Gentlemen:-

Your favor of the 9th received and noted, and in reply will state that we regret that we have not been able to pass more business your way, but unfortunately we do not handle enough Blue Grass to buy some from every one in the territory, and there have been, at times, conditions governing offers from the Blue Grass territory, either in the fact that they were presented when we were in the market, or something else that turned the order away from you.

We assure you it would have given us pleasure had we been able to pass more orders your way.

Yours truly,

MLJ-D
