UK to ask city to rezone 15 acres of Coldstream

By TONJA WILT Campus Editor

UK will ask the Lexington-Fayette Urban County Planning Commission to approve the rezon-ing of 15 acres of Coldstream Farm in order to allow the construction of a research facility. The UK Board of Trustees Execu-tive Committee approved a propo-

The UK Board of Trustees Execu-tive Committee approved a propo-sal to build a Research Campus that will include a high-technology research laboratory and related activ-ities in a campus-like setting. UK will file an application with the Lexington-Fayette Urban Coun-

by Planning Commission for a Small Area Change in the land at Coldstream Farm. The process will take 6 months is approved, UK will build a Research Campus portion of the overall development of Coldstream Farm that will employ about 200 people. A plan presented by MPC & Associates, a Washington D.C., consulting firm hired by UK, recommended last year that 500 acres of the farm be used as an office research park.

The farm, which is on Newtown Pike near the Interstate 64-75 inter-

Plans to build research facility that would employ 200 people

change, is used by the College of Agriculture for research. If the Uni-versity's proposal is approved, UK President David Roselle said that it would benefit agricultural research. "You need to consider the agri-cultural needs," UK President David Roselle said. "What we are recom-mending today does suggest devel-

opment for the agriculture experiment station."
Coldstream needs to be rezoned to allow a high-technology company to relocate, Roselle said.
The application to rezone will be submitted by Friday. The process should take six months, according to Joseph Burch, of the UK legal

council.

The proposal to build a research facility was passed by the committee by a 3-1 margin.

Larry Forgy, chairman of the BOT finance committee, cast the single opposition vote because he said it would be more profitable to build a shopping center on the farm.

"That shopping center ... would give us the kind of development money to relocate the animal devel-opment," Forgy said. "I see the University and the public about to lose the opportunity for a financial windfall with strategic location of

the shopping center.

"There would be enough money to move the agriculture center and provide 2,000-3,000 scholarships," he said. "If we vote with just part of this we are doing a disservice to the children of this state.

"I would rather see us leave it in it's pristine form," Forgy said. "If we aren't going to do it right then let's not do it."

UK originally had proposed to develop a mail on the northeast corner of the farm, but dropped the plans last summer.

Earlier during yesterday's meeting UK trustee James Rose ex-

SQUEAKING OUT A WIN

Ellinger elected by 70-vote margin

By DAVID A. HALL

The heat was not off Dr. Charles W. Ellinger until late last

Chartes 11. Chartes 12. Chartes 12. Chartes 13. Chartes 14. Ellinger, a UK dentistry professor, was elected to one of the three council-al-large seas on the Lexington-Fayette Urban County Council last night by just 70

Council last night by just 70 votes.

With 97 percent of the precincts reporting, Ellinger received 17.455 votes — 18 percent — squeaking past two-term incumbent Barkley Blevins by just 70 votes. Although the totals are un-official, Ellinger proclaimed his victory shortly after 11 p.m. Polls had predicted that Blevins and Council member at Large Pam Miller would vie for the top two spots, with Ellinger running third.

Miller overwhelmingly finished first, receiving 30 percent of the vote, but Theresa Isaac polled an unexpected 22 percent to finishers.

The top three finishers in the six-candidate race are elected to

six-candidate race are elected to four-year terms. Ellinger said that he was surprised by the outcome of the race. "I'm surprised that people way they did," he said. "The upon at a two-person race for the boatom." Blevins' fourth-place finish endel his eight years of service on the council. Lellinger, who has served two

terms as 10th District councilman, said that his victory means a strong voice in Urban County government for UK.

"I will be a voice (for UK) and help to coordinate various types of programs and concerns for the University and the Council," he

who also was active in Ellinger's campaign.

Many Ellinger supporters said that their candidate will be a strong addition to the Council.

"I think he (Ellinger) will continue to do for the entire commu-

nity what he's done for the 10th District," said Wayne L. Smith, finance chairman for Ellinger's

Committee calls for new campus library

By SUZANNE REESE Staff Writer

The Library Student Advisory Committee called for the University to build a \$25 million library yesterday. The library probably would be built in Clifton Circle, according to LSAC members.

The Margaret I. King Library is about 111,000 square feet short according to national standards. Rather than building an addition to King Library, LSAC said a new one should be built that is centrally located to the campus.

Library, LSAC said a new one should be built that is centrally located to the campus. "Teel strongly enough about the need for a library," said Library Director and LSAC adviser Paul Willis. "We are about 3,000 seats short compared to the number of seats we should have and that's counting the seats in all libraries on campus." The new library would be funded by University funds, although LSAC said the private sector may be asked for money.

Once funding for the library is secured, LSAC said it would take about three years to break ground. "I think the construction of a new library would benefit the campus as a whole," said LSAC chairman Allen Putman. "Not only would the new facilities meet the needs of the students but it would also expand the library to be proze

needs of the students but it would also expand the library to be more

accessible."

The University included in its biennial request that a new library facility be added to the King Library.

LSAC also proposed yesterday lockers be provided in King Li-

Soviet celebration draws fire, protests

MOSCOW — Anti-Communist marchers, striking workers and clashes between police and protest-ers vied yesterday with a scaled-down military parade on Red Square as the Soviet Union celebrated the 1917 Bolshevik Revolution. Even President Mikhail S. Gor-bachev tempered the Revolution day festivities by saying the na-tion's economic problems hang like a "sword of Damocles over us."

Gorbachev and other leaders cele-brated the 72nd anniversary of the revolution reviewing the traditional show of military force. Activists in the southwest repub-lic of Moldavia said police broke up a crowd of thousands of would-be protesters and beat some of them. The military part of the pa-rade in its capital, Kishinev, was canceled. In the Arctic city of Vorkuta.

carceled.

In the Arctic city of Vorkuta, striking coal miners joined the official celebration, but carried slogans demanding more independence and that the government fulfill promises of better living conditions.

In some trouble spots, such as the Caucasus republics of Armenia

and Georgia, state-run media said traditional parades were canceled. Boris Sokolov, an activist from the Baltic republic of Latvia, said a small group of people burned a red Soviet flag in the capital.

Gorbachev acknowledged that many Soviet feel threatened by food shortages and the disorganization of the consumer market.

"When all this is hanging like a sword of Damocles over us, it is very important we do not forget the main thing, that this is the way we have chosen to follow," he said, referring to the Greek legend in which a sword was strung by a simple bair new the beat of In proceles.

snip has not yet oeen able to replace fully the administrative system of the past, and "thus there
exists a loss, or a weakening of
control. Shall we go back? That
would be a mistake."
The anniversary marks the day in
1917 when the Bolsheviks under
Lenin seized power from a provisional government.
"We're tired of 70 years of Communist power with nothing having
changed for the better, and this is
our protest," said Taisya Shlyonova, a retiree. One placard characterjaced communist rule as "72 years
on the road to nowhere."

prepared, survey shows

USA TODAY/Apple College

College faculty members are feeling better about their profession, but they say they're still frustrated by autocratic administrators and students who increasingly lack basic skills, a new study reveals.

"Faculty have always been less than fully satisfied about the academic seriousness of their students," said Dr. Ernest Boyer, president of the Carnegie Foundation for the Advancement of Teaching.

Boyer said that the survey shows that "public education, despite six years of reform, is still producing inadequately prepared students."

The 5,450 faculty members surveyed see trends both good and bad in areas of:

Student abilities: 75 percent said

•Student abilities: 75 percent said

Seventy percent said students are more grade-conscious than ever, 43 ercent said that students are more

percent said that students are more willing to cheat to get good grades.

*Administration: Most faculty members said that the reward system is heavily weighted toward published research, not effective teaching. Ninety percent rated their institutions "very good" or "fairly good," but 69 percent said their administration is "autocratic."

"Teaching: Two-thirds said that this is a good time for young peo-ple to begin an academic career, and about half believe job prospects have improved in the past five years.

that colleges need to find ways to help elementary and secondary

Parents becoming involved in schools

In Silverdale, Wash., Cougar Valley Elementary School soon will offer day care to parents who volunteer as classroom aides, library assistants or administrative clerks.

At Baltimore's Falstaff Midde School, parents bring prints of classic paintings to sixth, seventh-and eighth-grade classrooms. They discuss the art, then leave it hanging on the classroom walls.

ing on the classroom walls.
"There's a whole world of the
youngster that parents have no input in unless they go (to school)
and assert themselves," said Patti

Wilhelm, whose daughter, Anya, is a Falstaff seventh-grader. Parents are becoming actively involved in their children's education. Teachers, principals and PTA leaders are encouraging them as research shows the more parents help, the more kids learn. "The evidence is beyond dispute: Parent involvement improves stindent achievement," said Anne Henderson, who has compiled 15 years of research for the Navional Committee for Citizens in Education. "Programs designed with strong parent involvement produce students who perform better than otherwise identical programs that do not involve parents," she said.

Researchers say that parent involvement sends a message that the parent expects the child to do well. Columbia University's Herbert Ginsburg said parental attitudes are a big reason why Asian students outperform others in math. Asian parents show "that success is possible and desirable," Ginsburg said. Parents of non-Asians "are too easily satisfied," he said. The American Association of School Administrators, in its pamphlet "Parents — Partners in Education," tells parents: "You are your child's first, and most important teacher. When you speak words your infant understands, you are a language teacher; when you help your child learn colors, you are a reading teacher."

"Schools just simply can't do it alone," said AASA's Gary Marx. "We need parents as members of

But one parental attitude Marx would like to change: "You just can't sit back and say I didn't do well (in school) so my kids don't have to do well."

Some teachers also have attitude

Researchers report examples of teachers who discourage or resist

"There is a general attitude that inner-city parents don't care," said Joyce Epstein of Johns Hopkins University. "Teachers sometimes write these parents off, but these parents don't want to be written off."

Dramatic evidence of inner-city parents' help came nine years ago from James Comer, a Yale child

He studied two New Haven, Conn., elementary schools where most parents were single and on welfare.

Johns Hopkins' Epstein said that two decades of research show "chil-dren have an advantage in school when parents continuously encour-age their school activities."

A new book, PTA Talks to Par-ents, by National PTA communi-cations director Melitta Curright, offers parents a report card for help-ing their children's education

No matter the sport Bo Jackson thrills

LOS ANGELES - When Bo

LOS ANGELES — When Bo Jackson is at the plate or in the backfield, don't blink. He may hit a 480-foot homer or run 92 yards for a touchdown. He's played in only 21 NFL games and has surpassed the 100-yard mark in rushing just three times, yet Bo inspires those who watch him to say he'll be one of the all-time greats before he's through. Jackson is already pretty close.

Jackson is already pretty-close.

"Bo is as advertised," Cincin-nati coach Sam Wyche said Sun-day after Jackson gained 159 yards on only 13 carries and scored two touchdowns to lead the Los Angeles Raiders past the Bengals 28-7. "He is one of those rare ones that comes along only so often.

"I hope everyone enjoys watching him now because he will go down as one of the leg-ends of the game, believe you me," Wyche said.

Jackson, playing in just his fourth game since baseball season ended, ran over safety Rickey Dixon in sooring on a 7-yard run early in the first quarter and was a blur during a franchise-record 92-yard touchdown run late in the opening period.

"I can't even sit down anymore, because I'm afraid I'll missing something," Raiders defensive lineman Bob Golic said. "Thank God for that big replay board at the end of the stadium, of a classes what I missed when I turn my head."

The 92-yard dash was a simple sweep off left end. Once Jackson turned the corner, he was history."

"My grandmosther could have

turned the corner, he was history,
"My grandmother could have
run that play," Jackson said. "I looked ahead of me, and there
was nothing there but green."
"He just sort of dipped inside
and ducked outside, and then he
outran everybody," Bengals cornerback Eric Thomas said. "Bo
would probably be the best back
in the league if he played football full-time."

Giamatti's last book to hit stands on Dec. 13

By RONALD BLUM

Associated Press

NEW YORK — For A. Bartlett
Giamatti, baseball was a metaphor
for American life. The former Yale
president and baseball commissioner, who died of a heart attack Sept.
1, tried to explain why in "Take
Time for Paradise: Americans and
their Games."

"Baseball, in all its dimensions,
mirrors the condition of freedom for
Americans that Americans ever
guard and aspire to," he wrote in
the 98-page essay, scheduled for
publication Dec. 13 by Summit
Books.
"To know baseball is to continue
"To know baseball is to continue
"To know baseball is to continue

Books.

"To know baseball is to continue to aspire to the condition of freedom, individually and as a people, for baseball is grounded in America in a way unique to our games.

Baseball is part of America's plot, see the America's plot, see the America's plot. pascoall is part of America's plot, part of America's mysterious, underlying design — the plot in which we all aspire and collude, the plot of the story of our national life.

"Our national plot is to be free enough to consent to an order that will enhance and compound - as it constrains - our freedom. That is our grounding, our national story the tale America tells the world. In-deed, it is the story we tell our

scives."

The prose throughout is flowery, just as it was when Giamatti spoke. He, unlike many intellectuals, believed sports deserved the seriousness of other endeavors. He wrote his thoughts last winter, several months before moving from National League president to com-

eral months before moving from National League president to com-missioner. A copy of the galley proofs was made available this week by the publisher.

"It has long been by conviction that we can learn far more about the conditions, and values, of a society by contemplating how it chooses to play, to use its free time, to take its lesiure, than examining how it goes about its work," he wrote. Giamatti, a professor of Renais-

its leisure, than examining how it is leisure, than examining how it goes about its work." he wrote. Giamatti, a professor of Renaissance literature at Yale, was known as a baseball fanatic even before he became NL president in December 1986. In a marked departure from most sports books, he quoted Shakespeare, Aristotle, Milton, Jane Austen, Thomas Carlyle, literary historian Michael O'Loughlin and poet Henry Vaughn.

"Briefly stated, my argument is that sports are a subject of leisure and that properly to understand the allure and enduring appeal sports have for us as Americans, one must first understand the nature of leisure as that concept has developed since the Greeks, especially Aristotle, Giamatti wrote in the preface.

"I argue that sports are in today's world what they were in yesterday's very different one — a shared moment of leisure."

steps down as Honors Program Director

Betts showed UK the honor found in an education

UK has received quite a bit of unfavorable national attention this year for the NCAA investigation into the men's basketball team. At the same time, however, the University has received national recognition of a different nature, as one of the

country's outstanding public colleges.

Martin Nemko, in his book How to Get an Ivy League
Education at State University, selected UK not because of its
basketball tradition but because of its often underrated

academic programs and increasingly higher standards.

UK hasn't always been considered so highly in the academic arena, and it still has a long way to go in the minds of most people. But it has taken a great deal of leadership and vision to reach it's current level.

reach it's current level.

Many faculty, administrators and students have taken part in shaping UK's history, but one who stands out in particular and who seldom gets as much recognition as he deserves is Raymond Betts, director of UK's Honors Program.

One main aspect of UK that Nemko highlights in his book is the "upgraded Honors Program," which "will challenge the brightest mind." He observes that high concentrations of the Unstandings at UK are in the Honors Program. In fact, seweral. top students at UK are in the Honors Program. In fact, several top students have said that the Honors Program is one of the primary reasons they even considered UK, and all the recipients of UK's prestigious Singletary Scholarship now join the Honors Program.

Betts brought a rare sense of enthusiasm, dedication and vision to the Honors Program. But after 12 years in the director's position, he is stepping down at the conclusion of the spring semester to give someone else the opportunity to fill the role. An appointed search committee is looking for candidates to take Betts' place, but they certainly will have a

candidates to take Betts' place, but they certainly will have a hard time filling his shoes.

This history professor and Board of Trustees member has gone out of his way to talk to top high school students and encourage them to come to school here. He speaks to dozens of organizations each year, in the process bringing highly favorable recognition to the Honors Program, and hence the entire University. entire University.

entire University.

Besides playing a large part in bringing top students to UK,

Betts' enthusiasm and intellectual curiosity has encouraged
many students to pursue their own studies in a similar fashion,
thus further enriching the University's academic quality. Other
faculty and administrators would do well to emulate his style,

faculty and administrators would do well to emulate his style, emembering that students at the University always come first. While Betts' leadership has brought the Honors Program great lengths over the last 12 years, it probably is best that a new person, with innovative ideas and a different perspective, take the reins now, to lead the program into the new decade. The search committee should not give up until it finds the best person for this significant and creative position. Last week Betts said simply that he "would like to think my consider have been beneficial to the students." In that pregard

services have been beneficial to the students." In that regard he certainly has nothing to worry about.

Education as hard as any college

COHEGE

I am writing in response to Catherine Monzingo's column that appeared in the Oct. 31 Kernel.

I would like to respond to her criticism of the Education Program. Number one, I am enrolled in the Elementary Education Program and I take offense to her comments on the intelligence level of education majors. In her article she wrote, "I realize that the more intelligent will not go into education until pay and prestige of the field increase." Some people choose to go into education for the fulfillment that it gives them.

gives them.

Ms. Monzingo also wrote, "I do not understand why it is easier to get into the College of Education than other colleges." I don't know where she got her information for that statement, but in the College of Education the minimum grade point average for acceptance is a 2.5.

the education program must first take the CTBS test, which isn't the

most difficult test, I admit, but the person must then go through an in-terview with two or three faculty members who may ask them any questions they deem appropriate.

questions they deem appropriate.
After a person goes through these
things, they must wait at least
three weeks to learn whether or not
they have been accepted.

I called around to various colleges to find out what standards they
have for admissions. I discovered
that in the College of Business &
Economics a person must have a
grade point average of 2.5. In the
College of Arts & Sciences there is
on specific grade point average a College of Arts & Sciences there is no specific grade point average a person must have to be admitted. The College of Agriculture told me to same thing. I also called the College of Communications, which told me that it varies depending on how many hours you have carned, but if fluctuated between a 2.0 and 2.6.

2.0 and 2.6.

An

Money

Everybody needs it, but the problem is how to get to it

In days gone by, college stu-dents away from home sent off emergency pleas to their families saying, "I'm broke! Send cash, quick!"

saying, "I'm broke! Send cash, quick!"
But now we have the convenience of Automatic Teller Machines that allow us to access funds without having to pay 25 cents to get 25 conts to get 25 con

The bill, based on its unop-posed run through the Campus

Relations Committee, should pass this evening. But regardless of the vote, the administration must take heed of the request. There are many locations in the Complex-Commons where an ATM could be placed. If not in the main hall, a machine could be placed outside Studen Billings or in the computer room, where one more beeping machine isn't going to make a difference. The only service similar to an ATM on South Campus, as the bill points out, is the Student Billings Carvice check cashing service. But that service is open only from 9 a.m. to 3 p.m. on weekdays.

weekdays.
SGA's Student Escort service operates from 8 p.m. until midnight, Monday through Thursday. But those are times when students can most easily access money for

food via their DinerCards.
On weekends, South Campus students have a greater demand for a money machine when calling out for pizza or visiting area restaurants, at times when a Diner-

Staurants, at times when a Diner-Card is useless.
Students living on South and
Central campus have to take the
unnecessary risks to walk across
campus in the dark to obtain

UK officials have made signifi-cant attempts at improving cam-pus safety, but why take an unner

cant attemps at improving cam-pus safety, but why take an unne-cessary risk when an ATM could be placed in the Commons? The administration has "been looking into" a South Campus ATM for "several months," ac-cording to University Comptrol-ler Henry Clay Owen. According to Owen, the Uni-versity, as a public institution, must comply with state laws which require a competitive bid-ding process. At this point bids have not yet been taken, but offi-cials have found that many bank-ing institutions are interested. Owen agrees that the goal set in the bill is possibly attainable.

Tomorrow Owen and Vice Chancellor for Administration Jack Blanton will meet to determine what factors will go into the selection process, such as number of machines and services offered. The meeting could be the first significant step in obtaining an ATM on South campus.

Last year SGA passed a weaker bill that contained no date in which the administration had to act. Consequently, UK officials took no significant action. But the urgency placed on this bill must not permit the parties involved to become complacent.

South Campus Students and SGA officials will not ease off the task as the student pressure does and give students excuses in May.

Precisely what all college students need the most ATMs have—money.

Now, if South Campus stu-

if South Campus students could just get access to it.

Group counseling can be good therapy, if it encourages construtive feedback

some friends sat me down and told me some things I did that made it hard for them to be my friends. They suggested that maybe I should seek counseling, quite possibly in a group, to get help with what they say are "my issues." I really usues." I really with want to tell about myself in front of a bunch of strangers, so what do I do? How does group counseling work? Rejected, biology sophomore.

Dear Rejected: I'm glad to have a opportunity to explain the process of group counseling. First though, I want to say that I admire what your friends did. You are angry and hurt, but I hope you can feel their caring and concern as they attempt to tell you may turn off people or push them away.

What you have just experienced with your friends highlights an advantage to group counseling — the ability of group members to give caring, constructive feedback to each other. Dear Rejected: I'm glad to

Everyone has an opportunity to air their opinions and feelings and to give and receive feedback about to give and receive feedback about their thoughts and feelings. The group gives you an opportunity to have your friends' comments con-firmed or discounted.

You may wonder how perfect strangers could know enough about the real you to give useful feed-

CORNER

back. Simply stated, the group experience becomes a true microcosm of the interpersonal world of each member because participants will behave in the group in the same manner they do outside the group.

manner they do outside the group.

To illustrate this principle, if you are an impatient person, you will undoubtedly be impatient at some times in the group. The only difference between the people in the group and your friends is that your friends are more likely to hold back their feelings about the effect you have on them. Group members are more likely to volunteer their feed-back because it is expected and appropriate group behavior.

Another outcome of group coun-

Another outcome of group cou seling is that participants start to feel close to each other even if they were initially total strangers.

As different members of th group share concerns, issues and information about their lives, a bond develops among the group members. Sharing, giving and re-ceiving support are the main activi-ties of the beginning stage of the

Members start to feel involved/ invested in each other's lives and ine caring comes the impetus for the giving and receiving of constructive feedback.

To produce this "bonding" the To produce this "bonding" the members of the group listen em-phatically, make clear and direct statements about what they want and feel and give supportive com-ments and confront in a positive, non-blaming fashion.

These may be new behaviors for ome members and will require time to acquire and polish these in-terpersonal skills. For other members these interpersonal skills may be in place but seldom used. Group

be in place but seldom used. Group is a "safe" place to try out new behaviors and coping skills.

The group leader provides the safety net for the risky business of sharing about oneself and experimenting with new behaviors. The group leader's role is to facilitate the expression and elaboration of opinions and feelings from the newopinions and feelings from the par-ticipants and to promote relation-ship-enhancing communication among members.

among members.

The group leader has the primary responsibility, but certainly the whole group shares this responsibility, of ensuring there is a balance in the group so each member gets a fair share of the attention and the focus of the other members.

An additional benefit of group counseling is that participants see other members struggling with the same issues and problems and feel more "normal" as they struggle

with their problems. Group experiences also can invoke issues surrounding your family. This is a likely occurrence since members tend to behave much as they did in their family and most important group ex-

The roles group participants played in their families, i.e., media-tor, rebel, joker, etc. are the roles they often will try to assume in the group.

How members handle closeness

and conflict usually reflects how their families handled these issues The value in all this is that the feelings, attitudes, beliefs and be-haviors that are problematic by-products of your family can be ex-plored and worked on in a suppor-

piorea and worked on in a suppor-tive group setting. The Counseling Center offers groups related to childhood sexual abuse, dysfunctional family sys-tems, eating disorders, grief and loss, chemical dependence and per-sonal growth counseling groups.

If you would like to address these If you would like to address these issues or you have a problem you would like addressed write: "Counselor's Corner"; 301 Frazee Hall; UK; Lexington, Ky., 40506-0031, or contact the UK Counseling and Testing Center, 257-8701

We reserve the right to edit all material.

Sex and violence on television prompt calls for restraint

Harry Stein is a New York writer who marched against the war in Vietnam and he said he has always believed in free speech. But he said he is sickened by the amount of sex and violence he sees on television. And Stein said that he wants someone to do something to stop it.

"You don't want to be accused of being in conflict with the First Amendment," said Stein, the for-

mer ethics columnist for Esquire magazine and a registered Demo-crat.

But, "I think the harm being done by some of the stuff that is running amok through our popular culture has to be stopped. It has to be limited."

Television's offensiveness is prompting action from people who would never describe themselves as the property of th

be limited."
Television's offensiveness is prompting action from people who would never describe themselves as conservative.
"It isn't just the crazies that are concerned," said Peggy Charren, president of Action for Children's Television, which seeks to broaden

want to say, 'Take it off the air.''
George Gerbner, former dean of
the Annenberg School of Communications at the University of Pennsylvania, studies sex and violence
on television, and his research
shows that prime-time television
viewers can count on watching six
to eight violent incidents an hour, a

figure that has remained stable for about 20 years.

When it comes to sex, however, Gerbner has found that things have heated up by 30 percent in the past decade. Sexual activity now occurs 11 times every prime time hour. Sex sells, and television is a business that depends on sales. Recent mergers of communications companies with corporate giants and mounting competition from cable and video has forced networks to nurse profits more than ever, Gerbner said.

"The greatly increased bottom-line pressure puts a set of con-straints on creative people to be ever more sensational, bizarre and provocative," he said.

Lew Hunter, a UCLA professor of screen writing who has worked in the programming departments of the three major networks, said that sex and violence always has been a dramatic staple.

Such programming is turning

dramatic staple.

Such programming is turning some parents into television cops who monitor and control the shows their children watch.

Although some parents are out-

raged by television, many are loath to censor broadcasts. "It's a dilemma that people like me have," Charren said. "I tell the public that it's appropriate to re-spond to what they see on televi-

sion.

"But there is a part of me that hopes they won't organize a big

campaign.
"Where do you draw the line between suff that makes people like me nauseous and the kind of stuff that has to be on the air in a free country that makes a lot of people very unhappy?"

Webb Wilder delivers varied, rousing set at Breeding's

By HUNTER HAYES Staff Writer

Introducing himself as "Webb Wilder — the last of the full-grow men," Wilder took the stage and rocked hard, as his credo says, for the next 80 minutes.

the next 80 minutes.
On tour in support of his latest album on Island Records, Hybrid Vigor, Wilder showed the near capacity crowd at Breeding's what rock 'n' roll is about: pure fun. From the opening guitar riffs of "Louisiana Hannah," Wilder and his band played a relentless set that included a great deal of material from the band's new release.

The band then quickly launched immediately into the second song, "Wild Honey," which helped jumpstart the crowd. Wilder went through songs such as "What's Got Wrong With You?" and "Animal Lover" with such vigor that you have to believe that Wilder lives up to his credo ("Work hard, rock hard, eat hard, sleep hard, grow big and wear glasses if you need 'em'). Wilder introduced "Animal Lover" by demonstrating his talent at story-telling — much in the man-ert that has become legendary at

ner that has become legendary at Bruce Springsteen concerts. That talent may prove Wilder to be the

athlete who is having a really bad day. Parker comes home to find his foster mother and two sisters slashed to bits. His complacent fos ter father, Lieutenant Parker (Mi-

ter father, Lieutenant Parker (Mi-chael Murphy), is the detective in-vestigating the case. It turns out that Johnathon dreamt the massacre of his family before it happened. He goes to his father with this revelation, but his father thinks that his son has drank a little too much Gatorade and decides to ig-nore it.

After Pinker already has decreased the population of Maryville by half, his father goes on Johnathon's hunches. By this time Johnathon's girlfriend has already been expired by Pinker.

But wait, that is where the film gets really bad.

After catching Pinker and putting Mark Twain of rock 'n' roll.

He was set to prove that he indeed wanted to have fun and even
told the crowd, "There's no law that
says this dance floor is sacred ... so
if you want to get out there, we'll
sweep the toe nails out in the
morning."

sweep the toe nails out in the morning."

The dance floor was never empty again and Wilder himself, dancing on stage, seemed satisfied.

Highlights of Monday night's performance included "Do You Know Something (I Don't Know),"—which was introduced as "a song about college" — "Rough Rider," and crowd favorie, "Cold Front." Wilder frequently spoke with the

human capabilities, is somehow still alive. He escapes from prison and this time he's really mad. With electricity on his side, Pinker is able to move through outlets and inhabit any person's body he wants. The new and im-proved Pinker takes hostage of peo-le's bodies in order to disguise himself while keeping to his favor-ite pastime.

himself while sceping to ins tavorite pastine.

To further complicate matters, much like Superman's krypton, the only thing that can stop Pinker is a golden locket Johnathon gave to his girlifriend. The rationale behind this is that the only thing to battle hate is love. Excuse me while I womit.

hate is love. Excuse me wind.

Not to give away much of the stark plot, this movie ends as all horror movies end. Enough said.

Craven's main problem is that he attempts to accomplish too much with the film. There are a few scenes that are intensely scary, but mostly they are just stupid or goofy.

fy.

It was entertaining to see the two

crowd, including one occasion where he talked about chances. "I know that you've got to take a chance," he said before he got to take a chance," he said before he 'Safeside." "You took a chance by coming here tonight."
Wilder ended the evening with a salute to two of the forefathers of rock in "Ioll, Roy Orbison and Jerry Lee Lewis, with an energetic version of "Move On Down The Line."

An unexpertable.

sang with such emotion that she could excite you one minute, break your heart the next, hen make you forget all of your worries again.
Ball showed that she is an equalya dept pianis as a singer. Backed by a three-piece band that covered all bases from rhythm and blues to country, the crowd definitely was ready for an evening of rootsoriented music.

The real treat of the show, however, belonged to Wilder and his band, who played as though they

were weaned on a healthy supply of the Rolling Stones classic Exile on Main Street.

With many trends coming and going in modern music, it is no surprise that there are many roots-oriented bands today.

With concerts like that, Wilder is bound to rise above his cult status and have the Webb Wilder Credo hanging in homes everywhere—somewhere between the Lord's Prayer and scratched Chuck Berry records.

Director Craven returns with a 'Shocker'

By CHARLES McCUE

Mr. Clean goes on the rampage Wes Cravens' new film, "Shock-

Mitch Pileggi plays Horace Pinker, a TV repairman who has a Pinker, a TV repairman who has fascination with killing people, is addition to being a dead ringer for

addition to being a dead ringer for Mr. Clean.
The plot had potential, but that soon dissipated into a hokey, pseudo-scary movie.
Craven is best known for his work on "Nightmare on Elm Street" and "The Serpent and the Rainbow." To each of those films he brought originality and style.
Those two elements were soon lost in "Shocker."
The movie centers around Johnathon Parker (Peter Berg), a college

The Call to play in Lexington next week

The Call, on tour to support their new album Let the Day Begin, will play Lexington next

day.

Let the Day Begin is the sixth album by the band, which started nearly a decade ago.
It was with Reconciled that two of The Call's more popular songs, "I'still Believe" and "Everywhere I Go" were released.

The Call will appear at Breedings Monday, Nov. 13 at 9 pm. Tickets are \$10 in advance, \$12 at the door.

fight on "Leave It To Beaver," and during the Tiananmen Square riots, but that was a inappropriate for a

but that was a mapping.

This movie marks a move toward a different genre of horror movies — movies that mix humor
into the plot. That is evident in
films such as the "Friday the 13th"

classic horror films like "Texas Chainsaw Massacre" have gone the way of the dodo bird.

call 276-5415

HOURS: Monday thru Friday 9 a.m.-4 p.m. 3200 Lansdowne Dr.

Imagine.

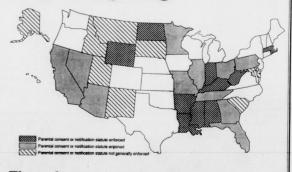

Imagine a state law that forces pregnant teenagers to tell their parents if they want an abortion, even in families plagued by physical violence and sexual abuse.

Imagine a state law that drives pregnant teenagers away from safe, confidential medical

Imagine a state law that makes abortion impossible for many pregnant girls and forces them into teenage motherhood.

Imagine a state law that devastates the future of young women by stunting their education and career opportunities.

Stop imagining.

These laws are real.

The American Civil Liberties Union fights laws that violate a teenager's right to privacy and equality—laws that violate a teenager's right to choose between childbirth and abortion. Imagine the difference we can make with your help. Write us.
