Dear Sir, Referring to our Phone conversation
today, we have several cars hemp cart
but no reports of any of them being received,
we are anxious to know how the Manufacturers
will be pleased the quality, the only ~~we~~
trouble we anticipate is the condition
of the cleaning = which has been very bad,
we find though now a wonderful improvement,
as the hump is sufficiently wetted to clean
nicely under the brakes, we have 2 or 3 cars
w/ hump to offer after awhile

Yrs Truly
