

CAMPUS FACE LIFTING UNDERWAY

The University is undergoing such a face lifting that it will soon be unrecognizable to graduates of a few years ago.

Among the changes now in various stages of construction or planning, according to George R. Kavanaugh, associate business manager, are:

Medical Center—scheduled for dedication Sept. 23-24. The Medical Center eventually will include a Dental Wing and laundry building

in addition to the Medical Building and Hospital now nearing completion.

Haggin Hall—men's dormitory behind Donovan Hall will be completed in time for the opening of school in September.

Fraternity houses — contracts have been awarded for two fraternity houses to be built on Woodland Drive across from Coopers-town. The chapter houses, for Alpha Gamma Rho and Sigma Chi,

will be completed in early spring of 1961.

Chemistry-Physics building—to be constructed in the area which includes the tennis courts and President Dickey's garden. The science building will be advertised for bids sometime soon.

Women's dormitory and central dining room—planned for the area behind the Euclid Avenue Building. The two-story structure will contain dining facilities: for all

women students on the first floor and rooms for 136 women on the second.

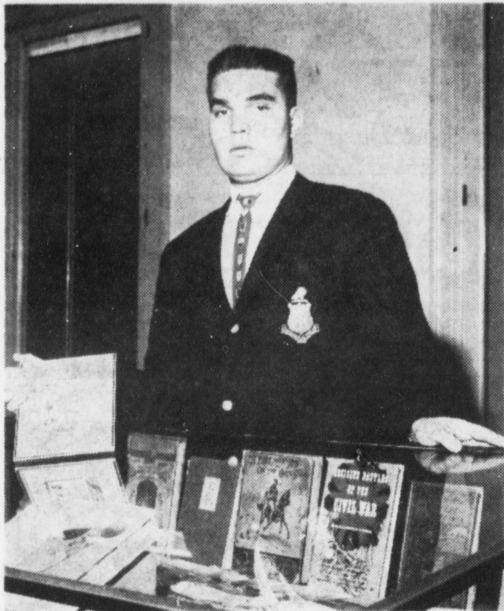

Architectural plans for the dorm, costing approximately \$1,300,000 are nearly complete, and will be sent to Frankfort for approval soon. University officials hope the building will be completed by September of 1961.

Grill—remodeling is going on in the food storage building behind the aeronautical laboratory for an

air-conditioned students' grill which will open in the fall.

Architects are working on preliminary plans for a new Commerce Building on the Little Commons site, and additions to the Library and Student Union Building.

The University budget for 1960-62 also included funds for additions to the education and engineering buildings and for a modification to the heating plant.

Trustees Name New Professors

Three department heads and a director of community services for the Medical Center were approved recently by the Board of Trustees.

At the same time, the Board approved a number of promotions for members of the faculty. The new appointees are:

Dr. John H. Githens, professor of pediatrics and chairman of the Department of Pediatrics. He is presently a member of the faculty of the University of Colorado School of Medicine.

Robert L. Johnson, director of community services. He is currently executive director of the Medical Foundation, Inc., Boston, an organization supporting medical research and health education.

Dr. W. Merle Carter, professor of mechanical engineering and head of the Department of Mechanical Engineering. A member of the UK faculty since 1944, Dr. Carter succeeds Dr. E. B. Penrod, who has been granted a change of work status effective in September.

Charles P. Graves, professor of architecture and head of the Department of Architecture. Graves joined the faculty in 1958 as director of the architectural curriculum in the Department of Civil Engineering, which has been elevated to departmental status, effective July 1.

Faculty members promoted to Professor were:

Arts and Sciences: C. Raymond Barnhart, art; Hartley C. Eckstrom, chemistry; Betsy W. Estes, psychology; Thomas P. Field, geography, and Thomas R. Ford, sociology.

Richard Hanau, physics, and **Juan E. Hernandez**, Alberta W. Server, and **Thomas P. Walker**, modern foreign languages.

Agriculture and Home Economics: **Thomas R. Ford**, rural sociology.

Engineering: **Orville W. Stewart**, mechanical engineering.

Education: **Morris B. Cierly** and **Leslie L. Martin**.

Also promoted were 21 Assistant Professors to Associate Professor and 11 instructors to Assistant Professor.

Enrollment Will Exceed 3,000

A total of 2,535 enrolled at the University on the first day of summer school registration, according to preliminary figures released by Dr. Charles F. Elton, Dean of Admissions and Registrar.

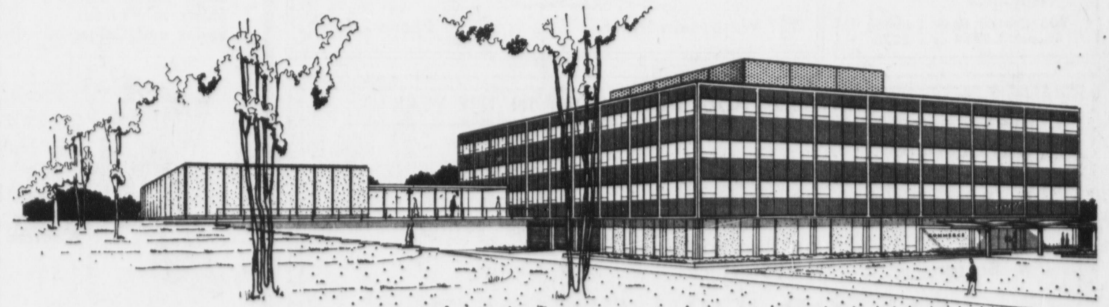

Dean Elton said he expected enrollment to be more than 3,000 after all figures are in.

This summer's enrollment should be about the same as last year when 3,063 attended the summer session, he said.

The all-time high for summer school was in 1949 when 4,050 students registered.

The Graduate School has the largest individual enrollment with 1,054. Other college and their enrollments are: Agriculture and Home Economics, 107; Arts and Sciences, 477; Commerce, 170; Education, 429; Engineering, 264; Law, 27; and Pharmacy, 7.

The preliminary figures do not include late registrants or those enrolled in workshops and short courses. Students enrolled at the Ashland Center or the Northern Center at Covington are not included.

Students, Faculty To Be Exempt From Tax In Grills, Cafeterias

UK students and faculty members will be exempt from the state sales tax to be levied on purchases in the University owned grills and cafeterias, according to George R. Kavanaugh, UK associate business manager.

Kavanaugh said those students enrolled at UK for the summer sessions who do not wish to be subject to the tax should present their enrollment receipts when paying their checks in these units.

There is a possibility, Kavanaugh stated, that students who do not normally receive meal tickets will be asked to present their ID cards.

Computer Course

The University Computing Center is offering an evening course in IBM 650 computer programming.

The course will be held in Room 104, McVey Hall from 3-5 p.m. on Tuesdays and Thursdays beginning June 28 and continuing through July 18.

There is no charge or prerequisite for the course in which students may enroll by phoning 2480.

The sales tax is scheduled to go into effect one week from today.

Under the present interpretation of the Kentucky sales tax regulations, the tax will be collected from any of the general public making use of these units.

Ross Wins Book Award For Civil War Collection

The annual Wilson Book Award was won by Wesley F. Ross, sophomore journalism major of Lexington, for his collection of Civil War books.

The collection of 130 books is on display in the Margaret I. King Library.

Ross was presented with \$25 and an illuminated leaf from a medieval manuscript.

Ross said he became interested in the Civil War at the age of 12 through the influence of Dr. Lewis Warren, a past director of the Lincoln National Life Foundation in Ft. Wayne, Ind.

Dr. Warren set up a Lincoln pilgrimage from Rockport, Ind., to Lincoln City and published a weekly historical newsletter on Lincoln.

Ross's collection included Bruce Catton's "A Stillness at Appomattox," Winston Churchill's "The Crisis," a group of books on Abraham Lincoln, and a book by UK's Dr. A. D. Kirwan.

The Wilson Book Award is made possible by the late Judge Samuel M. Wilson and is designed to en-

courage book collecting by students, said Dr. John T. Flint, chairman of the committee which presented the award.

Other members of the committee are Dr. Robert Buck, Dr. Richard Gilliam, and Dr. D. Edmund Pellagrino.

Summer Schedule For Interviews Is Announced

The UK Placement Service has announced that representatives from two public school systems will be on campus this summer to recruit qualified teachers.

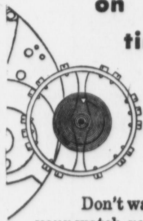

Persons desiring interviews should arrange immediately for a definite time on the schedules. Information is available in Room 207 of the Administration Building.

June 28 — Lamphre Public Schools, Madison Heights, Michigan, will interview teachers for first, second, and third grades.

July 5 — Cleveland, Ohio, schools will interview teachers in all fields.

Army researchers have found that an earthworm's ability to learn is greater from 8 p.m. to midnight than from 1 a.m. to noon. If this is true of humans as well, fraternities would be wise to make their pledges take night courses.
