- Fred P. Caldwell, State Historian, 1014 Inter-Southern Building, Louisville, Ky.

Kentucky's War History.

A great task as well as a great opportunity will confront the future historian of this State when he comes to tell the full story of Kentucky's participation in the World War; how she played her part among the free people of the world in the fight for world freedom; how she furnished thousands of her sons to the fighting forces of the nation, and how these men conducted themselves and what they experienced in camp, at sea, and on the field of battle; how she stood for loyalty at home and suppressed the Hun within her gates; how she readjusted her whole course of life, giving abundantly of her means, her substance, her thought, her time, her strength, her prayers, sacrificing luxuries, and making spare use of the necessities of life, and forgetting all petty rivalries, united in efforts put forth for the winning of the war, for the welfare of the fighters, and for the relief of war-stricken peoples; and how in other and less obvious ways the war altered the direction and character of her normal interests and pursuits.

Such a story will constitute a unique and important chapter in the history of our State. It will be of interest not only to coming generations of Kentuckians; but also

to us who have lived and worked in these stirring times, conscious that we were helping in the accomplishment of great things; but too intent upon the performance of our own special and more or less limited tasks to take a comprehensive view of the course of events in our State, and perhaps even in our localities.

***Our War History Materials Should
Be Gathered Now.***

To the end that Kentucky's War History should record adequately the achievements of which we are justly so proud, the Kentucky Council of Defense has inaugurated a State-wide movement, which has for its object the making of military service records of the men in the service, the compilation of records setting forth the activities of the civilians in all branches of war work, and the collection and preservation of other data and records which will be needed for the production of that history, and which in themselves will be increasingly treasured mementoes of the unprecedented happenings of the days just passing. The governments of the warring European nations, even while the war was on, made adequate provision for the collection of all records relating to

the sacrifices and deeds of their respective peoples. Since the United States entered the war, many of the States have officially recognized the importance of making service records of their fighting men and preserving records of the activities of the civilians in war work, and have inaugurated State-wide movements for the attainment of that end. This movement, inaugurated by the State Council, places Kentucky among the first of the States to take up this historical work. The system used in Kentucky has the approval of the Council of National Defense, and our forms have been copied and used in other States.

Kentucky is proud of her war record. She has sent approximately 100,000 men into the service. More than 2,500 of these have given their lives for the cause of liberty. It remains now to make a lasting record of the men who sacrificed so much for the great cause, and to make a record of the activities of the great army of civilians who stood solidly behind the fighting forces and devoted themselves so consistently to the winning of the war.

State and County Historians.

With these facts in mind, the Kentucky Council of Defense, in September 1918, appointed a State Historian, and upon nomination of the Chairman of the County Councils of Defense has since that time appointed a County Historian in nearly every county in the State.

Three Classes of work have been outlined for the Historians:

I. To make individual records of all Kentuckians in the service during America's participation in the World War.

II. To make records of the activities of the civilians in all kinds of war work.

III. To collect and preserve other war data and records of historical interest.

In carrying out these lines of work the historians are calling for the assistance of public spirited citizens in every community in the State, of the relatives of soldiers, and of all organizations which have taken part in war work.

Work of the County Historians.

It will be interesting to the public and to the county historians themselves to know the different methods employed in making the military service records.

Generally, the first work of the historian, after securing a supply of WAR RECORD blanks, is to go to the local draft board of the county and get a list of the men inducted into the service. Then, from the duplicate registration cards, they get the addresses of the men, and the names and addresses of their nearest relatives. This forms a basis for the work. The names of the volunteers from the county must then be secured. The next step is to get the information called for in order to fill the blank lines in the WAR RECORD sheets.

In many of the counties the local papers have published the WAR RECORD form from week to week, with a statement calling on the mothers, sisters and other relatives of soldiers, and the returning soldiers themselves, to fill the blanks, clip the forms from the paper and send them to the county historian.

In the larger counties it is advisable and sometimes necessary for the county historians to have assistants in each precinct

or in each school district in the county. The war record blanks for the men are turned over to the assistants in the various divisions of the county, and it is made the duty of the assistants to see that the blanks are filled for all men in the service from that particular division of the county, including both drafted men and volunteers.

Many of the historians are getting fine cooperation and assistance from school teachers and school children. Forms are given to the school children, they take them home, have them filled, return them to the teachers, and the teachers hand them to the county historians.

Some of the county historians report that they are able to fill many records by using the telephones which run out over the county.

The lodges, churches, schools, clubs and other organizations, are in many cases valuable sources of information. The Home Service Sections of the Red Cross have cards containing valuable information with regard to the men in the service, and this information is available to the county historians.

Wherever there is a large service flag there is generally a list of men and records from which the county historian can get valuable data.

In counties where there is a large colored

population it has been found advisable to have a colored historian appointed. In the counties where this has been done the colored historians are taking great pride in their work, and are making fine records.

In several counties the county historians have had cards printed on which to get the information called for on the War Record blanks. These cards are about 4 x 6 inches, and can be carried in the pocket. They contain the same printed matter that appears on the War Record blanks. The advantage of this plan is that the War Record sheets are kept from being folded and soiled, and that corrections may be made on the cards before the matter is finally placed on the War Record sheets.

In some counties the county historians have inaugurated "historical drives", using their own organization, or the organization used in the Red Cross or Liberty Loan drives. It is suggested that such a drive in the spring or early summer might be used with advantage in many counties.

When the soldiers return and begin to form clubs and hold reunions, these organizations can be of very great assistance to the county historians.

It is the duty of the county historians to see that their records shall contain a report

of the work done by the following organizations, as well as a list of the men and women taking prominent part in the work.

- County Council of Defense, including Woman's Committee.
- Red Cross.
- Y. M. C. A.
- Y. W. C. A.
- Knights of Columbus.
- Jewish Welfare Board.
- Women's Clubs.
- Liberty Loan Committee.
- War Savings Stamp Committee.
- Food Administrator.
- Fuel Administrator
- War Camp Community Service.
- Boy Scouts.
- All other organizations doing war work.

The secretaries of these organizations should furnish reports to be placed with the records made by the county historian.

War Record Sheets.

For compiling individual records of all men in the service from Kentucky the State Historian has prepared a form of WAR RECORD sheet, calling for certain information as to every man in the service, including his name, rank, home address, name and address of his nearest relative, mother's maiden name, date of entrance into service, camp where first training was received, branch of service in which he was engaged, promotions, casualties, etc.

One of these forms is to be filled for each person in the service. This means soldiers, sailors, aviators, medical corps, nurses, chaplains, S. A. T. C., etc. When these forms are filled out they will furnish vital and valuable information. The War Record blank is to be supplemented by other sheets of the same size. If a soldier is wounded, information as to his wound will be written on a CASUALTY SHEET, and this sheet will be placed next to the War Record sheet. If he is specially mentioned, this fact will be recorded on another sheet. Newspaper articles, letters, cuts and photographs may also be added to the record of his military career. A copy of the War Record sheet will be made an appendix to this pamphlet.

Casualty Sheets.

A form of CASUALTY SHEET has been adopted, which calls for the name and address of the soldier, his age at date he was injured, the name and address of his nearest relative, the nature of the casualty, date of casualty, place of casualty, and the authority for the record.

These casualty sheets are being made out first by the State Historian, from a page by page reading of the United States Official Bulletin. When the sheets are filled out they will be sent to the county historians for verification, and for incorporation in the permanent records of each county.

It will take some time to complete the first draft of the casualty sheets, as the lists of wounded in the Bulletin are still pretty heavy, and many corrections are being made from day to day.

Publicity.

The state and county papers have rendered invaluable assistance in this historical work. The State Council is very grateful to them for their splendid cooperation, and urges them to continue to keep the importance of this historical work before the people of the state until it is completed.

The schools, churches, lodges, societies, Women's Clubs and other organizations can render valuable aid by calling attention to this work and keeping it constantly in the minds of the people.

Records Which Should Be Preserved.

Clippings from newspapers relating to all kinds of war activities.

Soldiers' letters.

Honor rolls.

Sermons.

Addresses.

War Poetry.

War Songs.

Minutes of Proceedings.

Photographs.

Newspaper cuts.

Programs.

Reports of Memorial Services.

Disposition of the Records.

When the WAR RECORD and CASUALTY SHEETS are filled out, and the newspaper articles, photographs, and other records are collected, the sheets will be arranged alphabetically by the names of the men in the service, and these sheets, together with the reports from the organizations doing war work, will be bound in permanent form and made part of the records of the county by order of court. This will protect the records from mutilation, and the records will be accessible to the public.

The Kentucky legislature will probably be requested to make provision for publishing the records at a price well within the reach of all soldiers and the public generally.

The State Council feels that by using the county as a unit, and making the records a part of the permanent records of the county, they will be of far greater value than would be the collection of a great mass of historical matter at some one point in the State.

What Has Been Accomplished.

Patriotic men and women are now serving as county historians in practically every county in the State. They have enlisted the active support of the county papers, relatives of soldiers and many of the organizations which have been doing war work.

In many of the counties the records are even now in fairly good shape. In other counties the work has been delayed by the influenza epidemic and other causes. With the coming of spring and summer it is proposed that historical drives be conducted in every county for the purpose of arousing popular interest in the work.

The State Historian has prepared blanks and forms for the county historians; has looked after the appointment of county historians, conducted correspondence with them, and from time to time sent them bulletins making suggestions for the conduct of the work. He has made from the Official Bulletin a list of all Kentuckians who have been killed in action, or who have died from wounds, disease or accident, either overseas or in this country. These lists are now being verified by the county historians.

He has also made a list of Kentuckians who have been prisoners, with information as

to their present whereabouts and their release from German prison camps.

The State Historian is now compiling a list of Kentuckians cited for bravery, or who have been otherwise specially honored. The incomplete list, as recently given to the press, contained the names of seventy-nine men. Ten names have since been added to the list. The achievements of these men form a bright chapter in the history of the Commonwealth. The historian's record will contain a full statement of the official citation for bravery in each of these cases.

The State Historian has clipped from the Louisville papers, since his appointment, all articles with references to Kentucky soldiers, or with reference to Kentucky's participation in the war, either through her fighting forces or through war work done by her civilians.

An Appeal For Assistance.

The Kentucky Council of Defense appeals to every person who is proud of the record of his county and of the glorious record made by our fighting forces and the civilians who backed them up to lend assistance to the county historian in this endeavor to make

a permanent record of the part which the county has played in the fight for liberty.

All patriotic men and women can do something toward the carrying out of this work. The following individuals and organizations are urged to cooperate in the work:

- Returning soldiers.
- Mothers' sisters and other relatives of soldiers.
- Red Cross Chapters.
- Y. M. C. A.
- Knights of Columbus.
- Jewish Welfare Board.
- Women's Clubs.
- Boy Scouts.

Every returning soldier should fill out a WAR RECORD blank for himself, and urge his soldier friends to fill blanks. The mothers and sisters of soldiers should make it their duty to see that their soldier boy's war record sheet is filled and delivered to the county historian. All the individuals and organizations named above can be of very great help to county historians, and they are urged to offer their services.

THE CRESAP SOCIETY.

=====

On Tuesday, June 24th, the memorial to Col. Thomas Cresap, his Sons and grandsons will be unveiled at Riverside Park, Cumberland, Md. and the annual meeting of the Society will be held the same evening at the Fort Cumberland Hotel, in Cumberland.

Members expecting to become guests at this Hotel, which will be headquarters for the Society, are urged to make reservations in due advance as the Tourist Season along the National Road will then be at its height.

The exercises will probably take place in the afternoon and will be in charge of the ladies of The Cresap Chapter, D. A. R. of Cumberland. Mr. Thomas, the Maryland Historian, will deliver an oration immediately following the unveiling, and the Reverend Mr. Beavin of the Emmanuel Episcopal Church, will preach an historical sermon on the 25th, the following day. The Maryland Historical Society will be represented and in all probability, Ohio and other adjoining states will send representatives.

Our Advisory Board has designated June 1st as the date for all subscriptions to be credited, as the officers will need time to prepare reports as well as the various committees, therefore an early response is urgently requested to the end that our pride and sentiment may be complete on the 24th of June.

Donations to the building fund should be sent to the Treasurer, Mr. Frank Tallmadge, 16 East Broad Street, Columbus, Ohio, and those who are in arrears for 1919 dues should remit to the undersigned.

All Cresaps are expected to be present, at the annual meeting. The public will be invited to the dedication. Appropriate and artistic souvenir badges can be secured from the Secretary in advance, to cost \$1.00. F. Egerton Powell will act as Chairman of the Reception Committee.

April 1st, 1919.

Mrs. Ellen B. Towl, Sec'y.
Box 266, Lancaster, Ohio.

BY JAM

Northwestern Development Company, Ltd.

OPERATING
THE RANGER COPPER MINES
LEMHI COUNTY, IDAHO

OFFICE OF VICE-PRESIDENT AND TREASURER
Ashland, Kentucky

TO THE STOCKHOLDERS:

Mr. ROCK our General Manager informs us by letter dated May 26th, that the Ashland Tunnel, on May 19th, was in 758 feet. He writes as follows:

"The face of the tunnel is looking very good, in my way of looking at it. We are in an entirely different formation than we have been in before; it is full of quartz strata. As we are getting very close to the vein, by Merritt's survey, I must acknowledge the fact that it looks good to me."

He also advises us that at 530 feet he is putting in a switch to start a cross-cut, to cut a vein that appears to be running parallel with the tunnel.

MR. CRANDELL, Mining Engineer, Salmon, Idaho, is now at the mine checking up the work in the tunnel.

Mr. ROCK writes that the snow has about all disappeared at the mine and he has everything in good shape to push the tunnel work.

We have ordered the F. C. RICHMOND MACHINERY CO., SALT LAKE CITY, to ship at once a No. 4 Champion Exhaust Fan and 1000 feet 8 inch pipe to supply air in the tunnel.

We have up the question of a transmission line from the Salmon Power Station to the mine and are getting prices on poles, wire, &c.

Our ore has been tested by the BRADFORD process and proved a complete success in reducing ores of this type and class, from raw ore to bullion. This is a new process and a mill is now being erected at the POPE-SHENON MINE, of 50 tons capacity to treat their ore. The same people want to erect a mill at the RANGER MINE as soon as we drive our tunnel into the ore vein. The POPE-SHENON MINE is some nine or ten miles from our property and their ore runs about 9 $\frac{3}{4}$ per cent copper, but does not carry any gold.

We are shipping several hundred pounds of our ore to Salt Lake City, to have another test made by the BRADFORD PROCESS at the plant there.

We will make reports to our stockholders from time to time as we get them from the mine.

May 31st, 1919

Northwestern Development Co.

Silver Anniversary
Luncheon

Silver spoons, silver spoons
Tinkle merrily
Oh what fun it is to come
To our anniversary
Silver spoons, silver spoons
Tinkle all the day
Only when we want to hear
What the pretty ladies say.

They will tell how very well
Reforms that they began
Were finished with alacrity
Without the help of man
Silver spoons, silver spoons
Tinkle far and near,
Women and horses have their day
When prohibition's here!

K. F. W. C.

Ashland, Kentucky

1894

June 4,
1919

NOTICES

Beatitudes for Christian Living.

Blessed is the man whose calendar contains prayer-meeting night.
Blessed is the man who is faithful on a committee.
Blessed is the man who will not strain at a drizzle and swallow a down-pour.
Blessed is the man who can endure an hour and a quarter in a place of worship as well as two hours and a half in a place of amusement.
Blessed is the church officer who is not pessimistic.
Blessed is the man who loves the church with his pocketbook as well as with his heart
Blessed is the man whose watch keeps church time as well as business time.—Christian Church Bulletin.

FOREWORD

I read these two articles with much interest, and as the truths presented are so timely, I thought I would give others an opportunity to read them also.

There are many points here brought out that we sometimes overlook, yet they are vital and lie at the very root of our well-being. They are equally true for the man who works with his hands and for the man who works with his head.

Let me ask that you consider this a personal message, and that you read these articles thoughtfully.

Sincerely yours,

W. B. SEATON,

President.

Ashland, Ky.
Sept. 30, 1919.

The Need of the Hour

The need of the hour is not more legislation. The need of the hour is more religion. More religion is needed everywhere, from the halls of Congress at Washington, to the factories, mines, fields and forests. It is one thing to talk about plans and policies, but a plan and policy without a religious motive is like a watch without a spring, or a body without a breath of life. The trouble today is that we are trying to hatch chickens from sterile eggs. We may have the finest incubator in the world and operate it according to the most approved regulations; moreover, the eggs may appear perfect specimens, but unless they have the germ of life in them, all our efforts are of no avail.

Congress is playing politics over the League of Nations while the world is aflame. There are honest differences of opinion among both Republicans and Democrats as to the League of Nations. When it comes to talking, however, these senators are actuated by their love for or their hatred against the President. It is selfish ambition and the love of personal reward and revenge which is at the bottom of most of the speeches. The future of mankind and the need of starving millions are forgotten. Those who like the President

line up for the League of Nations, those who do not like him line up against it.

Moreover, this is not a criticism of the Republicans, for if a Republican were President at the present time, and every word in the Peace Treaty remained the same, we would find the Republicans enthusiastic for its ratification and the Democrats bitterly opposed thereto. Consider the proposed railroad legislation. The railroads bear a closer relation to the prosperity of the nation than any other material thing. The railroads greatly need today more money for maintenance, extensions and general development. IS CONGRESS DOING ANYTHING CONSTRUCTIVE TO HELP THE RAILROADS? NO! NOBODY IS DISCUSSING DOING ANYTHING FOR THE RAILROADS. THE FIGHT IS OVER WHO SHALL HAVE THE RAILROADS WHICH ARE ALREADY CONSTRUCTED.

The same unsound principle applies to all this proposed legislation about the Cost of Living. Neither political party comes forward with any constructive plan to increase production. Both parties are simply fighting over a division of what is already produced. The Republicans are devoting their energy to devising schemes to help those that have, so that they may hold on to what they have acquired. The Democrats are devising schemes of legally getting away from the other fellow what he already has. It is a good thing

for the country that we have both parties, for if either one had its own way to the fullest extent, the nation would go to smash. I do, however, wish that both parties would temporarily quit squabbling over what has already been produced, and give their attention to increasing production. WHY, IF WE WOULD GET BUSY AND DOUBLE PRODUCTION, WE COULD NEARLY CUT IN HALVES THE COST OF LIVING. IT IS MORE RELIGION THAT CONGRESS NEEDS.

Take the Labor situation. I beg the pardon of clients for talking so much about Labor conditions. I would not do so except that I am convinced it will be the Labor situation which will bring to an end our present period of prosperity, and throw the nation into chaos. The solving of the Labor situation is wholly a question of religion. THE WAGE EARNER WILL NEVER BE SATISFIED WITH HIGHER WAGES AND SHORTER HOURS, ANY MORE THAN YOU AND I ARE SATISFIED WITH MORE PROFITS AND A BIGGER HOUSE. THINGS never did satisfy anyone and never will. Satisfaction and contentment are matters of religion. Communities and industries, where right motives are paramount, have no serious labor problems.

When both employer and wage worker honestly believe that we are here in this world to serve others, the Labor problem will be solved but not until then.

Employers should learn to give up, and labor should wake up. However, neither of us will do it except as we are actuated by religious motives. Both groups are largely actuated by selfish motives at the present time. Moreover, this is tremendously short-sighted selfishness. During the scramble over a division of what is already produced, we overlook the great importance of increasing production, thereby cutting down the tree to get the cherries. WE NEED A NEW OUTLOOK OF LIFE, A NEW POLITICAL POLICY, A NEW INDUSTRIAL POLICY, AND A NEW SOCIAL POLICY. THE OLD POLITICS FOUNDED UPON FEAR AND STRIVING ONLY FOR PROTECTION HAS FILLED ITS USEFULNESS. WE NEED A NEW POLITICS BASED UPON FAITH AND STRIVING FOR PRODUCTION.

Meanwhile, what is happening to our churches? They are going to seed. They are already deserted by the working classes, and are being deserted by the children of the employing classes. Great capital investments in land and buildings are being utilized only a few hours a week. The ministers are being paid starvation wages, and the whole church industry lacks pep and imagination. And yet, the church is the only organization in existence for generating right motives in man. Schools develop intellect, theatres and novels foster passion, but the church is the sole organization

which develops those good motives of love, sympathy, hope and inspiration, upon which the industrial salvation of the world depends.

All men are human, whether United States Senators or humble workmen. We are actuated not by our intellects, but by our emotions. We are guided by love or hate, by sympathy or by jealousy, by hope or by fear. The political and labor agitators, the partisan newspapers, the every-day movie, and the other agencies which develop hate, jealousy and fear, are running rampant today. The one great organization which has the machinery and opportunity to develop the constructive motives of love, sympathy and hope, is asleep. Yet there still exists energy enough in the churches to enable them to fight one another. Preachers, like politicians, are not so much interested in increasing the output of religion as they are in the division of the religion already produced.

I am not appealing for one combined denomination. I recognize that Catholicism has features which will arouse the emotions in masses of people who could never be reached by the methods of Protestantism. I realize that Protestantism has features which will arouse the emotions of many who never could be reached by the teachings of Catholicism. The same is true of Judaism, Mohammedanism and every other "ism". Until the time comes when we all like

best one particular color and one particular food, there still will be an opportunity for the Congregational Church, the Presbyterian Church, the Baptist Church, and the various other forms of churches. My one plea is that every State House and factory and church have for its motto, "Live and let live". Then let them all use their energy for increasing production instead of consuming it in fighting over what is already produced.

When Jesus told his disciples to "give to him that asketh of thee" He did not mean that they should die of starvation. He simply tried to emphasize the great fundamental truth that life consists not in hoarding or living on what is hoarded; but life consists in working and using what one produces. It was Jesus' method of calling the world's attention to the fact that the things which exist are temporary, and at best would keep the world alive only a few months. *HE WISHED TO IMPRESS UPON US THAT OUR FUTURE DEPENDS NOT UPON HOARDING WHAT WE HAVE BUT RATHER ON PRODUCING MORE. HE WISHED TO DIRECT MANKIND'S ATTENTION TOWARD FAITH AND AWAY FROM FEAR; TOWARD PRODUCTION AND AWAY FROM PROTECTION. POLITICS AND INDUSTRIES NEED TO GET JESUS' POINT OF VIEW, WHICH IS BOTH ECONOMICALLY AND PSYCHOLOGICAL-*

LY SOUND. LABOR TROUBLES WOULD SOON
CEASE AND THE COST OF LIVING WOULD BE
CUT IN HALVES. ONCE MORE I SAY, THE
NEED OF THE HOUR IS MORE RELIGION.

Am I My Brother's Keeper?

By RICHARD H. EDMONDS,
Editor Manufacturers Record

Above all else this country needs a nation-wide revival of the old-fashioned prayer-meeting religion—

A religion that makes men realize that if there is a Heaven, there must also of necessity be a Hell—

A religion that makes a man realize that every act is recorded on his own conscience, and that though that may slumber, it can never die—

A religion that makes an employer understand that if he is unfair to his employes and pays them less than fair wages, measured by his ability and their efficiency and zeal, he is a robber—

A religion that makes an employe know that if he does not give full and efficient service, he too is a robber—

A religion that make a farmer, who packs bad fruit at the bottom and deceives the buyer by the good fruit on the top, realize that he is a thief just as much as the one who robs a hen roost at night—

A religion that makes a man who robs a railroad of its fare, or its freight bill, know that he robs him-

self of all right to feel that he is an honest man—

A religion that makes a man realize that by driving too hard a bargain with his servant, his employe, or his merchant, he can be just as much a profiteer as the seller or producer who swindles by false weight, false packing or false charges—

A religion that will teach church members who fail to contribute to the extent of their ability to the support of religion, and that compels them to recognize that if they are paying their pastor less than a living salary, they are robbing God and man alike—

A religion that will make the laboring man, who by threats or by actual violence against the non-union man, strives to keep him out of employment, realize that he is at heart a murderer and is murdering the individuality, and the liberty of his fellow-man, and is displaying a hatred which, if it has the opportunity, will commit physical murder—

A religion that will make the politician who yields principle for the sake of party, who worships at the feet of any class and sells his soul for political preferment know that he is not only a coward and a poltroon, and unworthy of the respect of any decent man, but which will also make him see that he is helping to murder human liberty, as great a crime as murdering the individual man—

In short, we need a revival of that religion which will make every man and woman strive in every act of life to do that which, on the great Judgment Day, they will wish they had done, as with soul uncovered they stand before the Judgment Seat of the Eternal.

Until the people of this nation accept and live this religion there will be strife where there should be peace, there will be strikes and lockouts and murder where there should be co-operation and harmony; there will be hatred where there should be friendship and love.

In the Golden Rule, followed in the fullness of the spirit of this kind of religion, there would be found a solution for every business trouble; there would be created friendship between employer and employe; capital and labor would work in harmony and with efficiency, efficiency for the capital and efficiency for the labor, with profit to both.

Religion of this kind is not measured by the hope of a Heaven hereafter, but by the full fruition now of "Peace on earth to men of good will."

It is not merely the chanting of hymns here or in the world to come, but it is in the recognition and full application by rich and by poor, by learned and and unlearned, that each one is indeed his brother's keeper, that we can bring this country and the world

back to safety.

A nation-wide acceptance of this, the only true religion in action, would bring business peace and world peace where there is now turmoil, and men would then cease to gain their aims by lawless acts of immorality, but would in spirit and in deed follow the Divine command, "All things whatsoever ye would that men do to you, do ye even so to them."

Northwestern Development Company

Ashland, Kentucky

TO THE STOCKHOLDERS:

Our representatives left ASHLAND, KENTUCKY, the latter part of July, 1919, to inspect the progress made by the Northwestern Development Company, at the RANGER MINE and to negotiate with the SHOUP ESTATE who control three mine claims on which we had an option of purchase which expired on July 21st, 1919.

When we were in SALMON, IDAHO in September and October 1918, we were led to believe we would get an extension on these claims.

When we were there in July and August they declined to extend the option unless we paid them \$20,000.00 by August 21st, 1919, and not having sufficient funds on hand to meet this payment nor time to raise this amount, we ordered the superintendent to close down all work on the TUNNEL and to take the necessary steps to have our SIX surrounding claims and water rights PATENTED.

They are now doing the work necessary to secure a U. S. GOVERNMENT PATENT on all our claims. In other words a GOVERNMENT DEED to our property. The closing down of the work on the TUNNEL does not necessarily mean that we are sustaining any loss, because the TUNNEL is on our property, and when we get ready to develop our several claims it will represent its full value to us.

Our camp and equipment are all on our property. Everything is in good shape at the mine and our bills and pay rolls are all paid.

The tunnel had been driven in 800 feet with One-Cross Cut driven in 100 feet.

The formation had been hard rock until near the end of the tunnel where we drove into a soft material, which could be bored with an auger, indicating that we were near an ore body.

In driving the tunnel this distance we encountered several ore shoots showing good values in copper and gold.

As you may know the U. S. Government moves slow and it may be early spring before we get our patent, at which time we will have our property in good shape to continue the development.

Our Superintendent, Mr. Rock, is on the ground looking after our interests.

Respectfully,

C. E. WILLIAMS, President.

THOMAS BOGGESS, Secretary.

November 8, 1919.

[1819]?

NOTICE

Through some oversight a mistake
has been made in the school calendar.
School opens Wednesday, October 5th,
at 9 A. M., not Tuesday, October 4th.

[1919]?

Mrs. E. C. Means--2.

time.

I was sorry to see that she only just passed in the Latin examination. This may be indicative of the fact that, the preliminary work having been done in a shorter time than is usual, she should give extra time to the preparation of her Latin lessons this year. Should this prove correct, you will see the wisdom, I am sure, of having her drop the Music.

Very sincerely,

Hannah T. Shipley
J. 7.
