OF ALUMNI AFFAIRS

May 1962

Dear Contributor:

Within the following pages you will find listed the 1961-62 contributors to the Alumni Century Fund and to the Annual Giving program of your Alumni Association through March 10, 1962.

Thirty-two thousand graduates and former students of the University of Kentucky have been contacted several times since June 1, 1961, in an effort to point out the hopes and needs and plans for a greater University of Kentucky and in an optimistic effort, on the part of your alumni officials, to spell out the urgency of alumni support.

One-fourth of the total alumni solicited have responded to our appeals; one-fourth of these 32,000 are listed here and to you, the proud and responsible one-fourth, we extend the heartfelt gratitude of the University Administration, the Alumni Executive Committee, the faculty and the students of this, your University.

A very wise man said once that "success is not a destination--it is a journey," and so, with this in mind we beg of you, the honorable and honored one-fourth, to continue with us on this journey to success by increasing your annual contributions and by becoming, with us, individual solicitors of your classmates and former students.

Richard A. Rushing, Alumni Field Secretary, is organizing an annual giving campaign on an area basis this year. He needs the help of every man and woman who believes in this University and recognizes the incontrovertible fact that your Alma Mater cannot continue to grow without the added dollars which come from alumni support.

Your Alumni Executive Committee has increased the minimum amount for annual giving from \$5.00 to \$7.50 for an individual and from \$7.50 to \$10.00 for a joint contribution from husband and wife. These minimums become effective with the beginning of the Alumni Association's fiscal year on June 1. If each of the 32,000 alumni would contribute these minimums your University would have many less financial problems.

Thanks to the dedicated 500 members of the Alumni Century Fund, the Alumni House contract has been signed and work will begin immediately on your "campus home." The University and her alumni body are deeply grateful and to these 500 and to the others who are backing our program with financial and moral support we say, in humility and appreciation:

"May the roads rise with you, and the wind be always at
your back; and may the Lord hold you in the hollow of his hand."

Sincerely,

1961-62 ALUMNI HONOR ROLL
(Listed through March 10, 1962)

University Affairs

ELLSWORTH L. TAYLOR, '58, art director of the UK Printing Division, was the designer of two books published by the University Press which won honor for design in the 1961 Midwestern Books Competition. The books were "Rhyme and Meaning in Richard Crashaw," by Dr. Mary Ellen Rickey, UK associate professor of English, and "Crevecoeur's Eighteenth-Century Travels in Pennsylvania and New York," translated and edited by Percy G. Adams of the University of Tennessee.

DR. MICHAEL T. ROMANO, chairman of the Department of Operative Dentistry in the University of Kentucky's new College of Dentistry, is one of five Americans chosen to take part in a forthcoming international study of the uses of closed-circuit television in medical education. The group, all members of the Council on Medical Television, will go to Milan, Italy to attend a series of meetings of the International Television Committee. Dr. Romano is the only dentist among the American delegates.

The Health Building will become the Administration Building Annex sometime in the future. Several administrative departments will be transferred to this building after it has been remodeled.

IBM Corporation, Lexington, has presented an engineering prototype of the firm's new Selectric typewriter to the UK College of Engineering. **DR. MERLE CARTER**, head of the UK Department of Mechanical Engineering, says the prototype will be useful in demonstrating complex mechanisms to students.

Stanley H. Humphries, Louisville, a UK senior majoring in ornamental horticulture, has been awarded a \$250 scholarship under the joint sponsorship of the Garden Clubs of Kentucky and the state. The scholarship is to be paid from coins tossed into the pool of the floral clock on the Capitol grounds at Frankfort.

DR. AUBREY J. BROWN, head of the Department of Agricultural Economics, has spent several weeks in Egypt this spring for the purpose of studying the market potential of American grown tobaccos in that country.

A total of 2,913 students living in 47 states and 11 foreign countries and serving aboard 15 U.S. Navy vessels now are enrolled in University of Kentucky Home Study Courses. The program is administered by Dr. Denver Sloan.

Three UK seniors, Mary Ellyn LaBach, Lexington, Tom Bagby, Lexington, and Michael N. Morgan, Dublin, Ireland have been named Woodrow Wilson Fellows for 1962-63. The recipients will receive a full year's tuition to the graduate school of their choice and living expenses of \$1,500. They will study for a career in college teaching. The three seniors are among 1,058 recipients of such awards this year selected from 9,975 nominees from 46 states and Canada. All are members of Phi Beta Kappa.

PROF. WILLIAM H. ROLL, '23, Associate Professor of Mining, was named Professor of the Month in the College of Engineering this past January.

The Highway Materials Research Laboratory on the campus now is serving the 20th anniversary of its establishment. The majority of projects at the laboratory are directed toward finding an answer to a specific problem in highway design, construction or maintenance.

Every science textbook used in schools throughout Kentucky now has a matching list of educational films compiled by the UK Film Library. The list is being widely used by teachers who wish to provide supplementary material for their pupils. Mary Ruby Hart, head of the Film Library, reports that orders for science films have picked up markedly in recent years. However, the largest number of requests this year is for films used in teaching of English.

A series of psychiatry seminars Kentucky physicians have been attending at the UK Medical Center this spring. **DR. BEVERLY T. MEAD**, assistant professor of psychiatry and director of the Medical Center's continuing education program in psychiatry, lectures at each weekly session.

DR. JAMES R. ROONEY, UK veterinary-pathologist, has been awarded a \$38,680 grant by the National Institute of Health to study the bones of horses. The study, he believes, may lead to helpful information as to the causes of slipped discs and other backaches in humans.

The University has been awarded a \$76,000 contract by the U.S. Office of Education to conduct an eight-week institute this summer for 45 high school French teachers. The institute will begin June 18.
