

Lowell, O. Jan. 15" 1906.

Mr. E.F. Spear & Son,

Paris, Ky.

Dear Sirs:- I have learned through my son, that you will soon have completed a new flouring mill and no doubt will be in need of one or more experienced men.

In this event I should like to correspond with you, with the view of securing a situation.

I have had a large experience in the management of a mill; any position that would not require me to be in the dust I would be pleased to consider; I would with pleasure answer any questions in regard to my ability also give satisfactory reference.

Yours truly,

*H. Wilking.*
