CRL JOURNALS ACCESS SERVICE

The Center for Research Libraries has announced a new service called JOURNALS ACCESS SERVICE. This service will provide free photocopy of articles in journals in the fields of science, technology, and social sciences with an imprint date of 1970 or later, with the exception of articles dealing with clinical medicine.

THE
GREEN
BEAN
UNIVERSITY OF KENTUCKY LIBRARIES
NEWSLETTER 7/11/75

For articles not owned by CRL the requests will be transmitted to the British Library Lending Division (BLLD), using the TYMSHARE computer network. The BLLD will send photocopy of the requested articles directly to the member library. The expected time-lapse on requests to BLLD is 5 to 12 days.

This service will be available only to the students, faculty, and staff of the member institutions and should not be used to fill the needs of researchers at other institutions. The requests should be limited to current research needs and should not be used to fill in missing pages from journals held by the member library unless those pages are needed for current research by a student or faculty member.

The benefits of this new service are twofold. First, the response time should be faster and more economical because Interlibrary Loans won't have to verify locations and pay the charges involved in most transactions. Second, it will allow the library to allocate acquisitions funds for other library needs and not expend those funds on little used journals in the fields of science, technology and the social sciences.

SOLINET TERMINAL SCHEDULE

The Solinet Processing Unit has now set up schedules for use of both terminals. Free times will be between 2 and 3 p.m. on Monday and after 6 p.m. Monday through Friday. This time is open to all staff members who do not have regularly scheduled terminal time.

Each Solinet staff member will operate terminals approximately three hours per day and time is also allotted to various other staff members who will be using the terminals consistently. Terminal time is valuable so please refrain from interrupting anyone who is operating the terminals. Any Solinet staff member who is not doing terminal work will be glad to assist you.

Thank you.

Gail Kennedy

STEAM SYSTEM REPAIRS

Physical Plant will be making repairs in the steam distribution system in King Library from 9:00 a.m. Aug. 13 through 4:00 p.m. Aug. 23. Steam will be shut down during this time. The only real effect this will have on us is that there will be no hot water during the repair period.

PERSONNEL NOTES

Job Opening:

LT III - Circulation (Night Supervisor) - open July 21.

EMPLOYMENT OPPORTUNITIES

Art and Architecture Librarian, Washington University Library, St. Louis, Mo.

Science Reference Librarian, University of Arizona, Tucson.
Salary: \$9,300
