munity—Mrs. L. B. Fouse, Lexington, Ky.

Plans for the Ensuing Year—Mrs. Rebecca Tilley, Christiansburg, Ky.

Election of Officers.

Business Session.

POEMS BY HENRY ALLEN LAINE, RICHMOND, KY.

(Part of K. N. E. A. Program, 1923)

I.

I rise to offer friendly greetings,  
Teachers of Kentucky;  
That we've been spared in health and strength,  
To meet each other here.  
Through busy scenes, and anxious cares,  
And many unseen dangers,  
We've safely passed and reached this point,  
Of one more busy year.

II.

How have you fared since last we met?  
Has true success or failure  
Attended you in that great work,  
Instruction of the youth?  
Have you done all that you could do,  
And put forth every effort,  
To make this year, your banner year,  
In spirit and in truth?

III.

I know you have, your presence here,  
Speaks plainly your devotion,  
To duty, in the highest sense,  
Your yearning, strong desire,  
To take the lead, here, in the South,  
In public education,  
And on her alters keep alive,  
Its everlasting fire.

IV.

There sit before me able men,  
And many cultured women,  
Whose lives would honor any race,  
However dark or fair.  
But one here, stands out, clear, distinct,  
Aggressive, bold, untiring,  
Of vim, and force, and brilliant parts,  
Our worthy chairman there.

## V.

We all are race men here, I hope,  
To that high work devoted,  
Which seeks to lift our people up,  
And hasten on the day,  
When man to man shall brothers be  
Here in our great free country,  
And every form of racial hate  
Forever pass away.

## VI.

This body stands for school reform.  
We'll not retreat, nor waver,  
Till such reforms are brought about,  
As set forth here below.  
We represent the highest thought,  
The most advanced ideas,  
Of public schools, whose rising forms  
Advancing shadows throw.

## VII.

We want free schools in reach of all,  
With most advanced equipment;  
Extended terms for rural schools,  
With text books furnished free,  
Compulsory laws, that will compell,  
Small schools consolidated,  
All classified in proper grades  
Of high efficiency.

## VIII.

We want more high grade normal schools,  
Equipped for training teachers,  
To meet the strict requirements,  
Of this advancing age.  
Where all that's best in the teaching art,  
With highest skill imparted,  
By experts in the lecture rooms,  
And of the printed page.

## IX.

In all the schools there should be planned,  
A course on "Race Relations,"  
So whites and blacks might study facts,  
In light of truth divine;

So that where racial interests blend,  
Urge justice, full, impartial,  
So that good will may drive out hate,  
Along the "color line."

X.

Search history with impartial eye;  
Present the whole great story;  
Include why Crispus Attucks fell,  
When teaching Paul Revere.  
And when you sing great Putnam's praise;  
Don't leave out Peter Salem;  
And so on down the shining line,  
Teach facts, complete and clear.

XI.

Search musty nooks for hidden truth,  
Turn on the light revealing  
The mighty deeds by white men done,  
But don't forget to tell  
The glorious part both races played,  
In peace and war together,  
And how brave, loyal, Negroes served,  
Their country long, and well.

XII.

Let thoughtless youth be taught to see,  
True worth in life is being  
A wholesome elevating force;  
Let this be taught in school  
That one safe course leads straight ahead,  
To inter-racial concord,  
And all our unknown future hangs,  
Upon the "Golden Rule."

XIII.

So, let these aims be kept in view,  
When back to fields of labor,  
We go, when these brief sessions close;  
Let every teacher do  
His best, by word and thought, and deed,  
To honor Old Kentucky;  
And may she wake out of her sleep,  
And rise, to life, anew.

# The National Benefit Life Insurance Co.

1898 At the Head of the Nation—Built upon a Capital Idea 1923  
609 F Street, N. W., Washington, D. C.

## THE PESSIMIST.

“What’s gwine ter come o’ dis Negro race?”  
Said Uncle Eben, with troubled face,  
Seated beneath a cherry tree,  
Hunting ground of the honey bee.  
Turning swift, while the days are warm,  
To shield itself against the winter storm.  
“I wonders, sometimes, lookin’ roun’  
Ef dis heah race aint losin’ groun’.  
’Pears we’s learnin’ awful slow,  
De very t’ings dat we ought ter know.”

### II.

“De fust mistake made, soon as we’s free,  
Mistook de meanin’ of Liberty  
Thought dat de word meant, ‘do as you please;’  
Work when you has to, take your ease.  
To work and to save is a wicked t’ing;  
Hab big meet’n, shout and sing;  
Servin’ de Lo’d in de light ob day;  
Soon’s its da’k, th’ow ’ligion away!

### III.

’nother mistake made, ev’n now,  
’Stead o’ showin’ our young uns how,  
Ter stir like we did let ’em do,  
Any way dey want to ain’t dat true?  
Daughters playin’ “rag-time,” sons playin’ cyards;  
Mamma in de washtub, in de back yards;  
Daughters off at college dressed to kill;  
Mamma in de washtub payin’ de bill.  
Son, he a cigarette-smokin’ dude,  
De Ol’ man furnishin’ de clothes and food.

### IV.

De Ol’ Folks struglin’ ter pay for lan  
Young folks puttin’ on, actin’ gran’,  
Ol’ folks die. Fust t’ing you knows,  
Back in de white man’s han’s hit goes!  
So I wonders, sometimes, lookin’ roun’,  
Ef dis heah race ain’t losin’ groun’.  
’Pears we’s learnin’ awful slow,  
De very t’ings dat we ought ter know!

HENRY ALLEN LAINE.

## MY LAD

---

By JOSEPH S. COTTER, Principal of the S. Coleridge-Taylor School  
Louisville, Ky.

I saw two urchins,  
A Negro and a Jew,  
Sitting on a curbstone.  
Each held unsold newspapers in one hand  
And was juggling pennies with the other.

The Negro's smiling face and swaying body  
Seemed to sing to his pennies:  
"Fly away  
And bring me back a good time."

The Jew's sober mien and steady poise  
Seemed to whisper to his pennies:  
"Go the way I have taught you  
And bring back the world captive at my feet."

The real boys vanished  
And in their places sat another,  
A child of my fancy.  
He was not a Negro  
With a passion for ease  
And a genius for joy.  
He was not a Jew  
With a prayer scenting the past  
And a thought sealing the future.  
He was just a child of nature,  
Waiting to be shaped by circumstances  
And  
I sang him this song:

My lad, you are an Arab of the gutter,  
A rag-tag of the tenement.

You are these, my lad,  
But you are not poor;  
For the sun gives you courage by day,  
And the moon consolation by night.

You are these, my lad, but you are happy,  
The flowers give you their perfume,  
And you thank them with a smile;  
The water kisses your body.  
And you bless it  
With the benediction of motion.

You are these, my lad,  
But you are not ignorant.  
You sit on the curbstone,  
You dream great dreams;  
They tingle your being,  
And your heels and toes  
Write their story in the gutter,

Because of all this, my lad,  
There is a place for you  
In the mart of human achievement.

Find your stall,  
Display your wares;  
Put God on one side of the scale  
And your commodity on the other,  
Then Success will pen a lyric in your honor,  
And the stars will sing  
Of a just man made perfect.

You are an Arab of the gutter, my lad,  
A rag-tag of the tenement;  
And believe me,  
It will take your own brave soul,  
God and ill-fortune to decide  
What you shall be.

## A CLOVER CREEK SCHOOL HOUSE

Breckinridge County, Ky.

In a hill-bound and somewhat rustic pocket,  
Like a rough picture in a costly locket  
With scarcely room enough to train a mouse,  
Stand a few boards the trustees call a house.

The floor and ground meet on the western side,  
But on the east a drove of hogs might hide  
And make their beds within the mellow ground,  
And dwell day after day and not be found.

The windows that front on the east and west  
Are much like pockets in a ragged vest—  
Pockets that have been worn out long ago,  
And cling about the garment just for show.

Like to a hole cut in a massive bin  
Is the large door at which you enter in,  
And once within you need not peep about  
To find the many places to look out,  
For on each side, in front and at your back,  
Yes, everywhere you look you'll see a crack.

Close to the wall a pulpit stands in view;  
(For this is both a church and school-house, too)  
And here and there, fastened with wooden cleats,  
Are a few boards the pupils use for seats.

About the middle of the time-worn floor,  
And on a straight line with the barn-like door,  
Silently stands a large old stove. Of yore  
They say it heated; but it heats no more.  
A blackboard hangs upon the southern wall,  
And all day long the curtains rise and fall.  
With every gust of wind. And that is all.

All save a lad who dreams that he  
Is great among the great.  
To him this makeshift is a part  
And parcel of the State.  
To him no wind can be unfair,  
No fate can be unlucky;  
No soul too poor to wed its star,  
If bred in Old Kentucky

JOSEPH S. COTTER,  
Principal S. Coleridge-Taylor School.

# If You Should Die Tonight What Would Your Estate be Worth?

Could your wife lift the mortgage from the home?

Would your children's education be continued?

What will be your situation when you are old?

Oh, you are saving for that purpose.

But how much cash have you now?

If all your debts were paid **WHAT WOULD YOUR ESTATE  
BE WORTH?**

Here is the difference between Insurance Savings and other  
ways of Saving:

A \$5000.00 policy would require a saving say, of \$35.00 every  
three months, and you would have a cash estate of \$5000.00  
as soon as you make the first deposit.

Any other way of saving, your estate would be worth only  
\$35.00.

**KENTUCKY**

**RESOLUTIONS REPORTED BY THE LEGISLATIVE  
COMMITTEE OF THE K. N. E. A. AT  
THE 47TH ANNUAL SESSION**

Kentucky is facing a crisis in her intellectual life as a new day dawns upon her educational horizon. In this crisis no group of citizens is more vitally concerned than the group represented by the K. N. E. A. A wave of educational revival is sweeping the state. Enthusiasm is running high. New and vast educational enterprises are being discussed and planned. Within the next few years large sums of money will be asked and secured from the General Assembly to make real these plans and to carry out this program. The Negroes of the state must avail themselves of this educational revival and grasp the opportunity which it presents, or be left behind in the march of progress along educational lines. The big outstanding words that will spell success for us is "unity," "co-operation," "get-together." And the outstanding words that will spell defeat is "jealousy," "bickering," "suspicion," "indifference," "selfishness."

We your Committee on Legislation, therefore, desires to make the following report:

I. We desire to go on record as expressing deep satisfaction and encouragement at the progress which has been made along educational lines since the last meeting of the K. N. E. A. Among the improvements worthy of special note should be mentioned:

(a) The appointment by Dr. George Colvin, Superintendent of Public Instruction, of a Supervisor of Colored Schools in the person of F. M. Wood, a former President and active member of the K. N. E. A.—a plan advocated for many years by this association, and marking the beginning of a new era in education as it pertains to the Negroes of the state.

(b) The standardization of the colored high schools of the state on the same basis as the white high schools, and the announcement by the Department of Education that forty-seven Negro high schools are listed as measuring up to this standard, calling for the same efficiency in teaching and adequacy in equipment for black and white alike.

(c) The announcement by the Superintendent of Public Instruction that the State Normal at Frankfort was in the process of reorganization and that the next twelve months would witness the development of the State Normal into an institution with the rank of a college, having the following well organized, well equipped and well manned departments:

- (1) Industrial
- (2) Teacher training
- (3) Standardized college
- (4) University extension

II. We take keen pride in the fact that Kentucky has the proud distinction of being the only state in the South where the pro rata of the common school fund is the same for colored as for white children, and where the constitution makes no distinction between white children and colored children in the distribution of the common school fund.

We note, however, with concern that in many places, local communities do discriminate against colored children in providing educational opportunities, in salaries for teachers, in equipment, etc. We urge,

(a) That in such cases, City Boards of Education, County Boards of Education and other agencies handling public funds be held to a strict account in the legal distribution of these public funds.

(b) We recommend that the K. N. E. A., through its Legislative Committee, co-operate with the Inter-Racial Commission of Kentucky in an effort to correct any illegal discrimination in the distribution of school funds, in the payment of teachers' salaries, the lengthening of school terms, etc.

(c) And that the colored teachers of the state be urged to report to the Legislative Committee of the K. N. E. A. and the Inter-Racial Commission any instances of such illegal distribution, and other irregularities as may come under their observation.

III. We urge that the Negro teachers of the state and especially the rural teachers inform themselves as to the various outside funds available for supplementing the state and county funds, for the erection of buildings, employment of teachers, etc., such as the "Rosenwald Fund," the "Jeanes Fund," the "Smith-Hughes Fund," etc., concerning which information can be obtained from Dr. F. C. Button and Professor F. M. Wood of the Department of Education.

IV. We are glad to note and take pride in the facilities being furnished for the education and training of the white youth of the state among which the following may be mentioned:

(a) A great university with an annual income of \$1,250,000.00.

(b) The raising of the grade of the State Normals at Richmond and Bowling Green to the rank of teachers colleges and the establishment of two additional state normals with an initial appropriation of \$150,000.00 each. We rejoice in these splendid facilities for the education and training of the white youth of the state, for we believe in the highest possible education of all the people of the state.

The Committee goes on record as registering deep concern and disappointment at the failure of the State Legislature to provide adequate educational facilities for the higher education of the Negro and the training of Negro leadership. This failure constitutes one of the most serious handicaps under which the Negroes of the state labor, as will be seen from the following:

(a) Because of the failure of the state to provide educational facilities for higher education and the training of Negro leadership

over seven hundred and fifty young Negro men and women, among the brightest of the race, are forced to leave the state annually, a large part of whom form new contracts and are permanently lost to the state.

(b) The recent Legislature while raising the two white State Normals to the grade of teachers colleges, establishing two more teachers colleges for whites, besides appropriating a large sum of money to the University of Kentucky, a considerable part of which is derived from the taxes of colored citizens, voted an annual appropriation of \$50,000.00 for the State Normal at Frankfort, \$21,000.00 for the West Kentucky Normal and Industrial College, \$20,000.00 for the Kentucky Home Society for Colored Children, \$5,000.00 for the Red Cross Sanitarium and \$5,000.00 for summer schools for colored teachers, a total appropriation for all purposes of \$101,000.00 as the state's annual contribution to the training of Negro leadership and welfare work. The Legislature also turned down the proposition to establish one training school for the Negroes of the western part of the state.

#### WHAT OTHER STATES ARE DOING FOR NEGRO EDUCATION

In contrast with the meager facilities provided by Kentucky for the training of leadership for our Negro population may be mentioned the generous provision along this line by some other Southern states.

##### V. North Carolina.

(a) North Carolina is the first state to create by legislative enactment, a division of Negro education as a part of the State Department of Education. There is to be appropriated annually to assist in supporting this division ..... \$15,000.00

(b) The Legislature of 1919 appropriated for buildings at the three Negro State Normal Schools ..... \$100,000.00

In addition this Legislature appropriated for Negro Education:

(a) For building and equipment in colored schools.....	\$400,000.00
(b) Maintenance of the three Normal Schools.....	75,000.00
(c) For teacher's training in church and private schools	15,000.00
(d) For buildings, improvement and maintenance of the Agricultural College .....	145,000.00
(e) For a Reformatory for Negro boys .....	25,000.00
(f) Maintenance annually for a Reformatory.....	10,000.00
(g) For teacher training in summer schools annually.....	25,000.00
(h) For high school and vocational education.....	40,000.00
(i) For buildings at the Sanitarium for Tubercular Patients .....	100,000.00

---

Making a total of ..... \$950,000.00

The Legislature of North Carolina just closed, appropriated to the A. & T. College, colored ..... \$601,000.00

The largest appropriation that this state has ever made to a Negro school, and the largest single appropriation ever made by a State Legislature to a Negro school.

VI. Missouri.

- (a) The Missouri Legislature appropriated to Lincoln Institute, Missouri, for current expenses and addition for lands ..... \$329,000.00
  - (b) For changing this school into a university..... 500,000.00
- Making a total of ..... \$827,000.00

VII. West Virginia.

A recent Legislature of West Virginia appropriated for the biennial period, 1921-1923 for Negro education and welfare purposes the following:

- (a) Collegiate Institute ..... \$452,272.00
  - (b) Blue Field Colored Institute ..... 136,344.00
  - (c) Storer College ..... 6,000.00
  - (d) Hospital for Insane ..... 180,000.00
  - (e) Industrial School for Boys ..... 150,000.00
  - (f) Industrial School for Girls ..... 50,000.00
  - (g) Tuberculosis Sanitarium ..... 52,000.00
  - (h) Deaf and Blind School ..... 30,000.00
  - (i) Bureau of Negro Welfare Statistics ..... 12,200.00
- Making a total of .....\$1,068,816.00

VIII. New Jersey.

A recent Legislature of New Jersey appropriated for the state school for colored people ..... \$317,000.00

IX. Mississippi.

Mississippi has appropriated for school buildings and improvement of Negro schools to be expended this year ..... \$800,000.00

X. Kentucky.

In contrast with this generous policy adopted by other Southern states, what did Kentucky do for her Negro citizens who constitute one-tenth of the population of the state?

- (a) State Normal and Industrial Institute at Frankfort an increase of only \$10,000.00 over last year..... \$ 50,000.00
  - (b) West Kentucky Normal and Industrial College at Paducah, for building equipment and salaries..... 21,000.00
  - (c) Kentucky Home Society for Colored Children, Louisville ..... 20,000.00
  - (d) For summer schools for colored teachers..... 5,000.00
  - (e) For Red Cross Sanitarium ..... 5,000.00
- Making a total of ..... \$101,000.00  
for educational and welfare purposes.

(1) In view of the foregoing resolved, that we urge Superintendent Colvin and the Department of Education to proceed as speedily as possible to the establishment of an institution of college rank at Frankfort. This is just to the Negro since the two state normals for whites have been raised to the standard of colleges, and two additional teachers' colleges provided for. It is urgent since over seven hundred colored youths are at this very moment pursuing courses in other states because their own state has failed to provide such facilities here.

(2) A state normal of standardized grade for Negro youth of the western section of the state. This is just to the Negro since the state provides a great university, two institutions of college rank, and two new state normals for the white youth of the state.

(3) Laws safeguarding the educational interest of the Negro child in rural districts, small cities and sparsely settled sections, securing equality of distribution of public funds.

(4) The appropriation by the next Legislature of at least \$800,000.00 to carry out the above recommendations.

(5) That a standing committee be appointed to take whatever steps that in their judgment seem necessary to arouse public sentiment, secure the united co-operation of the 230,000 Negroes in the state and to take any other action deemed wise to put this entire program up to the men and women who are to present themselves for office in the next state, county and legislative election, giving especial attention to those who offer themselves as candidates for members of the next General Assembly.

(6) That a copy of these resolutions be given the press and placed in the hands of members of the next state administration and the next General Assembly.

Respectfully submitted,

JAMES BOND,  
A. E. MEYZEEK,  
C. L. TIMBERLAKE,  
J. W. BELL,  
CLARENCE H. RUSSELL.

# ADDRESS

—BY—

JUDGE WILLIAM HARRISON OF CHICAGO

Delivered at the K. N. E. A. April 19, 1923

Stenographically reported by Misses Anna Moss and Ethel Perkins, members of the Senior Commercial Class of Central High School.

Mr. President, Officers, and Teachers of the Kentucky Negro Educational Association of Kentucky and of the United States of America, ladies and gentlemen:

Down in the state of Mississippi where some of you were born and reared, they sent a girl that lived in the country to represent her district association in a convention. The association convened about fifteen miles from where this girl lived. The girl never had been more than a radius of two or three miles in her life, although worn out she went back home and the Church expected her to make a report of the proceedings of the convention.

She got up before the Church and said, "Brothers and Sisters, I haven't much to say, but I want to tell you this, if the world is as big out this way as it is back that way, I tell you she's a whopper."

Looking at this magnificent audience, these distinguished educators and instructors, nation and race builders, it looks to me that if teachers in other states of the Union are as big out in other directions as in Kentucky, I tell you they are certainly whoppers.

I think some of you have heard me talk before and know that I am just a plain man that talks plainly and talks right on and calls things by their names as; an axe an axe; and a spade a spade, and so I am going to talk to you tonight plainly although you are educators. It is my good fortune and good pleasure to speak to this audience again. When I spoke here one time before I think I told the audience on that occasion how plain a man I am. I told them of an occasion in Cambridge Massachusetts.

Speaking that night to a crowded audience in the balcony around the auditorium I discovered and noticed a woman nudging the man next to her. Her lips were parting giving evidence of speech. The speaker giving a short history of his life said that he was born and reared in Mississippi and that his mother's name was Caroline. At this the woman who had been doing the judging spoke out loud enough to be heard all over the house and

said, "I told you so, I told you so. He ain't no Judge; ain't nobody but Caroline's William." At this the lady came down the aisle and the speaker laid his hands on her shoulders. She was stooped with years and looking into her face to see whether he recognized her or not, saw tears trickling down her cheeks. She put her hands on his shoulders and said, "God bless him. God done made him a Judge, but he ain't no Judge, he ain't nobody but Caroline's William."

The cordial invitation to deliver an address to this group of distinguished educators on this their annual gathering for training, has been extended, for that reason your good faith and attention are solicited.

While the speaker approaches this task with confidence, in planning, makes an earnest effort to deliver a message that will be encouraging, helpful, and hopeful, not only to this magnificent presence, but that will reach to the uttermost parts of the earth. You will notice the breadth and scope of the speaker's language and his meaning literally and not figuratively, for this speaker, as some of you know, does not confine his efforts to human uplift, human betterment, and human civilization; does not confine his efforts to human redemption; does not confine his efforts to the skins of men nor to their lingual descent, because ignorance is ignorance, whatever his color, wherever he is, there is dissatisfaction.

Equally true—right is right, wrong is wrong, whoever is right, whoever is wrong, whatever his color, whatever his geographical location and whatever his lingual descent. Finally men are going to be weighed in the balances of justice, weighed in the delicate scales of truth not based upon the color of his skin nor his geographical location, nor lingual descent, but men are going to be weighed in balances of brains and culture of heart, for out of the heart are the issues of life.

When that statement is made, generally in that scope or sweep, taking in the uttermost parts of the earth, the speaker directs that we start our work at Jerusalem, but that same Commerce also directed good of the uttermost parts of the earth and is on his way to reach others of the earth.

In accepting the invitation to come to speak tonight, the speaker came not with the thought of carrying on foolishness to please you and not with a thought to tickle you and make you laugh; not for the purpose of putting on an entertainment for he is not in the entertaining business. You do a dangerous thing to try to please the people, every time you try to please people you get into trouble. The very folks you try to please are the very folks you are going to displease.

I came tonight to sow seed of dissatisfaction among you, now that probably seems plain and paradoxical, but that is my mission. It may seem strange to have the guest tell you, his host,

that he is going to sow seed of dissatisfaction among them and if I succeed in doing this it is well that I came, and if I do not succeed I came for nothing. I came to make you right and cause dissatisfaction among you.

What am I? I come to make preparations. Who am I? I come with fitness, I came to take you by Delphi and let you read the inscriptions over the door of Delphi. I came to ask you this question; how much do I weigh when I step on the scales, when it comes to the onward march to make a contribution?

I came to make you dissatisfied in your line of march and make you step up a pace in your line of march; to make you dissatisfied with the record you have made. The man that is dissatisfied knows that progress is the law of right and moves on. It is happy for the speaker to have this opportunity to speak to the bounds of Old Kentucky; an opportunity to make us speak on the lines of the problems and their duty; an opportunity to make you look at the human event up the boulevard of civilization; an opportunity to make us ask the question again, what am I giving to the permanency of the civilization of the world?

Every group of mankind since the beginning of civilization of the universe has had dim ways of living. Every group of mankind known to history shows that most every group has made the mistake of basing their contributions on the foundation from which all force, might, and power come. History shows and points its finger in a warning face, and says that no group has ever climbed the ladder of success; no group has ever stood upon the foundation and stayed there permanently. On the contrary, every group that has ever esteemed fame by conquest, the introduction of the forerunners, the speaker has not time to state back in the dome of civilization of the down fall. To prove these, to satisfy the occasion is to prove that this conquest is to every group of nations, how conquest built Memphis, the Capital of Egypt that ruled Egypt two thousand years and overthrew King Nimrod, the mighty hunter living in the Persian Gulf, organizing that people in the founding of Babylon, giving to the world one of its seven wonders its swinging gardens. Mighty and powerful was the overthrow which the Persians believe in and mother of Solon the Athenian law giver.

Cyrus and Cambyases extended the kingdom started by story of its ruins runs into the Grecian empire. Greece the mighty empire fell before the twelve nations of Greece. The Cyrus and Darius, proved its organization, then what happened, tonight nothing remains of Babylon save its precipices, hills, and mountains.

But some historians try to find out how a man conducts himself when we open the cradle, while, every group of the earth has made some contribution as one worth while. No race, no nation of the world up to this night has made the wisest and best

contribution, the permanency of the world's civilization and the world's progress. When that statement is made it is made with a firm stand over in Germany. Scientists tell us that the greatest habit of Germany and still a habit, was the giving over to the wars. But Germany's progress is based from America. We pass up English law for that of Great Britain. That from the one battle and that has made a valuable contribution to the world's civilization, but this night France is creeping downward in the rural valley, down the hill seeking homes in Europe and Italy, and whose sons have been sent to Italy. Italy tonight has sent her Armies all over the world in conquest against might, and power.

Certainly the conquest mighty in power, the proud and indomitable Anglo-Saxon has given the world a line in many many things and add, I say with that, that the highest and best contribution to the permanency of the world's civilization, has not been made by anybody.

Our contribution the basis, the permanent basis for the future permanency of the world's civilization must be living and inscrutable, and have implicit faith in God, any other civilization must crumble and fall. I come tonight before you teachers, to make this statement, I don't want a single teacher of the earth to have anything to do toward educating my child unless this teacher has that implicit and unawakened faith in God. Whatever the preparation, if you haven't that, whatever your efficiency, if you haven't faith in God, you are not prepared for your work. I take stock in Dr. Grant's theory containing that statement. To my mind, unless you have that faith in God, you are a dangerous character to lead anybody anywhere.

Let us not deceive ourselves, for no teacher, preacher, or leader of my people can teach and preach anywhere unless he is prepared and efficient. Do not teach school anywhere unless you are efficient, for if you do you are not teaching, you are only keeping school. This is very plainly stated, but as I said before I came to make you dissatisfied among yourselves. School teachers must be based upon fitness, school teachers must be based upon efficiency and none who has not this is keeping school and there is no doubt about this. You are the copy in the copy book for the children of my race. I never shall forget down in Gray County Mississippi where the teacher couldn't write straight himself. I never shall forget how I sat on the bench trying to copy all he had and it was wrong. He was personally my copy, but the copy was imperfect and I haven't got the crookedness out since. He didn't know a single principle in penmanship and I am sorry I got it as I did, for I still make the letters as he did.

You should teach penmanship together with your other work. Part your hair straight. I once had a teacher who parted

his hair in the middle and I tried to copy after him by parting my hair in the middle, that's why I am bald-headed tonight. I have a part there that never leaves.

I had a teacher that twisted his mouth when he sang, and I did it too, finally I got one that sounded his "T'S" and "D'S" and I did the same.

I insist I wouldn't want a teacher to teach my child unless he stood up straight. You must stand up straight before your children and in the sun light of God's righteous.

We should put copies on the board for our children to be civilized, to be economical, and to be efficient for the future plan of the world. I don't like this idea of putting us all in a corner. I don't like corners.

The minute we put some copies on the board that we must take the corners in the world we are taking sides with segregation. There is no such thing as divine inferiority. Don't put any copies of inferiority on the board for our children. If you have been doing this, erase it. Don't put such on the boards, but put up there a world wide copy for the children, and let them go where they will and improve agriculture, medicine, as there are no lids on this line of work. I don't like this mode of telling children of inferiority. Don't put the sign inferiority on the board for children, let them go forward everywhere.

Every one has some disadvantage of environment. I want to emphasize, don't put any inferiority on the board. What is the standard of superiority or inferiority? I am superior. I am not inferior. (I will tell you the only man on earth that is my superior.) Whoever can beat me out of his line of human labor is a bigger and better man than I am. If he is going to be the better man, then, all right. But that isn't my standard. Some folks take as a standard expoundary civilization as a basis for superiority. Well, if that is true, the Anglo Saxons are the most inferior race living.

The Siamites and the Yellow race are impressed of the dark race that had feasible laws, when its works were cultivated a long time before the Anglo Saxon race.

The Jew had his sermon placed in the Kingdom, while the Anglo Saxons, were wearing skins of animals. Shakespeare, Bacon, Milton, Simms, and Benjamin Franklin, who would call these folks inferior, and yet those folks were heard of aside from lightning, when the yellow folks were studying the skies and stars.

Inferior, no? Our contribution, what is it going to be? No one has made it the highest and best contribution. Here we are in the mass of turmoil of life. Here the civilization of folks has failed to bring the democracy of the world, for as we have come to the kingdom as such a time as this. Don't put any hatred on the board for our children to copy. Whoever has founded

on the several basis of hatred has failed. You can't have hatred in your hearts. Let us do more today toward contributing to the world. The Anglo Saxon race, is strong in brain and ambition. Let the world know that we have ambition, let the world know that we have aspiration that other men have. We are not doing it through hatred.

Down in Jackson, Mississippi, the capital of the state, a lawyer went to the governor to ask if he could see an inmate of the asylum; when he got over there it was after closing hours. He then went down to an open space in the fence where the inmates were playing, the man then climbed upon the fence and starting to talking to the inmates, he lost his balance and fell over the fence. They thought he wanted to get acquainted and they came up in large numbers and gathered close about him; they came in still larger numbers and some more closed in, finally they came so thick and fast that he then quickened his steps and began to run. They began to run after him and then a cow saw him and began to run in relay. The man ran and fell, and one of the inmates, ran up and touched him and said, "I got your tag."

We have ambition, yes, we have our own ambition. We are running in the stage of civilization; we are just trying to get their tag that's all. We have come to a new day and a contribution must be made for a new day.

Science has turned the world into a whispering gala; science has given the progressive people of the world reserved seats and has given us to look and listen and see the outcome.

The basis of race deportment is fast, and ours must have endurance, if we will keep up with the race. A new day contribution—what will you make it? We are master minds. How much preparation have you made? How much preparation have you given your children to keep up with the onward march? I want us to make a contribution to law: I want us to make a contribution that will welcome the world; I want us to make use of the great law given by Jesus Christ; I want us to make that contribution that was sung by the English people, "Peace on Earth Good Will to Men." I want us to make that contribution that will make man look upward and succeed.

The truth that we are getting here, is about the contribution of the world. It will light in and give people credit for all they have done. There is but little tendency to study Mythology, Science, and Mathematics. Getting down to the truth it will be given to the practical aim, that will make fitting, the permanency of the civilization of the world and such giving will stand out greatest among the nations of the world.

# UNEXCELLED RECORD

Of The

## Mammoth Life & Accident Insurance Co.

INCOME

The surplus and reserve are approximately four times the amount required by law.

This shows efficient management, remarkable growth, and that the Company is extraordinarily sound Financially.

It has four dollars for every one dollar it is necessary to have, under the law, to be safe and furnish permanent Protection to the Policy Holders.

## THANKSGIVING SIGNS

By Paul W. L. Jones

Nights is gittin' cool an' frosty,  
Needs mo' cover on de bed.  
Hear dat sassy turkey mouthin' ?  
Don't know what de rascal said;  
But I does know dat ol' missus  
Said to me today so flat:  
"Charley, how's de turkey lookin' ?  
Is he gittin' good an' fat."

Why I knows dat Mister Gobbler's  
Slick an' fat as he can be.  
He goes struttin' thru de barnyard  
Lak he owned all Kentucky.  
Ever' time he mak' his music  
Bows his neck in turkey sin;  
I jes' stan' an' watch his capers;  
Hav' to shet my eyes an' grin.

First he twis' his head an' hollar,  
Scratch his wings 'pon de groun',  
Spread his tail de la'est fashion,  
Den he turns an' walks aroun'.  
T'other fowls dey eats an' lis'ens,  
Won'erin' what he nex' will do,  
As he marches 'roun' so vainly,  
Feelin' 'portant thru an' thru.

Nancy's got a grudge agin' him,  
Tho' she mak' out dat she aint,  
My, but can't church folks act 'ceitful ?  
Nance is sure some sinner-saint.  
She's be'n plottin' an' a plannin'  
Fur de las' four weeks, yo' bet,  
How she's gwine ter stuff in dressin',  
An' she aint don' figur'n yet.

Wonder ef dat noisy turkey  
Ever notes de season's change ?  
Wonder ef he sees whut I sees ?  
Folks is actin' queer an' strange,  
Throwin' corn an' other choice bits  
To him on de lef' an' right;  
Ef he'd read dey kindness proper,  
He'd roost higher ever' night.

Turkey Gobbler, whar's yo, sense at?  
Hav' yo' los' yo' mother wit?  
Yo' still braggin' an' a boastin'?  
I don't b'lieve yo' got a bit.  
Don't yo' know de dainty morsals  
Dey is flingin' out yo' way,  
Is ter mak' yo' rich an' juicy  
Fur de nex' Thanksgivin' day?

---

## LOVE AND LIFE

By Paul W. L. Jones

Of what shall I sing?  
Shall I sing of love?  
Love is an old, old song.  
Old, it is true,  
But ever new,  
And as sweet as the years are long.

Of what shall I sing?  
Shall I sing of life?  
Life with its joy and pain?  
Life, it is love  
Sent from above  
And season'd with sunshine and rain.

Of what shall I sing?  
Pray give me a song;  
Help me to tune my lyre.  
Love and Life,  
Their joy and strife,  
Will set this old world afire.

## 'POSSUM

By Paul W. L. Jones

De 'possum's sweet as sweet can be;  
De 'possum's tender, rich an' good,  
De juiciest of de juiciest meats,  
De finest ob de finest food.

He's fit fur ever' rank an' race,  
In North or South, or East or West;  
He's good when skun, an' good unskun,  
An' all de ways he's cooked is best.

Dey aint no dish dat suits my taste  
Lak 'possum baked up good an' brown;  
Dey aint no eatin' half so fin',  
De 'possum's equal aint been found.

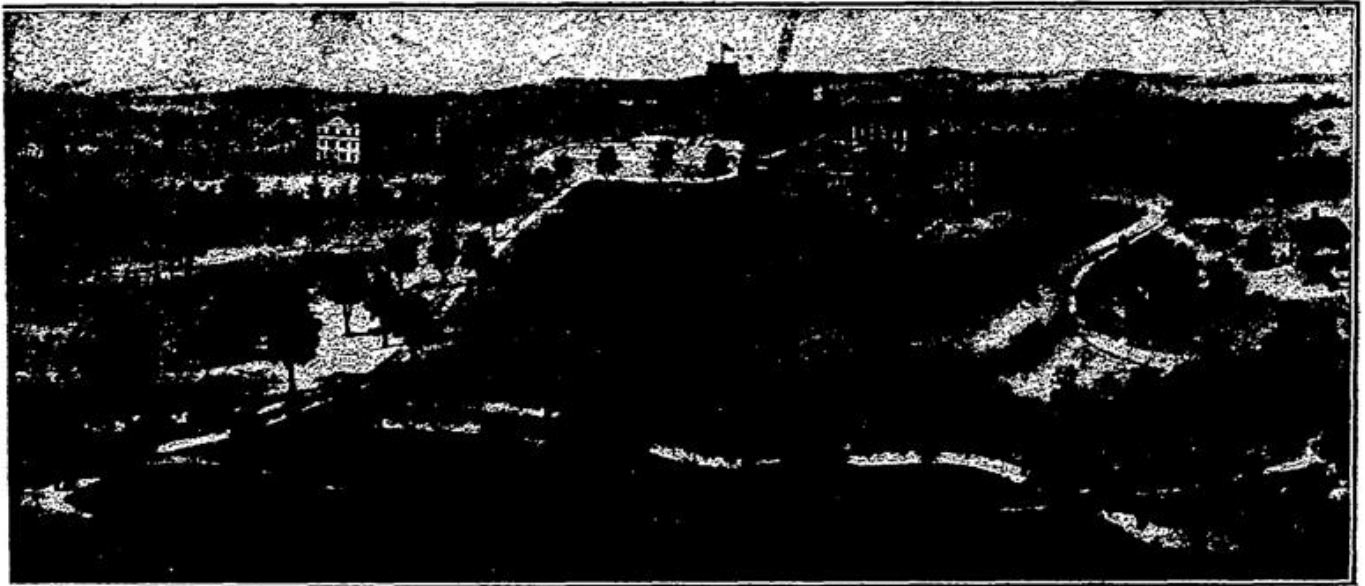

At morn, at night, at dinner time,  
At home or 'broad, on lan' or sea,  
When hot or cold, or twixt an' tween,  
De 'possum sure eats good to me.

Why course I knows dere's other meats;  
I knows dey's prime an' middlin' rare;  
But none ob dem don't cut no ice  
When 'possum's on de bill ob fare.

I love de 'possum through an' through;  
I love de hide; I love de meat,  
From side to side, from end to end,  
From head to tail, from back to feet.

I love my wife; I love my kids;  
I love my home an' duty's call;  
I love my toddy, dog an' horse,  
But 'possum meat dey best of all.

**Lincoln Institute of Kentucky**  
**LINCOLN RIDGE, KENTUCKY**  
**22 Miles East of Louisville**  
**ON THE MIDLAND TRAIL**

Normal and Industrial School. Non-sectarian but deeply religious.

Seeks a selected group of the most promising minds for thorough training. Purposes to give as full education, so far as its courses go, as can be had in the best white schools of the State.

\$155.00 covers all necessary expenses except for uniforms for school year of 36 weeks, and offers large opportunities for self help. Many students earn much of their expenses.

Its Normal graduates are sought by letter and wire as teachers and are desired by Fisk and Howard Universities as college students.

Its industrial graduates, Agriculture, Carpentry, Engineering and Home Economics, find large opportunities.

A well equipped Department of Music offers thorough courses.

440 acres of bluegrass land, 18 buildings, 3 reservoirs, complete fire equipment, most modern heating, water and sewage systems. Safe and sanitary.

U. S. Bureau of Education says: "An effectively managed school of elementary and secondary grades, with good equipment and considerable endowment. Emphasis is placed on development of character."

For information write to

REV. A. EUGENE THOMSON, Principal, or  
REV. KIRKE SMITH, Dean.

## RECOMMENDATIONS FROM THE DEPARTMENT OF PRINCIPALS

We, the committee appointed by the department of principals of the K. N. E. A. to make recommendations as to the study of Negro life and history and also along the lines of business and commerce wish to make the following:

1. We recommend that the K. N. E. A. go on record as recommending the study of life and history in every locality of the state and that these local organizations attach themselves to the national organization under the direction and guidance of Dr. Carter G. Woodson.

2. We recommend that the K. N. E. A. also go on record as favoring the study of Negro life and literature in the public schools of the commonwealth not to displace or to antagonize existing studies but to supplement these with more facts from our group thus enriching the present courses.

3. We recommend that the K. N. E. A. urge the adoption of business and commercial courses in the high schools of the state and (b) that it give some financial encouragement to the end that through bulletins and other publications the people of our group may know more thoroughly the facts along this line. But the extent of this financial aid shall be modest, limited and approved by the board of directors.

W. H. FOUSE,  
W. H. PERRY,  
J. B. COOPER,  
JAMES BOND,

Committee.

---

## REGULATIONS ADOPTED BY THE PARENT-TEACHER DEPT.

1. The P. T. A. shall have as an identification a button along with the regular K. N. E. A. badge.

2. All bills of the State P. T. A. shall be paid by the K. N. E. A. Treasury by orders drawn and signed by the President and Secretary of the P. T. A. Such orders being first sent to the Secretary of the K. N. E. A. for his record. It is suggested that such expenditures not exceed the enrollment fees from this department.

3. Local associations desiring the service of the State Organizer or District Organizer shall pay the expenses of same.

4. A copy of the by-laws and constitution shall be put into the hands of each local association.

5. The P. T. A. having shown rapid progress already, shall continue to aid the K. N. E. A. in its work and become a strong factor in educational uplift, especially in rural communities.

MRS. J. ETTA TAYLOR, President.  
MRS. E. J. BLANTON, Secretary.

## RESOLUTIONS

Whereas the citizens of Louisville have extended such a hearty welcome to this great body of educators from all parts of our state and have provided so amply for their comforts and happiness,

Be it resolved, That the K. N. E. A. extend the citizens of this city a vote of thanks for their generous hospitality.

That we thank the press for the publicity of our work.

That we, especially, thank the pastor, officers and members of Quinn Chapel A. M. E. church for the use of their building in which to hold our meetings,

That we express our appreciation to the Department of Education of Kentucky and the K. E. A. for the splendid spirit of co-operation manifested by them in helping to make this meeting a success.

That we thank the Superintendent and Board of Education of the city of Louisville for their assistance in the use of Central High School building.

That we thank the local and visiting musical talent and supervisors of music for their contribution to our program this week.

That we express our appreciation and thanks to all of the organizations and individuals that have done anything anywhere in this state or out of it to make this meeting a success.

That we give publicity to all helpful papers that have been prepared and read before the various departments at this session.

That the organization of supervisors and principals which met at our state capital last December articulate with this K. N. E. A. through its department of principals and supervisors.

W. S. BLANTON, Chairman.

## SECRETARY'S REPORT

Respectfully submitted,

A. S. WILSON, Secretary, K. N. E. A.

## SPECIAL NOTES ON 1923 SESSION

1. The committee on Nominations reported on Saturday, April 21, 1923, the officers shown herein for this year. It was moved and seconded that the report be adopted. Prof. W. H. Humphrey was the chairman of this committee.

2. Prof. J. S. Hathaway conducted contests as mentioned in the general program. Miss Mary Buckner of Frankfort, Ky., was the winner of the prize in the spelling contest. Misses Viola Smith, Dora Marand, and Thelma Phillips were winners in the Declamatory Contest. Special prizes, authorized by the Board of Directors, were sent to prize winners after the close of the 1923 session. Prof. J. H. Lyons gave out words in the spelling contest.

3. The Legislative Committee made its report as shown herein, which was accepted, and the Secretary was authorized to mail a copy of this report to all the teachers, legislators, and leading citizens of Kentucky. (Note: The secretary had by December 15, 1923, mailed out 4,732 of these reports as suggested.)

4. Simmons University won the Handsome Trophy at the K. N. E. A. Track Meet. Five gold medals were also awarded to various Kentucky High School boys who won in various events.

5. The K. N. E. A. gave 115 prizes to various pupils for Literary and Industrial Exhibits at the 1923 session.

6. The Berea Students had quite a successful re-union under the direction of Dr. James Bond. A permanent organization was formed.

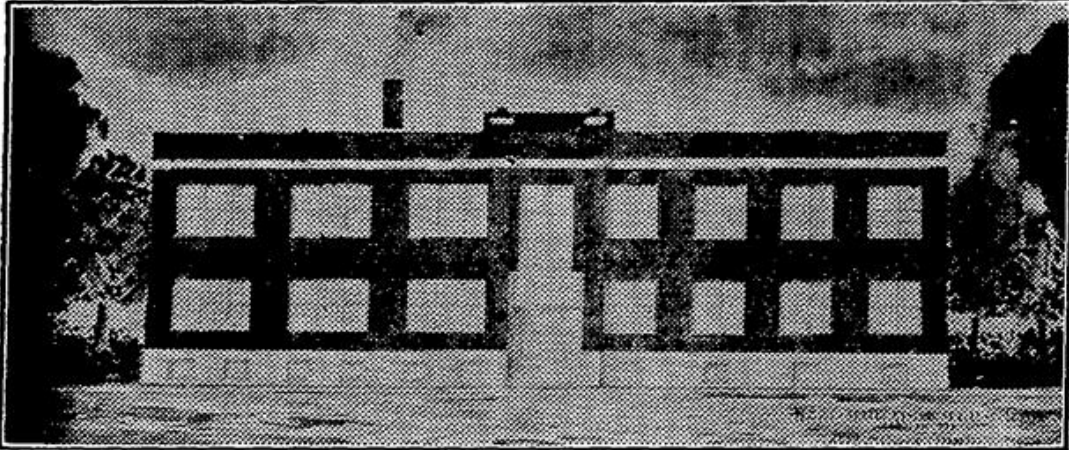

7. The Physical Exhibition which was held on the closing night of the K. N. E. A. was a huge success. The K. N. E. A. thanks all who helped make it possible.

8. Teachers at the 1923 session of the K. N. E. A. were highly pleased with the excellent address made by Prof. J. W. Bell.

# West Kentucky Industrial College

Paducah, Kentucky

**A State Normal for Efficient Teacher-Training and the Development of Colored Boys and Girls into the Highest Citizenship**

Winter Quarter begins.....December 3, 1923

Spring Quarter begins.....March 3, 1924

Summer Term begins.....June 9, 1924, and continues six weeks

Students may enter at the beginning of either Quarter.

During the last Quarter, a Teachers' Review is conducted by persons most familiar with preparing teachers for the examinations.

This institution issues four classes of certificates upon residential work done.

The institution has one of the strongest faculties that can be found.

# Simmons University

Founded 1879

LOUISVILLE, KENTUCKY

Rev. C. H. Parrish, F. R. G. S., President

---

---

## GENERAL INFORMATION

### LOCATION

Simmons University is located in Louisville, Ky., an important railroad center, and the gateway of the South and West. Its position secures to it the advantages common to a cosmopolitan city. The kindest relations exist between the races. The population is about 300,000, 50,000 being colored people.

### FOUNDATION AND AIMS

The institution was founded in 1879 by the General Assembly of Colored Baptists of Kentucky for the purpose of training and preparing young men and women for service, especially teachers, pastors and preachers.

In all the departments of the University the aim is to develop strong character and prepare the student for useful and wise service. There is no place here for the lazy and indifferent.

### TEACHING FORCE

The faculty is composed of professing Christian men and women. In point of ability it is not too much to say it is the equal of any faculty of like size.

School opens about September 20th, and closes about May 31st.

### SPECIAL OPPORTUNITIES

Classes in: Bible Study; Missionary Training; Public School Music; Teachers' Review Courses; Theology; Vocal Music; Shorthand; Typewriting; Violin. Evening Sessions.

Beginning on January 30, 1923, added facilities will be offered to teachers and ministers who wish to make improvements and catch the spirit of the age.

A Bible class, especially for ministers, will be started, and will have class periods on Wednesdays and Thursdays of each week. Instruction in the "English Interpretation of the Bible" will be given.

Special classes in Missionary Training, Theology and Music.

### CURRICULA AND DEGREES

There are 12 departments:

(1) The Grades; (2) Academy or High School; (3) Normal Department and University Extension; (4) Domestic Science Department; (5) Sewing and Dressmaking Department; (6) Millinery Department; (7) Music Department; (8) Commercial Department; (9) Collegiate Department; (10) Theological Department; (11) Nurse Training and Hospital Department; (12) Missionary Department.

Degrees in courses are offered. Diplomas and Certificates are given.

The Teachers' Review Course gives review in such subjects as the teacher would wish to review in preparation for examination.

Thorough training in Shorthand and Typewriting is offered in both day and night classes.

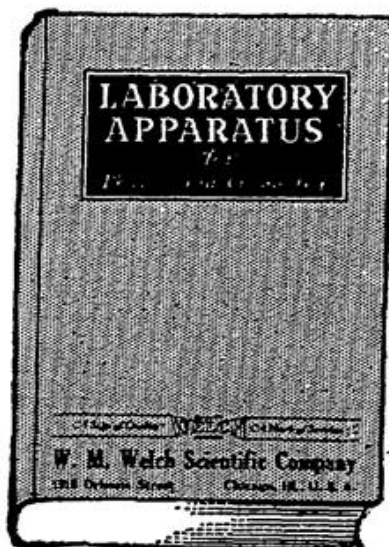

Correspondence courses in High School and College subjects are offered.

All work is thoroughly presented, and credit toward degrees is given for satisfactory work in all courses.

DR. C. H. PARRISH, President  
M. B. LANIER, Dea Theol. Dept.

D. L. LAWSON, Dean of Col. Dept.
