PAUL BRYANT

Head Football Coach

University of Kentucky Coaching Staff

Directing the activities of the Kentucky football team for the 1949 season will be the group of coaches and assistants pictured above. From left to right, front row, are Ted Osborn, Joe Atkinson, Frank Moseley, Head Coach Paul Bryant, and Carney Laslie. In the back row, usual order, are Jim Brooks, Ermal Allen, Clarence Underwood, and George Sengel.

The Bryant Story

One of the nation's outstanding young football mentors, Paul Bryant's name has become synonymous in the South with an upswing in the grid fortune of Kentucky's Bluegrass Wildcats.

In three seasons at the helm of the Kentucky grid-iron machine, the 35-year-old former Alabama star has lifted the victory-famished Wildcats out of the doldrums of the Southeastern Conference football cellar and established them in a contending position despite numerous difficulties.

Bryant took just one year to accomplish the near-miraculous feat of re-building the shattered foundations of Kentucky football into a solid front that resulted in a season record of seven victories against three defeats—the Wildcats' most successful campaign since 1912. Calling upon his wartime service experience, Coach Bryant consolidated the gains and launched an even more startling attack during 1947 that saw the 'Cats roll up another impressive 7-3 record for the regular season and then add a thrilling 24-14 victory over Villanova in the Great Lakes Bowl inaugural at Cleveland—Kentucky's first bowl appearance.

Minus the services of nine players from the starting eleven and five more from the rest of the 1947 squad, the Kentucky team of last season nevertheless proved the surprise of the league. No one seriously expected the Wildcats to provide more than token trouble and were about to write them off as a threat after three early season losses. But the experts failed to count on the spirit instilled by the resourceful Bryant. Brazenly benching three of his top backfield stars, the Wildcats' head mentor jerked his charges out of their defeat lethargy enough to complete the remainder of the schedule without a setback. The record stood at 5-3-2 and the defeats came at the hands of the three teams who finished first, second and fourth in the conference standings.

Bryant's three-season record of 20 victories against

nine defeats and two tie games — the best in Kentucky football history for a three-year period since a 23-5-1 record was made during 1909-11 — has attracted wide attention. He has been mentioned prominently in speculation on the successors to head mentors at larger schools and in the pro ranks. The latest outcropping came last December when Bryant was rumored as the "odds-on choice" to become head coach of the professional Washington Redskins. However, he rejected the bid (which reportedly was for an eight-year term at double his present salary) to remain at Kentucky.

Bryant came to Kentucky in 1946 from the University of Maryland, where he had served as head grid-iron coach for one year after having been released from the Navy. During that year he produced the Maryland school's best football record in history — six victories, two losses and a tie.

Following his success in rewarding followers with a winning team during his first season at Kentucky, Bryant's original contract was torn up and a new 10-year agreement put in force. The current pact has eight more years to run.

A native of Fordyce, Ark., Bryant starred in football and basketball while attending high school there. Later, at the University of Alabama, he starred on the highly successful Crimson Tide elevens of the 1933-35 period, including the Rose Bowl team of 1935. Playing the end opposite the famed Don Hutson, he failed to gain significant attention from the press and fans but Coach Frank Thomas chose to retain him as an assistant following his graduation.

After four seasons with the Tide, Bryant moved to Vanderbilt as line coach and spent two years with the Commodores before leaving for the Navy in 1941. Following a training period, he went overseas to Africa and remained there until released as a Lieutenant Commander in 1945 just before the football season opened.

COACHING STAFF

CARNEY LASLIE . . . Like Paul Bryant is a University of Alabama product and a former Rose Bowl star for the Crimson Tide . . . Laslie lettered three years at 'Bama '30, '31 and '32 . . . In '32 he played on the Tide eleven which won a 24-0 decision over Washington State in the Pasadena classic . . . Remained at Alabama as an assistant for one year after graduating . . . Then he became head football coach at the Blytheville, Arkansas, high school . . . His teams went undefeated for three seasons and then Laslie went to V.M.I. as line coach . . . From the Lexington, Va., school, Laslie entered the Navy . . . While in the Navy, he coached the North Carolina Pre-Flight eleven . . . Released to inactive duty after three years service with the rank of Lieutenant Commander . . . Joined Bryant at Maryland a few days before the 1945 season opened and moved to the Bluegrass State with him in 1946 . . . Specializes in coaching tackles at Kentucky . . . Served during the war as a Lieutenant in the Navy.

JOE ATKINSON . . . Was a star guard with Vanderbilt from '39 to '41 . . . Bryant coached Atkinson in '40 and '41 when he was line coach at Vandy . . . Joe captained the '41 Commodore eleven . . . ERMAL ALLEN . . . Joined the Kentucky coaching staff after being ruled ineligible after two games in the 1946 season in one of the Southeastern Conference's most controversial cases . . . Allen played a year of pro-ball with the Cleveland Browns in 1947 as Paul Brown's T-quarterback . . . His thorough knowledge of the T-formation makes him key man on the Kentucky coaching staff . . . Married and is the father of two children.

These coaches are assisted part-time by Bill McCubbin and Jim Brooks.

UNIVERSITY OF KENTUCKY OFFICE OF PRESIDENT

One step in the far-reaching master plan to bring national football recognition to the University of Kentucky is the necessity of increasing the patronage at the gridiron events to such an extent that major teams of the country may be profitably brought to Lexington as the foes of the Wildcats.

Full achievement of this goal was brought one step nearer to reality this year with the aid of the Lexington Salesmen's Club. This public-spirited organization of business men, at the request of University authorities, undertook the task of promoting the sale of season tickets throughout Eastern and Central Kentucky and it was tremendously successful in its efforts to fill the newly-enlarged stadium.

While not all of the 35,000 available seats were sold on a season basis, the members of the Lexington Salesmen's Club deserve the sincere thanks of the University of Kentucky for their splendid co-operation in selling a major portion of the season tickets. It is only through the voluntary public service of such noteworthy civic organizations that citizens of this great state will be able to witness football of a type that will bring credit to the State and University.

The University of Kentucky Athletics Association thanks the Lexington Salesmen's Club.

1949 FOOTBALL RULES CHANGES

by CHARLES W. TUCKER, Jr.

FOOTBALL RULES for 1949 definitely have the "New Look." The Football Rules Committee of the N.C.A.A. took the Rules Book apart section by section, recodified it; and put it back together again in an effort to make the rules more uniform, easier for the spectators to understand, and to streamline the game. Three changes which will be obvious this year are:

1. AUTOMATIC TIME OUT AND UNLIMITED SUBSTITUTIONS EACH TIME THE BALL CHANGES HANDS, WITH TEAM "B" (the defensive team) BEING AWARDED A FIRST DOWN. This will give the teams employing the two platoon system ample opportunity to substitute entire offensive and defensive units without being charged with a time out. Each team is entitled to four free time outs during each half and even after a team has exhausted its free time outs, it may have additional time outs to replace an injured player or players without penalty, providing only the injured player or players are replaced. During such time outs the opponents may make unlimited substitutions. The rule leaves unchanged the practice of unlimited substitutions any time the clock has stopped but these substitutions must be completed when the referee indicates the ball is ready for play.

2. A LEGAL PASS INCOMPLETE IN THE OFFENSIVE TEAM'S END ZONE IS NO LONGER A SAFETY. A team can now make a pass if it wishes within the confines of its own end zone without risking a safety on the pass becoming incomplete in its end zone; as on other parts of the field, the result will simply be loss of a down and the ball will be returned to the spot where it was last put in play. If, however, this team should complete a pass in its end zone and the runner should be tackled behind his goal line, the ball becoming dead there, the result will be a safety.

3. THE RUNBACK OF A PUNT RECEIVED IN THE END ZONE WILL NOW BE PERMITTED. This year the rules permit a safety man to run a punt out of his end zone instead of being forced to accept a touchback. Even if tackled in his end zone, the ball being declared dead there, he has nothing to lose inasmuch as he will be awarded a touchback and the ball will be put in play by scrimmage on his 20 yard line. As most football fans will remember, the determining factor between a safety and a touchback is IMPETUS. In other words, if the attacking team is responsible for putting the ball in the defending team's end zone and it becomes dead there, the result would be a touchback. If, however, the defending team is responsible for putting the ball in its own end zone and it becomes dead there, the result would be a safety which scores two points for the attacking team and the ball is next put in play on the defending team's 20 yard line by a kick.

The following rules changes were adopted to eliminate certain practices of the past:

4. THE REGULATION PERMITTING ONE SUBSTITUTE TO ENTER THE GAME AT ANY TIME WITH THE CLOCK RUNNING HAS BEEN RESCINDED. The new rule was aimed at the constant parade of substitutes running on and off the field between every play, which in many ways disrupts the continuity of the game and is most confusing to those watching the game.

5. FUMBLE OUT OF BOUNDS NO LONGER BELONGS TO TEAM WHICH LAST TOUCHED THE BALL BEFORE IT WENT OUT OF BOUNDS. The new rule states that when a backward pass or fumble goes out of bounds between the goal lines, the ball becomes dead and belongs to the passing or fumbling team at the out of bounds spot. This rule is more equitable to the team who has fumbled the ball and eliminates players diving from all directions to try to touch the ball before it goes out of bounds, thereby eliminating the possibility of unnecessary injuries.

These three regulations were adopted in order to further clarify and define debatable points:

6. THE CLIPPING RULE HAS BEEN AMENDED IN ORDER TO ELIMINATE UNNECESSARY PENALTIES. The old rule called it clipping whenever a player was hit from the back even though it was not intentional. The new rule states that the action must take place *below the waist*, and reads as follows: "Clipping is throwing the body across or running into the back of an opponent, other than the runner, below the waist."

7. CLARIFICATION OF ILLEGAL USE OF THE HANDS IN BLOCKING. In the past it was possible for a player using a shoulder or chest block to supplement it with his hand or forearm and inflict considerable punishment upon his opponent even though he could be penalized for illegal use of the hands. Now in order to try to eliminate this practice the Rules Committee has specifically fixed the position of the hand in a shoulder or chest block by stating that the hand must be in contact with the body during the entire block and at no time may the hands be locked.

8. BACKFIELD MAN UNDER THE CENTER AS A LEGAL PASS RECEIVER IS BETTER DEFINED. The old rule merely stated that this man must be at least 1 yard behind the line of scrimmage in order to be eligible to receive a forward pass. It was next to impossible in most cases for the officials to determine whether or not this man was 1 yard behind the line of scrimmage. In order to leave no doubt as to the eligibility of this man the clarification states: "A back who is in position to take a hand-to-hand snap from the center is an *ineligible forward pass receiver*." A back is considered in position to take a hand-to-hand snap if at the time the ball leaves its position on the ground, his feet and body are so placed that it would be possible by reaching with his hand to touch the ball before it leaves the snapper's hand. This applies even though this back's feet and body are 1 yard or more behind his scrimmage line.

BUCK WEAVER

—1949

by Helen G. King

One of the last pictures of Buck Weaver shows the prominent sports-writer and loyal U. K. alumnus in a familiar pose at the typewriter on which he composed many a tribute to his beloved "Wildcats." The University of Kentucky Athletic Association wishes to dedicate this issue of the official football program to Buck in appreciation of his friendship and support of U. K. athletics.

of Kentucky sports events and inevitably his loyalties became divided between Kentucky's two finest products. For a number of years he followed Kentucky's fabulous teams in basketball. To him, as to the rest of us, "Little Ralphie" Beard, Buck's hometown pride; Cliff Barker, Alex Groza and Wah Jones were the all-time heroes of the sport, and his last column, written the day he was stricken ill, was about Beard.

Big in frame and big in concept of sports, Buck Weaver adopted the University of Kentucky as his Alma Mater, and the University of Kentucky adopted him—wholeheartedly, and without qualification.

His was the kind of support which never wavered, never doubted. He believed in Kentucky teams because he believed in the boys themselves. He traveled with them, ate with them, listened to them talk, and he knew that they were the kind of boys who would grow into fine citizens, great leaders. There is no doubt that he gave them something of his own spirit of fair play and of sportsmanship, in these contacts.

Buck's last trip to the campus was last April 4 when the Alumni Association honored Kentucky's greatest basketball team. Two days later he was struck with the illness which took his life on May 28.

We'll always be glad that he lived to see that fabulous basketball team reach the heights, but nostalgia grips us when we realize what a great bang Buck would have got from the 1949 edition of the football team. However, it seems very possible to us that just about now Buck is rolling his copy paper from his little portable with a great flourish, and writing "30" to the story of the Wildcat gridders, just as this halting tribute puts a reverent "30" to the close of Buck Weaver's career.

UNIVERSITY OF TENNESSEE HEAD COACH AND COACHING STAFF

General Robert R. Neyland, athletic director and head coach, came to Tennessee in 1925 as an R.O.T.C. instructor and assistant football coach. He was made head coach the next year. He served in that capacity through 1940 with the exception of one year, 1935, when he was sent to Panama for a tour of duty with the Army Corps of Engineers. After the undefeated '38, '39 and '40 seasons, Neyland left Tennessee for five years' Army duty; he returned to Tennessee in 1946 to resume his coaching duties.

Neyland was born in Greenville, Texas, February 17, 1892, where he attended high school. He was captain of three of his high school athletic teams, football, basketball, and baseball.

After one year at Burleson College and one at Texas A. & M., Neyland was appointed to West Point in 1912. He was an outstanding athlete at the "Point."

He won his letter in football, baseball and boxing. He pitched and won 35 games, lost 5, and went 20 straight games before being defeated. In 1914-15-16 he held the heavyweight boxing championship of the institution.

Neyland was graduated from West Point and made a Second Lieutenant in the United States Army June 4, 1916. In 1917 he went to France and upon returning to the U. S. in 1918, entered M.I.T., where he received his B.S. degree in Civil Engineering. In 1921 he returned to West Point as aide-de-camp to the Commanding General Douglas MacArthur. He was assistant baseball coach at West Point from 1921 to 1924, and assisted in coaching the football team.

During World War II, he served five years in the Army, beginning in May, 1941. After holding various important posts in the States, he was transferred to Kunming, China, in early 1944.

Neyland married Miss Ada Fitch of Grand Rapids, Michigan, July 16, 1923. They have two sons, Robert R. III and Lewis F. Neyland.

Cats Seek 'Pause That Refreshes' From Traditional Beer Keg

By Bob Gorham

Thirsty Kentuckians haven't had a swig from the "Old Beer Barrel" in thirteen years.

Yes, it has been that long since Kentucky defeated Tennessee, and brought the barrel, symbol of victory in this ancient football rivalry, back to Lexington.

Every year, the old barrel is brought to the scene of battle. During the first half, it sits near the bench of the team that won the previous year. Then at halftime, it is ceremoniously taken to the other side of the field, where it remains until the game is over.

The winners then have the honor of taking it home until next year, and the next titanic struggle.

It all started back in 1925, when a group of rabid Kentucky alumni, better known as the "Raspberry Patch", conceived a plan to stimulate the Wildcat-Volunteer rivalry to greater heights by using something material to denote supremacy between the two teams. After due deliberation, it was decided to pay homage to Kentucky's weakness, and that a beer keg would be the very thing.

But where to get the keg?

Kentucky at that time was in the throes of the prohibition era, and no keg was available. Therefore, the "Patch" imported a barrel from Cincinnati. Naturally, it was necessary to rechristen it. So this keg became the "Ice Water Keg", and remained that until sentiment won out, and the original name was restored to the trophy in later years.

That first ceremony was spectacular.

The celebrated keg was ushered onto Stoll Field Thanksgiving Day of 1925, incognito, with "Ice Water" painted on it.

Kentucky's blue and white clad band marched from one end of the gridiron and the Tennessee band, in orange and white, came from the opposite goal. Representatives of each school preceded the bands. They met at the fifty-yard line, where the keg so royally rested. Each representative drank from the barrel that was filled with water, so they said. But many wondered about it, and still do, for that matter.

Then, to the tune of "How Dry I Am", the traditional ceremony was completed.

This same keg, battered by numerous trips between Lexington and Knoxville, is still being used. Each year the score is painted upon its surface, and it is hauled away to the victor's stronghold until another game rolls around.

Kentucky won that first game, 23-20, marking one of the two times it has had possession. Tennessee took it to Knoxville the next year, and kept it until 1935, when it again came home to Lexington. The score that year was 27-0. The next year, the Volunteers again took it home, and there it has rested since.

Kentucky has but two wins chalked up on the old keg, while Tennessee has 18 victories to her credit. There have been four ties.

But this another year, and another game. Anything can happen in the Kentucky-Tennessee feud.

Maybe our thirst will be quenched. Here's hopin'.
