August, 1959

Number 3

Lexington, Kentucky
July 1, 1959

Dear Fellow Alumni and Friends of the University:

I wish to express my thanks for the splendid honor accorded me as your President. It is the nicest honor that I have received other than the privilege of having attended the University many years ago.

For the past several years, the Alumni Association has made tremendous strides in attempting to represent you both at the University and about the Commonwealth of Kentucky. However, the Alumni Association has finally "come of age" and is making a supreme effort this year to justify the time-honored title of Alumni by creating a capital gifts program through which every individual and alumnus may make a substantial contribution to the future of Alma Mater. It is our honest and sincere intention to work diligently, therefore, during the coming year to try to insure success of this tremendous program, both for you and for the University. I can not but re-emphasize what your support means to this program and to the future of your Alumni organization and to the University of Kentucky itself.

It is our honest and sincere intention to work diligently to assist those of you who do not get to Lexington often enough to enjoy the campus and the Alumni facilities.

Your Alumni Association is nothing without members and it is our hope that through your individual aid that you will help us increase the membership in our Alumni Association and to make possible the many worthwhile projects which we are attempting to fulfill.

It is incumbent upon us who hold a University degree or who have had the privilege of attending the University to participate in the planning for the University of Tomorrow. We can do this only by complete and dedicated support of the University program as reflected in the program of the Alumni Association.

May I remind you that the President and your Executive Committee are merely a representative group and that you have as great a voice in the Alumni affairs as we do. For that reason, we urge you to let us know your wishes, suggestions, and desires in order that we may serve you better.

Sincerely yours

Ralph J. Angelucci

TAPESTRY GIVEN UK

A 16th century tapestry valued at more than \$100,000 has been given to the University of Kentucky by Mrs. Pansy Grant, of Beaumont, Texas.

The art work is a Brussels renaissance tapestry woven about 1580.

The works depict Alexander the Great receiving homage from a vanquished foe to whom he generously restores his arms. It is considered the finest of its kind in existence and was purchased by Mrs. Grant at an original cost of \$100,000.

Executive Committee meets second Monday night of each month, September through May, 6:30 p.m., Carnahan House, unless otherwise specified.

CENTURY CLUB ORGANIZED BY ALUMNI TO MEET ACUTE NEEDS OF UNIVERSITY

Your Alumni Association on June 13 inaugurated "The Century Club." Goal of the club is to enroll 500 members who will give \$250,000 during the next five years by each pledging to give \$100 a year.

Why a Century Club you may ask. The reason is simple, the need acute . . . to carry out an important University program of development.

Your Alma Mater will celebrate her 100th anniversary in 1965 and it is the dedicated purpose of the Alumni Association to achieve the quarter-of-a-million goal by that time.

Our program consist of the following objectives:

1. Continuing FINANCIAL RECOGNITION TO FACULTY members who make outstanding research contributions.
2. ASSISTANCE TO STUDENT ORGANIZATIONS of distinction.
3. AID TO FACULTY members in underwriting trips to professional

meetings where research papers and addresses are to be presented.

4. Continuation of LOYALTY FUND SCHOLARSHIPS for outstanding students. A full \$2,800 4-year scholarship program is offered every fall.

5. PROVISION OF RESEARCH FACILITIES which are not easily obtainable through the usual sponsoring agencies.

6. Continuation of the annual ALUMNI SEMINAR.

7. CONSTRUCTION OF BUILDING to house alumni offices and activities with other uses related to University functions.

8. ABOVE ALL . . . TO HELP MAINTAIN THE UNIVERSITY'S EDUCATIONAL STANDARDS AMONG THE HIGHEST IN THE COUNTRY.

Not since 1924 when the Alumni Association spearheaded a drive for funds for the old Alumni Gym have

the alumni been asked to contribute to a capital gifts campaign for the University.

Dr. Herman Lee Donovan, UK president-emeritus, makes the first \$500 pledge for Century Club membership to Helen G. King, Alumni Director.

Goal of the Century Club is to enroll 500 members and raise \$250,000 for UK by 1965, the University's centennial. Expressing an opinion to the Leadership Conference group here is Herndon Evans, member of the alumni executive committee.

President Dickey addressed the alumni leaders who attended the Leadership Conference and gave a brief picture of the University today, its functions and needs for the future. With him here are (left) Dr. O. B. Murphy and B. A. Shively.

Those of you who become members of the Century Club will derive several benefits—most important of which is the tremendous satisfaction of knowing you are playing a leading role in the development of American education. Members also will have their names inscribed on a bronze plaque which will be displayed in the new Alumni Center. Men will receive a handsome lapel pin; women will receive a bracelet charm, both bearing the Century Club emblem of achievement. Members will have first choice of the new theatre-type stadium seats for all UK home football games and will receive a wallet card which entitles bearers to all club privileges.

If you have not already been contacted by a campaign chairman, you may send your application for membership directly to the Alumni Office on campus. Subscriptions for the Century Club will close on September 1. So act now!

Some 65 alumni leaders attended the meeting June 13 which kicked off the campaign. All will serve as campaign chairmen contacting alumni and friends of the University throughout Kentucky.

Mrs. Hampton C. Adams of Lexington is chairman of the Century Club. Other members of the club's central committee are: Dr. Ralph Angelucci, Robert Hillenmeyer, T. H. Hardwick, all of Lexington; Paul Blazer, Jr., Ashland; Berkley Davis and William Gant, Owensboro; R. R. Dawson, Bloomfield, and James H. Pence, Louisville.

Area chairmen are: Dick Cooper, Somerset; Cornell C. Clarke, Glasgow; LeRoy Hughes, Franklin; William McConnell, Hopkinsville; Herndon Evans, Guy A. Huguelet, J. Stephen Watkins, Dr. Angelucci and Hillenmeyer, Lexington; Beattie DeLong, Ft. Thomas; Blazer and Virgil Watson, Ashland; A. E. Walker, Mt. Sterling; Barckley Sturgill, Prestonsburg; William Sturgill, Hazard; William Black, Paducah; N. W. Neel, Henderson; Gant and Davis, Owensboro; Pence and Homer Barker, Louisville; O. L. McElroy, Eminence; Dawson, Bloomfield.

The club's advisory committee is composed of President Dickey, Dr. Frank Peterson and Dr. Leo Chamberlain, vice presidents, Dr. Merl Baker,

Alumni leaders from throughout the state met at Carnahan House on June 13 to kick-off the Alumni Association's Century Club drive. Addressing the group here is William Gant, past alumni president.

Pittsburgh Alumni Club Reorganized

Some 61 University of Kentucky alumni living in the Pittsburgh, Pa., area assembled for a dinner meeting on May 1 to form another UK Pittsburgh Club.

By a vote the group decided to reorganize the club, inactive since the beginning of World War II. Miss Helen King, Director of Alumni Affairs, addressed the group on their responsibilities to the University and their participation in the affairs of the Alumni Association.

Samuel L. Cassidy, who presided as temporary chairman of the dinner meeting, was elected president of the club. Other officers elected are: George T. Skinner, '33, vice president, and Mrs. Frank B. Nelson (Logan Van Meter) '35.

The sixty members present voted to hold annual meetings on the last Friday of April of each year and special meetings at special times as will be

director of the Kentucky Research Foundation; and Miss Helen King, Director of Alumni Affairs.

designated by the Board of Directors. They also voted that the organization should be governed by a Board of Directors consisting of ten members, three of whom would be the officers of the association. The seven directors chosen were: Dana Taylor, Alex Montgomery, H. Lee Moore, Paris Mahan, Jr., John O'Nan, Forrest Weatherholt, and Robert Wallace.

* * *

Dr. Blaine F. Parker, associate professor of agricultural engineering and acting head of the department, was recently named departmental head, replacing Dr. Drayton T. Kinard who resigned.

* * *

Three buildings owned by R. J. Reynolds Tobacco Co. were recently purchased by the University of Kentucky. The buildings front 250 feet on South Broadway and extend back about 430 feet to University School. They will be used for storage.

DICKEY AND DAVENPORT ARE GIVEN TOP ALUMNI AWARDS ON REUNION DAY

University of Kentucky President Frank G. Dickey was honored as most outstanding alumnus of 1959 at the annual Alumni Association Reunion Banquet on May 23. Miss Sue Davenport of Lexington was named outstanding senior by Alma Magna Mater. As president of the class of 1909, George F. Browning (right) of Bridgeport, Ala., led his classmates in celebrating their 50th reunion.

Named Alumnus of the Year at the UK Alumni Association reunion banquet was University President Frank Graves Dickey. President Dickey received his masters degree from UK in 1942 and doctorate in 1947. Miss Sue Davenport of Lexington was named Outstanding Senior. Presentation of their awards highlighted the annual University of Kentucky Alumni Association Reunion Banquet held in the Student Union ballroom on May 23.

The awards have been given annually since 1949 by Alma Magna Mater, a group of students whose parents attended UK.

Presiding at the banquet was William M. Gant, '47, UK law graduate and outgoing president of the Alumni Association. Gant received recognition by President Dickey on behalf of the Alumni Association with the presentation of a testimonial certificate given "for his faithful service" to the Association and University.

Dr. Dickey and Dr. Ralph Angelucci, '34, new Alumni Association president, presented Golden Jubilee Certificates to the members of the class of 1909. Twenty-two of the thirty living members of that class returned to the campus for their golden reunion.

A. M. Kirby, class of 1909, was presented a gift by the Alumni Association as the alumnus who had traveled the farthest for the banquet. Kirby had come from his home in Palo Alto, Calif., to Lexington. Miss Marguerite McLaughlin received a gift as alumnus representing the oldest class present. Miss McLaughlin, a 1903 graduate and former UK journalism teacher, has missed only one reunion in 56 years.

Among the 350 celebrants at the Alumni Reunion banquet were: Mrs. Edith Isaacs Weil, '09, Lexington; Mrs. Ivy Troll McBride, '09, Shepherdsville, Ky.; and (right) Judge George Thomas Scott, '09, Santa Margarita, Calif.

**SNAPPED AT THE REUNION
BANQUET:**

Top left: Sisters Susan Grey Akers and Mary Elizabeth Akers of Chapel Hill, N. C., were presented Golden Jubilee Certificates along with other members of the 1909 class at the banquet program. The certificates were presented by President Dickey and Dr. Angelucci.

Center left: Herndon J. Evans, '21, and Mrs. Evans (Mary Elizabeth Downing) greet Smith D. Broadbent, Jr. (right) of Cadiz, Ky. Broadbent was president of the 1934 class which celebrated its 25th reunion.

Bottom left: Mrs. Lysle Croft (Daisy Taylor), '25, (center) appears in serious mood in conversation with other banquet guests.

Top right: Miss Susan Gray Akers of Chapel Hill, N. C., and Dr. Phillip Blumenthal and his son of Indianapolis, Ind., were seated at the 1909 class table and looked pleased with what they saw and heard.

Center right: Happy school-day memories could be the conversation topic for (left to right) Louise Wallace, '33, Lexington; Francis Le Baron, '34, Endicott, N. Y.; Joe Reister, '34, and Mrs. Reister (Alice Dougherty), '36, of Lexington.

Richard Rushing Is Appointed UK Alumni Field Secretary

Richard Alan Rushing, Lexington, is the new field secretary for the University of Kentucky Alumni Association. Miss Helen G. King, director of alumni affairs announced his appointment as of July 1.

A native of Camden, Ark., Rushing was graduated from the University in 1955 with a B.S. degree in Commerce. He holds three letters in UK varsity football and was a member of the Varsity Lettermen's Club and of Kappa Sigma social fraternity. He served on the board of the Student Government Association during his sophomore year and was a squadron commander in advanced ROTC.

Upon graduation he was commissioned a second lieutenant in the U.S. Air Force and served three years on active duty. He returned to Lexington in January and has been district manager of an insurance company.

Rushing will coordinate the activities of the more than 90 organized UK alumni clubs throughout the state and nation and will assist in the organization of additional clubs. He also will serve as liaison man between the University and Kentucky high schools.

He will help in organizing a speakers bureau of campus representatives who will be available for engagements at high schools, civic club meetings and other gatherings, and generally serve as contact man between the Alumni Association, the University and the people of Kentucky.

The son of Mr. and Mrs. W. R. Rushing of Memphis, Tenn., Rushing is married to the former Margaret Ford, a former UK student from Lexington. They are the parents of two boys, Richard Alan Jr., 2, and William Robert, 4 months.

Richard A. Rushing, '55

Dr. Ralph Angelucci (seated left), Lexington, is the new president of the University of Kentucky Alumni Association, and L. Berkley Davis (seated right), Owensboro, is the new vice president. Members of the executive committee are (standing from left) Smith D. Broadbent Jr., Cadiz; Mrs. Hampton C. Adams, Lexington, renamed to the committee; and Richard E. Cooper, Somerset. Committee members absent when the photo was taken are William R. Black, Paducah, and Guy A. Huguélet Jr., Lexington, who was also renamed to the committee.

To the friends of the late Dr. Charles Barkenbus:

You have probably rightly concluded—that the notice of the *Alumnus* in regard to a gift for Dr. Barkenbus was already in print at the time of his sudden death. I will always remain deeply grateful for this wonderful teacher. A few have sent in contributions for the intended purpose. I am holding these to await your pleasure as to further plans. It seems to me, that a Barkenbus Chemistry Scholarship in the sum of three to five hundred dollars, to be awarded annually to the outstanding high school graduate on the basis of character, ability in chemistry, and financial need, would be a fitting memorial. Please let me hear from you as soon as possible in this regard.

Gratefully yours,
A. J. Whitehouse, M.D.

Make checks payable to The Barkenbus fund.

A get-together between sessions of the Alumni Seminar, sponsored by the UK Alumni Association, included (left to right) Attorney Paul Porter, '29, and Mrs. Porter, author Kathleen Windsor, of Washington, D. C., Anthony Lewis, New York Times reporter, and Judge John Brown, Houston, Texas.

Participants in the second annual Alumni Seminar on the University campus June 24 to 27 included (left to right) Ernest L. Becker and Miss Essie Arey, both of Cincinnati, and Dr. Hambleton Tapp, director of the University Museum on Kentucky Life.

Alumni Seminar Offers Stimulating Program

"An activity truly indicative of the basic purposes for which the University of Kentucky was founded" were words used by UK President Frank Dickey to describe the second annual Alumni Seminar on campus June 24 to 27. Among the values of the seminar, he said, is "the opportunity to rediscover how eminent our alumni are in their respective fields."

A good attendance at all of the interesting and stimulating sessions of the seminar was ample proof of the outstanding program of speakers featured and the desire of alumni for continuing study.

The general topic of the seminar "The American Constitution In A Changing Society" was thoroughly discussed in lectures and panel discussions on ideas that made the Constitution, and the roles of the President, Supreme Court and Congress.

Off-campus speakers who appeared on the seminar program included Judge John R. Brown, U.S. Court of Appeals; John P. Frank, Phoenix attorney and former Yale law professor; Emery L. Frazier, '18, Senate Reading Clerk; Anthony Lewis, N.Y. Times reporter; Malcolm Moos, John Hopkins University professor and administrative assistant to President Eisenhower; and Paul A. Porter, '29, Washington attorney and former chairman of the Federal Communications Commission.

This was the second year for the alumni seminar, a program initiated by your Alumni Association to provide an experience in continuing education for interested alumni, to bring alumni in closer touch with the academic areas of the University and to facilitate communication between alumni and faculty.

Law Professor Jesse Dukeminier was program coordinator. Members of the UK faculty on the program were Carl Cone and Clement Eaton, professors of history, Amry Vandenbosh, Diplomacy School Director, Warren Haynes, professor of economics and law professors William Mathews and Paul Oberst.

ABOUT THE ALUMNI

Scholarship Named For Anna Mitchell

Recently established by the Pioneer Business and Professional Women's Club of Lexington, a scholarship for a high school senior girl has been named for the late Anna P. Mitchell, her brother and his wife.

Miss Mitchell was a member of the Pioneer B&PW. She taught school in West Liberty, Carlisle, Morehead and Sayre College, Lexington. She was graduated from UK in 1928.

WINE TAKES TOP POST IN NATIONAL COUNCIL

The National Council of Churches recently established a new top post, associate general secretary for interpretation, and named to it former lawyer and judge, James W. Wine, class of 1940.

Wine is heading a staff team which, under the guidance of the Council's General Board, is developing a comprehensive strategy for public interpretation of the ecumenical movement and the National Council of Churches. Wine also is giving administrative guidance to operations in this field.

Wine received a law degree at UK and was admitted to the bar two years later. He was subsequently admitted to practice in the Supreme Court of the United States.

He spent four years in military service and in 1949 became county judge pro tem, for Pike County, Ky. In 1951 he was named by the Chief Justice of the Kentucky Court of Appeals as Special Circuit Judge and was United States Commissioner for the Eastern District of Kentucky. For two years he was vice president of Park College, Parkville, Mo.

He is a member of leadership, legal, and Sigma Chi social fraternities; Rotary Club, Kentucky and American Bar associations; and historical societies. He speaks French, has authored a manual for jurors, and has traveled widely.

Mr. and Mrs. Wine have four children. Mrs. Wine is the daughter of Dr. Charles Turcer, former president of Centre and Macalester colleges.

James W. Wine, '40

W. R. GARY RETIRES

After 34 years as principal of the Fallston, North Carolina, high school, Weller R. Gary retired in May. A special banquet in June sponsored by the high school alumni honored Gary.

Gary received the bachelor's degree from UK in 1925 and a master's degree in 1950. He has taught also at Mackville, LaGrange, and Willisburg, Ky. He was first president of the Lions Club in Fallston and since 1954 has edited the club bulletin. He has been elected president of the Cleveland County Education Association twice and is listed in "Who's Who In American Education."

He and Mrs. Gary have a son, Kays Gary, a columnist for the Charlotte Observer.

George L. Carr, '40, was recently promoted by the Cincinnati Enquirer from city editor to assistant editor of the editorial page. Carr joined the Enquirer in 1942 as a reporter.

Lieutenant Merrell E. Dean, '58, received his USAF silver navigator wings recently. He has been assigned to Barksdale AFB, La.

ORRELL IS PROMOTED

J. L. Orrell has been named Supervisor of the blanket fuel element cladding and assembly development in the Nuclear Core department at the Westinghouse Bettis Atomic Power Division in Pittsburgh. He joined Bettis in 1955 and is working on the development of cladding components, surface preparations and assembly processes for the fuel elements intended for the second core of fuel charge of the Shippingport Atomic Power Station. The United States' first full-scale central station atomic power plant for civilian use, Shippingport is on the Ohio River near Pittsburgh.

Orrell was awarded his M.S. degree from UK in 1947. He, his wife and their two children live at 336 Saratoga Drive, Pittsburgh, Pa.

Dr. John B. Brown, '48, assistant professor of chemistry at Denison University, will conduct a full-time study in surface chemistry at Battelle Memorial Institute, Columbus, Ohio, during his sabbatical from the University.

Tilman L. Juett, '49, was recently named superintendent of the Mississinawa Valley Schools in Drake county, Ohio. He is a former assistant professor of education at Nebraska State Teachers College. Mrs. Juett is the former Lucille Davis, '50.

WILLIAM BUTLER PROMOTED

William E. Butler, '36, has been named manager of the Cincinnati, Ohio, district sales office of the Babcock & Wilcox Co. Boiler Division. Butler formerly had been sales engineer in the Syracuse office of the New York sales district.

Born in Russell, Ky., Butler began with Babcock & Wilcox in 1936 as a student engineer in Barberrton. He worked in the erection and service departments of the Chicago district office before moving to the New York office as a sales assistant in 1942. Two years later, he was made a sales engineer, and in 1956 was transferred to the Syracuse office.

He is a member of the American Society of Mechanical Engineers, the Rotary Club of Syracuse and the Rochester Club.

GILLILAND IS ELECTED TO INSURANCE COMPANY OFFICE

John B. Gilliland, native and former resident of Stanford, Ky., was recently elected assistant vice president of Life Insurance Company of Georgia, one of the largest life insurance companies in the South, with headquarters in Atlanta.

He will continue in addition to his new duties to serve the company as associate general counsel, handling certain legal phases of the company's investments, real estate title work on company properties, and other Life of Georgia legal affairs.

Gilliland became associated with Life of Georgia in 1949 as assistant general attorney. In this capacity he handled a large portion of the company's workman's compensation and property title legal work. He was named associate general counsel in 1955.

Prior to his association with the company, Gilliland was legal assistant to Associate Justice T. S. Chandler of the Georgia Supreme Court. He held this position after he left the U.S. Army as a captain in 1946, following four years infantry service.

Gilliland attended grammar and high school in Stanford. He attended Centre College and Pikeville College. After receiving his LL.B. from the University of Kentucky in 1940, he practiced law in Stanford. Prior to his Army service he was in the legal department of the Tennessee Valley Authority.

He is married to the former Sarah Candler of Blairsville, Ga., and they have an 11-year-old son, Thomas.

* * *

Thus far into 1959 two UK alumnae have appeared on the "Person to Person" television show. They are Miss Chloe Gifford, '23, president of the International Federation of Women's Clubs, and Miss Sarah Gibson Blanding, '23, president of Vassar College.

CORN WRITES BOOK

James F. Corn, '16, mayor of Cleveland, Tenn., is author of a book reciting the colorful past of Bradley County, Tenn. Titled "Red Clay and Rattlesnake Springs," the book relates the early history of the Cherokee Indians in the Bradley county area.

John Strachan, '53

STRACHAN WILL PILOT PLANES FOR SAC

Second Lieutenant John Strachan recently received the silver wings of an Air Force pilot during ceremonies at Reese Air Force Base, Texas.

Lieutenant Strachan was graduated from UK in 1953 with a degree in journalism. He was active in school affairs, being assistant editor of the yearbook, a secretary of Sigma Nu fraternity, was a columnist on the school newspaper, was a member of Sigma Delta Chi, and was a member of the men's journalism fraternity.

He received his commission through the University's AFROTC program and after a period of employment with Boeing Aircraft, Seattle, entered the Air Force in September 1957. He has been assigned to pilot KC-135 aerial tankers for the Strategic Air Command at Clinton Sherman AFB, Okla.

The son of Mr. and Mrs. John E. Strachan, Jr., Norwood, Ohio, Strachan is married to the former Margaret J. Pittman, Charleston, W. Va., and the couple have one child, Shelley Gates.

* * *

Charles Eugene Summers, '55, received the Doctor of Philosophy degree in animal nutrition from Iowa State College in May.

Students And Alumnus Honored By Ag Society

Three students and Everett P. Hilton, a 1929 alumnus of the UK College of Agriculture, received special recognition in May at the annual initiation banquet of the UK chapter of Gamma Sigma Delta, agriculture honor society.

The special awards went to an outstanding sophomore, junior and senior in the college and to the alumnus who "has rendered outstanding service to the agriculture industry." Bruce Kaplan, a sophomore from Louisville, Jefferson Brother Jr., a junior from Mt. Sterling, and Walter L. Porter, a senior from Fern Creek, were the three undergraduates to be recognized.

The alumnus award went to Hilton who is director of agriculture education in the Kentucky Department of Education. He received the Bachelor of Sciences degree from UK in 1929 and the Master of Science degree in 1938.

Dr. W. D. Valleau, UK distinguished professor of plant pathology, was nominated for the national service award. He will be considered along with nominees from the other states for the honor.

* * *

Ronald Edward Phillips, '54, received the Doctor of Philosophy degree in the field of soil physics from Iowa State College in May.

* * *

Carl Eugene Walker who received an M.A. from UK in 1945 was recently graduated from the University of Denver with a doctorate in education.

GRAVES HEADS NEW COMPANY

Austin T. Graves, '29, president of Products of Asia, Inc., recently announced the organization of a new company called Products of India.

Started in 1955 with offices at 452 Fifth Avenue, New York City, the Products of Asia company is importer of a full fashioned sweater line from Japan, silk garments for men and women and carpets made by Chinese craftsmen. Chairman of both companies is John D. Rockefeller III.

Graves is married and has two children, a son in prep school and a married daughter.

Dr. Clark Retires From NYU Faculty

Dr. C. C. Clark, the first professor to teach on television in the United States, retired in June from the faculty of New York University's School of Commerce, Accounts, and Finance.

A native of Owensboro, Kentucky, Professor Clark was professor of general science and chairman of the School of Commerce's General Course Group.

It was back on May 19, 1938, that Dr. Clark, then an associate professor of science at NYU, made educational history by teaching a college class over the television facilities of the National Broadcasting Company. In a demonstration of the possible future uses of television in education, he went before the cameras on the third floor of the RCA Building in New York City's Radio City as some 200 students from NYU's School of Commerce watched and listened to 15 sets installed on the 62nd floor of the building. The 45-minute demonstration was transmitted by cable to the top of the Empire State Building and broadcast by an NBC transmitter to the relatively few television sets in the New York metropolitan area.

In 1938 and 1939 Professor Clark served as television consultant to the National Broadcasting Company. In 1946 and 1947 he served in a similar capacity for the Dumont Television Network. During the past academic year he has been executive secretary of NYU's Committee on Television Instruction.

Professor Clark received a bachelor of science degree in physics in 1917 from the University of Kentucky, a master of science from the University of Chicago in 1924, and a doctor of philosophy from NYU in 1932. From 1922 to 1926 he was principal of the Hopkinsville, Kentucky, High School. He also has taught at the University of Kentucky.

In 1926 Professor Clark joined the NYU faculty as an instructor in physics at the Washington Square College of Arts and Science. He was promoted to assistant professor in 1932, associate professor in 1937, and professor in 1941. He has been chairman of the General Course Group at the School of Commerce since 1951.

Dr. C. C. Clark, '17

UK RESEARCH ASSISTANT TAKES SALES POSITION

William R. Dunham is new sales representative for the California Spray-Chemical Corporation. He will work out of the Calspray office in Roanoke, covering the central and Piedmont areas of Virginia. California Spray-Chemical Corporation is the manufacturer of the Ortho line of insecticides, fungicides and weed killers.

Prior to joining Calspray, Dunham was a research assistant at the University of Kentucky. He received his B.Sc. degree in Agriculture Economics from UK in 1957. A native of Jeffersontown, Kentucky, he recently moved to Staunton, Virginia.

* * *

George N. Reynolds, 1950 UK journalism graduate, has joined the staff of Monsanto Magazine as associate editor. The magazine is published by Monsanto Chemical Company, St. Louis, Mo. He was a member of the advertising department of E. I. du Pont de Nemours & Company, Inc.

* * *

Lewis F. Colbert, 1907 student, a resident of St. Petersburg, Fla., was presented the "outstanding layman" awarded by the St. Petersburg YMCA in ceremonies last spring.

Gen. DeCoursey Named Foundation Director

Maj. General Elbert DeCoursey, MC, USA has been named director of Southwest Foundation for Research and Education (SFRE) San Antonio, Texas. DeCoursey's appointment will begin with his separation from the Army. It is expected that he will assume active duty as director in the very near future.

General DeCoursey will also be appointed as a full professor at Trinity University with the title of Director of Scientific Research.

General DeCoursey is commandant of the Army Medical Service School and Clinical Professor of Pathology at Baylor College of Medicine. He received his A.B. from the University of Kentucky in 1924. He interned at Brooke General Hospital after receiving his M.D. from Johns Hopkins Medical School. Prior to his present post, he directed the work of the Armed Forces Institute of Pathology in Washington.

* * *

O. C. Halyard, '48, recently sold his interest in radio station WEKY in Richmond, Ky.

DR. GRIFFITH RECEIVES MONSANTO RESEARCH AWARD

Dr. E. J. Griffith was among the eleven Monsanto Chemical Company research personnel who received the Inorganic Chemicals Division Gaston DuBois Award for research accomplishment during 1958.

Four of the awards went to individuals; a fifth was presented to a group of which Dr. Griffith was a member. The group received its award for its contributions in the development of Monsanto's process for the manufacture of non-caking, hard prill ammonium nitrate fertilizer.

A native of Georgia, Griffith received a BS degree in chemistry from Howard College in 1947 and MS and PhD degrees, also in chemistry, from the University of Kentucky in 1948 and 1951. He has been with the phosphate section of inorganic research of Monsanto, St. Louis, Mo. since 1951 and has published several scientific articles in the field of phosphorus chemistry.

Dr. Page Promoted At Western State

Dr. Tate C. Page, '41, member of the education department, is the new head of the education department and director of the Division of Teacher Training at Western Kentucky State College, Bowling Green, Kentucky.

A native of Muskogee, Oklahoma, Dr. Page was a student at Arkansas Polytechnic Institute from 1927-1930. He was awarded his B.A. degree by Tulane University in 1934. He did graduate work at the University of Texas during the summers of 1935 and 1936 and received his M.A. degree from the University of Kentucky in 1941 and his Ed.D degree from the University of Kansas in 1955.

Dr. Page came to Western as a member of the education faculty in 1956 from the College of the Ozarks, Clarksville, Arkansas, where he had served as Director of Personnel and Admissions and head of the department of education and psychology. Prior to this time he had held positions as a superintendent, coach, and physical education instructor in Arkansas, Alabama, and Kentucky.

Dr. Page is married and he and his wife have two children.

PAUL TRIPLETT IS PROMOTED TO MANAGER BY ARMSTRONG

Paul W. Triplett, who was graduated from the University of Kentucky in 1946 with a bachelor's degree in education, has been promoted to manager of the Chicago District Office of the Armstrong Cork Company's Glass and Closure Division.

Triplett joined Armstrong in 1947 and served as a salesman in the Detroit and Atlanta Offices before being appointed District Manager of the Detroit Office in 1955.

While at Kentucky, Triplett played three years of varsity football and was a member of Sigma Alpha Epsilon fraternity and Scabbard and Blade Honorary fraternity. His college career was interrupted by the war and he enlisted in the Army in 1942. In September, 1946, he was released from active duty as a 2nd Lieutenant and reentered Kentucky to complete his course.

Jack R. Wilkinson, Jr., '48

Jack Wilkinson Named U.S. Marshal's Deputy

Jack R. Wilkinson, Jr., '48, of Lexington, in May was appointed chief deputy U.S. marshal for the Eastern District of Kentucky.

Wilkinson is a native of Chattanooga, Tenn. He attended the University of North Carolina before the war, and enlisted in the Navy in 1942.

He served in the Pacific during the war, and was discharged as a lieutenant junior grade, in 1946. He received his B.S. degree in agriculture from UK in 1948.

He has been active in farming since that time, and has served as manager of the Livestock Health & Supply Co. in Lexington.

The current appointment will be effective for a period of a year. In his new post, Wilkinson will supervise a staff of U.S. deputy marshals in counties covering the eastern half of Kentucky.

Married to the former Martha Davis of Lexington, he has three sons, Bruce, Jack and Harve.

* * *

Edwards Templin, promotion manager of the Lexington Herald-Leader, was honored by receiving one of the six distinguished service awards made annually to U. S. newspapermen by the Bureau of Advertising, American Newspaper Publishers Assn. Templin last attended UK in 1930.

Curtis Phipps Is New Georgetown Dean

Dr. Curtis Phipps on July 15 became dean of students and head of the education department at Georgetown College, Georgetown, Ky.

Dr. Phipps is directing the student service programs of the college and co-ordinating student guidance and counseling as well as student activities in non-academic areas.

As head of the education department, Dr. Phipps is supervising the teacher training program of the college. He served as co-ordinator of teacher training at Georgetown in 1955-56.

He has had several years experience in guidance work. He was a training counselor in the office of student personnel at the University of Kentucky for four years. When he left in 1955, he was the assistant director of the program.

From 1946-51, Dr. Phipps was a guidance counselor with the Veterans Administration. He assisted in the postwar veteran's rehabilitation program.

He is a native of Salyersville where he received his public school education. He attended Campbellsville College for two years and is a graduate of the University of Kentucky, '38. He holds master's and doctor's degrees from UK, received in 1952 and 1955.

Book By Fitzpatrick Is Published

"Casey's Redemption", a baseball story and sequel to the poem "Casey at the Bat", is the title of a new book by Burgess W. Fitzpatrick. It is his first book although he has written scripts, scenarios and magazine articles.

Fitzpatrick is a public school teacher and principal in West Virginia. He received the master's degree from UK in 1953.

"Casey's Redemption" is the story of a descendant of the original Casey who finds himself in a similar situation. It is a story of youth and America's great summer past-time.

The book was published by Greenwich Book Publishers, 489 Fifth Ave., N. Y. C.

Neumann Named Dean

Dr. Alfred R. Neumann, who received the master's degree from UK in 1941, has been named dean of the College of Arts and Sciences at the University of Houston, Texas. He also is an associate professor of German and assistant to the president.

A native of Germany, he joined the Houston faculty in 1953 after teaching at Tulane University, Harvard and the University of Michigan.

Chambers Is Promoted By Western Life

Elwood N. (Woody) Chambers has been named superintendent of agencies for Western Life Insurance Company in Florida.

Chambers is a former manager with American-General Life Insurance Co., Houston, Texas. He is a 1940 graduate of the University of Kentucky, earning his degree in commerce and business administration. During World War II he served as a lieutenant colonel in army aircraft and spent three and a half years in Africa and Europe.

Chambers is married and has two sons and two daughters. The family will make its home at Fort Lauderdale.

* * *

Ellis E. Easterly, '56, who has been stationed at Fort Hamilton in New York City, will soon be discharged from the Army. He expects to return to Kentucky and continue newspaper work.

* * *

Ruby J. Elliott, '55, in June received a master's degree from Rutgers University.

JOHN DANFORTH IS GRADUATED FROM MEDICAL SCHOOL

Dr. John T. Danforth, the son of Mr. and Mrs. John T. Danforth of 58 Verplanck Avenue, Beacon, N. Y., was graduated from the Georgetown University School of Medicine on June 8.

He is a 1955 graduate of the University of Kentucky. He will intern at St. Vincent's Hospital, Worcester, Mass.

Lloyd R. Roberts, '57

LLOYD ROBERTS GRADUATES

Lloyd R. Roberts, '57, was among the 97 young Bell Telephone Laboratories engineers who recently received master of electrical engineering degrees from New York University after completing a two-year program of advanced study at the University's graduate center at Bell Laboratories in Murray Hill, New Jersey.

The NYU-Bell Laboratories graduate center was opened in the fall of 1957. This year's class is the first to receive degrees under the cooperative program.

The center is staffed by faculty members of the NYU College of Engineering and is financed entirely by Bell Laboratories. Participants in the program receive full salary from the Laboratories while studying and working part-time in the company's technical departments.

* * *

Asa Barnes, Jr., '55, was graduated in June from Yale University School of Medicine. He will intern at Western Reserve's University Hospital in Cleveland. At Yale Barnes was president of the Medical School Student Council and elected permanent secretary of his class. He and his wife have one year-old son, Seth Bowen Barnes.

Mrs. Dickey Honored Upon Retirement

Arlington School in Lexington entertained with a reception May 18 in honor of Mrs. Katherine Bridges Dickey, who retired after teaching at the school for 30 years. Mrs. Dickey is the mother of UK President Frank Graves Dickey.

She was born at Peaks Mill in Franklin County but moved when a child to Owensboro, where she received her early education.

On moving with her parents to Georgetown, she attended Georgetown College (preparatory) and was graduated from Hamilton Junior College, Lexington.

After teaching public school music for three years she married Joseph Stone Dickey Jr. Her married years were spent in Oklahoma and Texas. On the death of her husband she brought her two children, Frank and Josephine, to Lexington. She entered Transylvania College and graduated cum laude. In 1929 Mrs. Dickey accepted a position in the Lexington public school system. She has taught 30 years at Arlington, with the exception of one summer teaching at Midway Junior College and one summer teaching in the extension department of Morehead College.

Mrs. Dickey received the M.A. degree from the University of Kentucky in 1939. She has served as vice president and president of Lexington-Fayette County Classroom Teachers Association. From this organization she was chosen delegate to the National Education Association three times. She was also president of the Lexington Teachers Club, representing that organization as delegate to the Kentucky Education Association.

Mrs. Dickey is a member of Delta Psi Omega and Kappa Delta Pi, both honorary organizations.

* * *

Fowler, Rouse, Measle and Bell is the name of a law partnership recently formed in Lexington. Members of the firm are Dan E. Fowler, '32, Thomas P. Bell, '48, Walter C. Cox Jr., '48, Thomas A. Collins, '50, Darrell B. Hancock, '49, Arthur B. Rouse, Jr., '41, and Robert H. Measle. Of counsel, James R. Richardson, '34.

Harold Rose Is Elected Esso Vice President

The election of Harold J. Rose as a vice president was announced in June by Esso Export Corporation, international marketing affiliate of Standard Oil Company (New Jersey).

Rose will also serve as general manager of a new chemicals department being formed by Esso Export to assist Jersey Standard's overseas affiliates which market chemicals. He was formerly assistant general manager of the chemical products department of Esso Standard Oil Company as well as a vice president of Enjay Company, Inc.

After receiving a master's degree in organic chemistry from the University of Kentucky in 1940, Rose served on the faculty for two years. In 1942, he joined Esso Standard as a research chemist at the Baton Rouge, Louisiana, refinery where he subsequently served as a section head in charge of petrochemicals research. In 1954, he transferred to Esso Research and Engineering Company where he became coordinator of petrochemicals research before returning to Esso Standard in 1957. He was elected a vice president of Enjay Company, Inc., in 1958.

A native of Burgin, Kentucky, Mr. Rose now makes his home at 687 Dorian Road, Westfield, New Jersey.

Hays Is Inaugurated Sue Bennett President

Earl F. Hays, who received the M.S. from UK in 1952, was inaugurated president of Sue Bennett College, London, Ky., last May 11.

The institution's sixth president, Hays received the appointment last September after serving three years as dean. He received his bachelor's degree from Berea College and spent five years at Betsy Layne high school in Floyd county.

President Hays is married and has two sons.

Robert M. Heath, '16, retired June 1 as Franklin County agent after serving 34 years in the Extension Service. Heath was honored at a recent reception and given a number of gifts by his friends.

Harold J. Rose, '40

* * *

Dr. Jerry B. Kelley who received a D. Ed. from UK in 1953 has been promoted to the rank of full professor at Louisiana State University. Kelley was on the UK faculty in 1945-46 and 1951-52.

* * *

J. Franklin Baugh, Jr., '49, and his wife, the former Jean Amis, '49, are missionaries and were recently appointed by the Southern Baptist Foreign Mission Board to East Pakistan.

John Howe Named To Head Law School

John E. Howe, a 1951 graduate of the University of Kentucky College of Law, has been appointed dean of the Washburn University School of Law in Topeka, Kansas.

Howe has been professor of law and assistant dean of the St. Louis University Law School since 1955. Before going there he was an assistant professor of law at Creighton University in Nebraska and was a visiting professor at the UK law school in the summer of 1951.

The new dean received his bachelor's degree from Western Kentucky State College and also holds a Master of Law degree from the University of Michigan.

Joe Lehman Goes To Cairo University

Joe Lehman, director of public relations at Transylvania College, left Lexington in July to spend two years in Cairo, Egypt.

Lehman joined Dr. Raymond F. McLain, former Transylvania president, at American University in Cairo. McLain is currently president of the university.

He will return to Transylvania in the fall of 1961.

Lehman will develop news stories and feature articles on the university for American newspapers. He will be advisor to the student newspaper and be responsible for all printed material sent out by the school.

Lehman will also teach courses in journalism, a field becoming more popular in the Middle East.

Lehman is a native of Elkhart and graduated from Transylvania with majors in music, English and psychology. He earned his M.A. in music education at the University of Kentucky in 1944 and directed high school bands in Louisville and Lexington. He later became a reporter for The Lexington Herald.

Lehman returned to Transylvania in 1944 to begin a public relations program.

Active in Lexington's cultural life, Lehman was a member of the board of directors of the Youth Music Society of Central Kentucky, sponsor of the Central Kentucky Youth Orchestra.

Lehman helped form and became the first president of the Lexington Symphony Society. He has been secretary and treasurer of the Civic Music Committee of the Lexington Chamber of Commerce and was a member of the public relations advisory committee to the Community Chest.

Mrs. Lehman is the former Katherine G. Campbell, '40.

* * *

Dr. Jesse J. Coop, who last attended UK in 1930, is a physicist in the Anti-Submarine Warfare Laboratory of the Naval Air Development Center at Johnsville, Pa. Dr. Coop is spearheading a research and development program in oceanographic survey techniques.

Ernest Steele Named Insurance Company Head

The Board of Directors of Appalachian National Life Insurance Company, which was recently founded in Knoxville, Tenn., in May named Ernest C. Steele, of Nashville, as the company's first President. He was also selected to join the Board of Directors.

Steele, a veteran life insurance executive, recently resigned as Executive Vice President of the American Investment Life Insurance Companies to accept this new position. He is presently also a Director of American Investors Corporation, American Investment Life Insurance Company, both of Nashville, American Investment Life Insurance Company of South Carolina, Columbia, South Carolina, and American Investment Life Insurance Company of Maryland, Baltimore, Maryland. Prior to joining American Investment Life in Nashville, Steele was Vice President and Actuary of Guaranty Savings Life Insurance Company of Montgomery, Alabama.

Steele, who holds a Masters degree in mathematics, received in 1948, from the University of Kentucky where he also taught the subject, entered the life insurance business in the actuarial field originally and served with the Peninsular Life Insurance Company, Jacksonville, Florida; the Pioneer Life and Casualty Insurance Company, Gadsden, Alabama; the Occidental Life Insurance Company, Raleigh, North Carolina, before joining Guaranty Savings Life.

Steele is a native of Corbin, Kentucky, where he attended grade and high school. He is married to the former Cora Jones of Williamsburg, Kentucky, and they have two boys, Jerry, 13, and David, 5.

He is a member of the Southeastern Actuaries Club, a Deacon in the Baptist Church, and a member of the Nashville Lions Club, Nashville City Club and the Richland Country Club in Nashville.

Andrew G. Yankey, 1909, and his wife of Fresno, Calif., toured Great Britain and Europe last spring. Yankey was among those '09ers who returned to UK for their 50th reunion on May 23.

Ernest C. Steele, '48

JOIN PRIVATE SCHOOL STAFF

Mrs. Grace Cramer Webber, '46, and Miss Elizabeth Ison, '33, in September will join the faculty of the new private school opening in Lexington.

Mrs. Webber, who was kindergarten teacher at Ashland school, Lexington, has done graduate work at the National College of Education, Evanston, Ill., and Columbia University. She has written several articles for national education journals and is presently collecting materials to be used in writing children's books. She will teach the kindergarten at the new school.

Miss Ison, who was kindergarten teacher and librarian at Cassidy school, taught in Tennessee, Arkansas, Wilmore and Fayette county before joining the Lexington public school system in 1944. She will teach first grade at the Lexington School.

Mrs. Wirt F. Smith, Jr. (Bettie Hartnell), '31, was given a one-man show of her paintings at the Crespi Galley in New York City in May.

Dr. Raymond L. Cravens, once a Kernel cartoonist, has been named dean of Western Kentucky State College. Dr. Cravens received a Ph. D. degree from UK in history and political science in 1958.

Billiter Is Awarded Commendation Medal

1/Lt. William O. Billiter, Jr., a 1956 UK journalism graduate, recently was awarded the Air Force Commendation Medal in military ceremonies at Paine Air Force Base, Wash.

The son of Mr. and Mrs. W. O. Billiter of Winchester, Lt. Billiter was associate editor of The Kentucky Kernel and president of Phi Delta Theta fraternity as a student.

The medal was presented Lt. Billiter for "exceptionally meritorious service in the performance of his duty as Information Service Officer at Paine AFB." He has been the base Information Officer at Paine for the past 14 months, in addition to his flying duties as a radar intercept navigator aboard F-89 Scorpions.

Mrs. William J. Briggs (Florence Anne Burchett), '58, of Flora, Ind., served by appointment as personal page to Mrs. Frederic A. Groves, president general of the Daughters of the American Revolution, at the 68th continental congress of the national society in Washington, D. C., last April. Mrs. Briggs is an attorney in Flora, Ind., as is her husband, a 1954 UK law graduate.

LIPSCOMB NAMED PROFESSOR AT HARVARD UNIVERSITY

William Nunn Lipscomb Jr., '41, physical chemist from the University of Minnesota, was appointed professor of chemistry at Harvard University, effective July 1.

Professor Lipscomb, who was chief of the division of physical chemistry at the University of Minnesota, is a leading investigator of molecular structure of chemical substances. He is an authority in the field of crystallography, and much of his research has been in the determination of the atomic arrangement of the hydrides of boron.

A native of Cleveland, now 40, he has been on the Minnesota faculty since 1946. During World War II, he did research for the Office of Scientific Research and Development. He received the Ph.D. degree in physical chemistry in 1946 from the California Institute of Technology.

APPRAISAL OF ROTC

The questionnaire that appears in this issue of **The Kentucky Alumnus** is part of a nationwide study being made at the instance of the American Association of Land-Grant Colleges and State Universities.

The purpose of the study is to reappraise the ROTC program. Much information on the World War II participation of UK graduates and former students has been compiled by the University archivist. This material is now being studied by the Military Science Department. But there is little information available on the participation of UK alumni in the Korean conflict.

Whereas the principal purpose of this questionnaire is to furnish information on the Korean War, it is realized that many men participated in both WW II and the Korea, and that this service overlaps periods before and after these two wars. Consequently, the questionnaire permits response of men who have served since 1939 in any combination of war and peacetime tours of active duty.

It is realized that all of the requested information may not be readily available in cases in which someone other than the participant completes the questionnaire. In these cases, whatever information is available to surviving families will be helpful.

We should also appreciate your advising us of other UK graduates or former students to whom this survey would apply, but who may not receive notice of it through **The Kentucky Alumnus** or through Kentucky newspapers.

Your assistance in this study is greatly appreciated. Thank you,

W. E. GRUBBS

Colonel, Artillery

Professor of Military Science and Tactics

Please tear out this page and return to—ROTC SURVEY, Military Science Department, University of Kentucky, Lexington, Kentucky.

QUESTIONNAIRE

UNIVERSITY OF KENTUCKY STUDENTS' AND/OR GRADUATES' PARTICIPATION IN KOREAN WAR
(Please TYPE or PRINT all entries on this form)

SECTION I - NAME OF PARTICIPANT

1. NAME 3. Years attended UK to
2. Address: Degree:
(Street or RFD) (Type) (Date)
..... College:
(City or Town and State)

SECTION II - PARTICIPANT'S GENERAL MILITARY SERVICE ON ACTIVE DUTY

(Check all blocks that apply. DO NOT CHECK BOTH 4a (1) and 4a (2). Both 4a (2) and 4b (3) may apply.)

4. a(1).....Virtually all of the participant's active duty with the Armed Forces was directly connected with the Korean War with at least one assignment in the Far East (Korea, Japan, Okinawa, Formosa, or adjacent waters) within the hostilities period June 1950 to July 1953. (If you check this block, go directly to question 5).
- (2).....Participant served in the Korean War (as described above) in addition to considerable other service as indicated in 4b below.
- b(1). Participant has WW II service (within period 1939 to 1945)
- (2). Participant has Post-WW II service (period 1945 to June 1950)
- (3). Participant served during the period June 1950 to July 1953 in areas other than the Far East Command
- (4). Participant has also served since July 1953
- c. Participant has served **only** since July 1953

d. REMARKS: (Necessary clarification of entries above). If currently in service, indicate grade and branch of service).

SECTION III - MILITARY HISTORY OF PARTICIPANT

(Answer following questions for WW II and/or Korea as applicable)

5. Date entered military service: Date discharged:
(Day, Month, Yr.) (Day, Month, Yr.)
6. Branch of service (CIRCLE): ARMY NAVY MARINE CORPS AIR FORCE
7. Status (CIRCLE): Commissioned, Warrant, Enlisted. If commissioned, Branch
8. Highest grade attained
9. Did you participate in combat operations against the enemy in Korea?
(If answer is YES, complete items 10 thru 13; if answer is NO, go to item 14)
10. Give inclusive dates of combat operations: From to (Dates participant was in combat zone)
11. List campaigns in which you participated:
12. Number of times wounded: 13. Units to which participant was assigned during combat:
14. Decorations and/or awards:
15. Did you receive military instruction at UK? (Army or Air Force ROTC)
If answer is YES, which? How many semesters of ROTC completed?
16. If commissioned, CIRCLE source of commission: USMA USNA ROTC OCS National Guard Direct Battlefield.
17. Is participant currently a member of the National Guard or Reserve? Active or Standby member?
18. If you attended military classes at the University, did they help you in active military service? (Comment):
.....
19. If you are a survivor of a participant, please indicate
(To be used only when questionnaire is completed by surviving relative or spouse)
20. Please indicate date, place, and circumstances of death of participant:
.....

Signature and address of person completing questionnaire:
.....
.....

UNIVERSITY STAFF NEWS

These four University of Kentucky professors were honored at commencement by the University Alumni Association for distinguished scholarship during the past two years. Given \$500 awards were (from left) Herbert P. Riley, head of the botany department; Vincent F. Cowling, professor of mathematics and astronomy; Dr. Morris Scherago, head of the bacteriology department, and Bernard D. Kern, professor of physics.

Barrows Is Awarded Research Fellowship

Dr. John E. Barrows, director of the UK University Center and assistant professor of anthropology, has been selected as one of four recipients of a Southern Regional Education Board research fellowship. Dr. Barrows will study the administrative processes in the operation of off-campus university centers.

Room And Board Budget Plan Reported

University of Kentucky Dean of Men L. L. Martin has announced a budget plan for payment of room and board fees by male students at the University.

The plan is similar to one announced earlier for women students by Dean of Women Doris M. Seward. It allows a student to pay his room and board fee in three installments during the first half of each semester, rather than in a lump sum at the beginning of the semester.

CIERLEY NAMED UNIVERSITY EAS DIVISION HEAD

Dr. Morris B. Cierley, former director of the University School, in June was named chairman of the Division of Educational Administration and Supervision by the UK Board of Trustees.

Dr. Cierley replaces Dr. Leonard E. Meece who has served as acting head of the division for the past two years. Dr. Meece, who is a professor of education, will devote full time to teaching duties.

The new chairman has devoted most of his time during the past year to Kentucky's role in the Southern Association of Secondary Schools and Colleges, which accredits top-notch schools. He will continue as chairman of the Kentucky committee, but will not remain associate director of the Bureau of School Service.

Dr. Cierley, a native of Adamsville, Tenn., has received degrees from Memphis State College, Teachers College of Columbia University, Peabody College and the University of Illinois.

Alumni Association Awards \$500 To Four

Four professors at the University were awarded \$500 each by the University Alumni Association for distinguished scholarship during the last two years at commencement exercises on May 25.

Receiving the awards were Dr. Herbert Parkes Riley, head of the botany department; Dr. Morris Scherago, head of the bacteriology department; Dr. Vincent F. Cowling, professor of mathematics and astronomy, and Dr. Bernard B. Kern, professor of physics.

Dr. Riley was cited for his work in genetics which "has a major significance for the advancement of science in Lexington and the nation." He has contributed to such journals as "Radiation Research," "Nucleus," and the "Journal of Heredity and Genetics."

The botanist has been University Distinguished Professor of Botany since 1956 and has served three times as a visiting investigator at the Oak Ridge National Laboratory. He was a Fulbright Lecturer at the University of Pretoria and Capetown, South Africa in 1955-56.

Dr. Scherago's achievements have been recognized internationally. "As a professional leader, as a teacher with the highest standards, and as a creative and imaginative research worker, Dr. Scherago has brought distinction to the University for three full decades," his citation read.

Dr. Cowling was recognized for his "significant research in mathematics, with publications in the fields of summability theory, analytic continuation, continued fraction theory, and univalent function theory."

Dr. Kern was cited for "significant research in experimental nuclear physics."

His work has included experiments in beta ray spectroscopy, neutron cross-section measurements, and studies on the energy levels of light nuclei, using the Van de Graaf accelerator, beta ray spectrometer, and the Cockcroft-Walton neutron generator.

* * *

O. Leonard Press, acting head of the University Department of Radio Arts for the past year, was recently named head of the department, replacing Mrs. Camille Halyard who resigned.

Miss Anna B. Peck, retiring University High School teacher, received a \$1,477 gift from students and alumni of the school in May. At left is Robert A. Sprague, U-High senior who helped organize the convocation, and at right is Dr. Erwin E. Sasman, principal of the school.

STUDENTS AND ALUMNI HONOR MISS ANNA PECK AT UNIVERSITY HIGH

Students and alumni of University High School presented retiring teacher Miss Anna B. Peck with \$1,477 and a plaque calling her "the most successful lady we know" at a convocation in her honor on May 20.

Miss Peck, who has been teaching for 48 years, 35 of them at U-High, says she is certain she will take her long-talked-about "trip down the Nile River."

Donations presented to Miss Peck may increase and exceed \$2,000 when all the money is received.

The plaque, written in Old English by William Hubbell, was presented

to Miss Peck by William Embry. The plaque reads:

"Be it known to all men who read these lines that Miss Anna Peck is the most successful lady we know. Her life and teaching ability have provided us with a love of history and of her which has enriched the lives of all who know her."

The plaque was signed by Robert A. Sprague and Dorthy D. DeMoisey who was graduated from U-High in 1928, for alumni, students and friends.

The decision to honor Miss Peck was made by the senior class about seven months ago. More than 250 friends and alumni were contacted.

WOMEN'S PHARMACY SORORITY CHARTERED AT UNIVERSITY

Women pharmacists throughout the state have been invited to become members of Lambda Kappa Sigma, new UK pharmaceutical sorority chartered last December on the University campus.

The UK pharmacy girls first organized in the fall of 1957 for the purpose of becoming a chapter of Lambda Kappa Sigma. After functioning as a group for a year, the girls applied for a charter.

Those women pharmacists who are interested in becoming sorority members are asked to write the corresponding secretary, Miss Pat Harris, Keeneland Hall, University of Kentucky or Lambda Kappa Sigma, UK College of Pharmacy.

Medical School Dean Given Honorary Degree

Dr. William R. Willard, dean of the medical school at UK, received an honorary doctor of sciences degree from Transylvania College at commencement exercises on June 15.

The degree was awarded in commemoration of the 100th anniversary of the closing of Transylvania's medical school.

Dr. Willard also was the principal speaker at the commencement exercises.

The Transylvania faculty committee on honorary degrees, headed by Dr. W. Scott Hall, felt that it was fitting to honor Dr. Willard, not only for his own considerable contribution, but as the head of the new medical school, since Transylvania for many years made Lexington a leading center of medical training.

Dr. Willard, who holds three degrees from Yale University, has held various administrative and teaching positions in the field of public health. He was dean of the Syracuse College of Medicine before becoming vice president of the University of Kentucky and dean of the College of Medicine. He is an active champion of a strong liberal arts background for medical training.

* * *

A book titled "Little Smoky Ridge" by Dr. Marion Pearsall, UK social anthropologist, was published this spring by the University of Alabama Press.

* * *

Dr. Amry Vandenbosch, director of the UK Patterson School of Diplomacy, was elected president recently of the Midwest Conference of Political Scientists.

* * *

A fellowship in the American Society of Agriculture Engineers was awarded to UK Professor James B. Kelley in ceremonies in May. A member of the society since 1913, Kelley was the first Kentuckian to be so honored.

* * *

Dr. E. G. Trimble was recently promoted from acting head to head of the University Department of Political Science.

MISS WOFFORD IS AUTHOR OF BOOK ON LIBRARY

Miss Azile Wofford, associate professor in the department of Library Science at the University, is author of a book, "The School Library at Work," published in June by the H. W. Wilson Co. of New York, library materials publisher. It is subtitled, "Acquisition, Preparation, Use and Maintenance of Library Materials."

Miss Wofford has been on the faculty of the University of Kentucky since the fall of 1938.

She was listed among the 30 women from Lexington recently included in the first edition of Who's Who of American Women. She is also listed in Who's Who in American Education and Who's Who in Library Science. She is the author of numerous articles in library and educational periodicals and compiler of Know the South; Books with Southern Background for High School Libraries (Wilson, 1943).

* * *

The spring initiation banquet of Omicron Delta Kappa honored Dr. Robson D. McIntyre, UK professor of marketing, for his service as national president of the organization. Dr. Stattie Erikson, retired head of the School of Home Economics, was chosen "ODK Sweetheart." Dr. Lewis W. Cochran was featured speaker at the banquet.

* * *

Dr. John W. Hamblen, director of the UK Computing Center, was featured speaker at the 81st Institute of Mathematical Statistics in Cleveland this spring.

SPOKES HEADS GROUP

Ernest M. Spokes, professor of mining engineering at UK, has been named chairman of the mining committee of the coal division, Society of Mining Engineers of AIME. The society is a constituent organization of the American Institute of Mining Metallurgical, and Petroleum Engineers and is the professional organization for engineers and geologists in the minerals industries.

Prof. Spokes has been named also to the scholarship selection committee and the program committee of the coal division.

John Rea Receives Fulbright Grant

A Fulbright grant to teach this coming academic year in Rome has been awarded to John Alexander Rea, instructor in modern foreign languages at the University.

Rea will instruct teachers who in turn will conduct classes in the English language. He will teach at the University of Rome and at the Council on American Studies in Rome.

Rea's salary and round-trip expenses will be paid by the federal government under provisions of the Fulbright Act.

The instructor this summer participated in two-month Linguistic Institute, sponsored by the Linguistic Society of America and the University of Michigan, under a grant from the American Council of Learned Societies.

HOLLIS SUMMERS RESIGNS

Dr. Hollis Summers, UK professor of English and a poet and novelist, will take a position at Ohio University this fall.

Dr. Summers recently was chosen "Distinguished Professor of the Year" in the College of Arts and Sciences. He delivered the annual lecture which goes with the award on April 7.

His most recent publication, a volume of poetry entitled "The Walks Near Athens," refers to Athens, Ohio, where Ohio University is located.

Summers, a native of Eminence, has written four novels.

He currently is working on a textbook, "Introducing Literature," with Edgar Whan, which will be published by McGraw-Hill.

A 1937 graduate of Georgetown College, he earned his master of arts degree at the Breadloaf School of English in 1943. He received his Ph.D. degree at the State University of Iowa in 1948, and taught at Holmes High School, Covington, and Georgetown College before coming to UK in 1949.

* * *

Robert B. Grainer, UK associate professor of animal nutrition, was installed recently as president of the Society of Sigma Xi, an honorary fraternity composed of persons who have demonstrated research ability.

UNIVERSITY AFFAIRS

Receiving honorary titles at the University of Kentucky's 92nd commencement on May 25 were: (from left) Henry Fischer, Louisville businessman who received the Algernon Sydney Sullivan Medallion; W. Hugh Peal, '22, New York Lawyer, and Dr. Phillip R. Edwards, '22, a bacteriologist for the United States Health Service, both recipients of honorary doctor's degrees.

Alumni Phillip Edwards And W. Hugh Peal Honored At Commencement

Two graduates of the University of Kentucky's class of 1922 received honorary doctor's degrees, and 1,103 students were granted academic degrees at the University's 92nd commencement exercises May 25.

Dr. Phillip R. Edwards and W. Hugh Peal accepted the honorary degrees from UK President Dickey.

Edwards, a native of Owensboro, was given the honorary doctor of sciences degree. He was a bacteriologist for 23 years in the University's Agriculture Experiment Station. Currently he is chief of the enteric bacteriology unit in the United States Public Health Service laboratory at Chamblee, Georgia.

Peal is a native of Bandana. He was Kentucky's Rhodes Scholar in 1922, and he studied for three years at Oxford University. He is a member of Phi Beta Kappa honor society and he currently is a partner in the New York law firm of Hardy, Peal, Baker and Rawlings.

From 1953 to 1956 Peal was commissioner of uniform state laws in

New York. He has donated about 7,000 books to the UK Library. The honoree was given the doctor of laws degree.

The degree candidates included 25 for doctor's degrees, 239 for master's and professional degrees and 839 for bachelor's degrees. Eleven foreign countries, 32 states and 107 of Kentucky's counties were represented on the list of candidates.

The commencement address was delivered by Dr. Rufus C. Harris, president of Tulane University. The baccalaureate sermon was given by Dr. Irvin E. Lunger, president of Transylvania College.

* * *

Lilly Endowment, Inc., a philanthropic foundation, has given \$35,800 to the University for use in the editing and publishing of papers of Henry Clay. This is the second grant to be made by the foundation for the project and brings to \$93,600 the total amount awarded.

MEDICAL CENTER BUILDING IS AHEAD OF SCHEDULE

Building of the University Medical Center is running ahead of schedule because costs of construction are running below estimates, Gov. A. B. Chandler told guests at a formal dinner this spring honoring the governor and other persons who led in establishing the Medical College at UK.

Meriwether, Marye & Associates, the firm of architects for the project, gave the dinner, attended by more than 400 persons, at the UK Student Union Building.

Chandler, for whom the Center was named, said the apparent low bid on the new hospital is three and one-half million dollars less than the estimated cost of 12 and a half million.

Because of this, he said, letting of bids for a dental building and laundry, originally scheduled for 1962, probably can be moved up to December of this year.

The governor praised Dr. Frank G. Dickey, University president, and Dr. William Willard, dean of the College of Medicine, as being among the leaders in their professions and said Kentucky was "most fortunate" to have them.

Hugh Meriwether, senior member of the firm of architects, presided at the dinner and read telegrams from national and state leaders who were unable to attend.

Dr. Leo M. Chamberlain, vice president of UK, greeted the guests on behalf of the University.

He said that University officials had thought of a medical center as "a dream that might come true in many years" but that Gov. Chandler's "quick action" had gotten the program "well under way."

The present schedule calls for the first medical classes to begin next year, he added.

Dr. Murray Kinsman, dean of the University of Louisville Medical School brought greetings from that institution.

He pledged "the strongest possible cooperation" between the two medical colleges.

Dr. Willard, responding for the UK Medical Center, said he looked "forward to a great institution for the betterment of all the people."

Opportunities For Spindletop Are Numerous Says Vice President Peterson

The University of Kentucky faces several opportunities on Spindletop Farm, among them the chance to realize a greater than 100 per cent profit now or considerably more later, according to the University's chief business officer.

Dr. Frank D. Peterson, vice president for business administration, said several alternatives are currently being considered following the "gift-purchase" of the 1,066-acre farm for \$850,000 by the Kentucky Research Foundation, a non-profit organization devoted to promotion of research and education at the University.

Peterson, who serves as treasurer of the foundation, said the University can buy the property over a period of years from the organization and:

Divide it and sell all of it now for \$900,000 above the purchase price; sell the house and under half the acreage for the amount invested and hold the remainder for an anticipated \$1,500,000 within a few years when proposed developments in the area are carried out; or hold all of it for awhile in expectation of an even greater increase in value.

Speaking of the purchase of the farm from Mrs. Pansy Yount Grant of Beaumont, Texas, Peterson also sought to clear up some misconceptions about the transaction. He said:

(1) The property was not bought by the University of Kentucky but by the Kentucky Research Foundation.

(2) No tax money was used to make the down payment of \$150,000. The Research Foundation used money from its accumulated earnings and for the balance issued notes at 3 per cent interest, one each of which comes due annually for the next 10 years.

(3) Governor Chandler has promised \$150,000 in July toward the purchase price but if this money is given Spindletop must deed to the state a sizable tract of land, adjoining Coldstream farm, which could be immediately put to research use for the benefit of the University's agricultural program.

(4) The farm is not being used, other than for two temporary projects, for agricultural experiments.

(5) The property is the type which will gain in value, particularly its land, in the next few years. "Land is one thing near Lexington that definitely is 'appreciating rather than depreciating, in value.'"

(6) Strong efforts are being made now to have several farm enterprises produce the annual interest charges, \$21,000.

(7) Acquisition of the mansion and farm was not a straight purchase plan; rather it was a 'gift-purchase' plan. Mrs. Grant sold the property to the Research Foundation at a price almost exactly half what University-hired appraisers declared it worth two years ago when Coldstream farm (adjoining Spindletop) was purchased.

(8) Mrs. Grant offered the installation at such an attractive price to the University because of certain tax benefits, Peterson said, and because of her desire to close out the property.

He said the valuable farm—with mansion house, swimming pool, hard-top roads, two lakes, complete steel and wooden fencing, deep-well water supply and some 42 barns, work buildings and tenant residence—actually was available for purchase three years ago but a committee composed of President Frank Dickey, College of Agriculture Dean Frank Welch, Commissioner of Agriculture Ben Butler, Finance Commissioner J. W. Martin, and Peterson decided to buy Coldstream instead because "we thought Coldstream better suited for our agricultural research purposes and nearer Lexington."

Dr. Peterson described the Research Foundation which acquired Spindletop as a non-profit, non-stock organization to promote education and research in scientific and other learned fields for the benefit of Kentucky and Kentuckians. None of the Foundation's officers or directors may receive any salary or monetary benefits from the Foundation.

Ground-breaking ceremonies for a new men's dormitory at the University were held on April 28. The new housing unit will be located behind Donovan off Rose Street.

NSF Gives \$28,230 Grant To University

The National Science Foundation has granted \$28,230 to the University of Kentucky for the financing of an experimental program that will give 46 undergraduates an opportunity to do original science research.

The Foundation wants to learn whether superior undergraduate students can make important contributions to science research.

The research projects must be significant, the work must be done under a competent scientist and the students actually must take part in the experiments rather than serve as "errand boys."

Dr. Jacob R. Meadows of the UK chemistry department is supervising the program. Eighteen of the students have done full-time research during the summer term, and each will receive \$4,000 for his work.

The remaining students will receive \$500 each for part-time research during the next school year.

* * *

Alfred Oppeneer, administrative chairman of the Annville Institute in Jackson county was honored in April by the UK Dairy Science Club. Oppeneer has directed the school for children in the Eastern Kentucky mountain region for more than 30 years.

* * *

UK President Frank G. Dickey was featured speaker at the formal dedication of the Lexington plant of International Business Machines Corp. on May 26.

* * *

"Working together for a better school program" was the theme of the University's fifth semi-annual all-day student teacher conference this spring. Dr. Lyman V. Ginger, dean of the College of Education, was the principal speaker.

* * *

The University poultry-judging team won third place honors at the 12th annual Southern Collegiate Poultry Judging Contest at the University of Tennessee this spring. The University finished first in the market production division and fourth in the breed selection and production divisions.

ANNUAL REPORT TO THE ALUMNI

The annual meeting of the University of Kentucky Alumni Association was held in conjunction with the Alumni annual picnic, May 23, 1959 at Carnahan House, Coldstream Farm. Mr. William M. Gant, of Owensboro, out-going president of the Alumni Association, presided. Present were approximately 300 alumni. Mr. H. D. Palmore of Ashland made a motion that the minutes of the 1958 meeting of May 24th, be filed as published in the August 1958 ALUMNUS magazine. Seconded by Mr. R. R. Dawson of Bloomfield, the motion carried unanimously. Miss Helen G. King, Director of Alumni Affairs at the University gave the director's report as follows:

Director of Alumni Affairs,
UK Alumni Association,
May 23, 1959

Fellow-Alumni:

"These are the days when birds
come back,
A very few, a bird or two,
To take a backward look . . ."

. . . And these are the days when we who labor lovingly, from one year's end to the next, at this, your University, find our hearts singing in unison with yours as you return once more to take a backward glance.

The younger ones of you who have returned today will find, as you grow older, that making money, and earning reputations, and wielding power are the prerogatives of youth, but that keeping green the friendships and memories of youth is the particular treasure of those who are a little older and that power and fortune fade into insignificance beside the intangibles of a lifetime of memories. Pause a moment, and look if you will upon the five classes gathered together there under these old trees. 1905, '06, '07, '08 and '09, reunited after a stretch which, in some cases, covers 54 years; a group of wonderful men and women who have returned from as far west as California, as far south as Florida and as far east as New York, to pick up once more the tangled threads of memory and to re-weave them into a loving strand which binds them more closely, year after year, to Alma Mater.

We are grateful to them for the things they represent and for the challenge they hold out to younger classes because, "an academic reunion should not only reunite, it should renew, remind, reinvigorate, recharge, rededicate. It should reunite in a way peculiar to itself. It should remind us of a four-year experience we once had that subsumed everything we have since met, led us to those Olympian heights from which we saw (for once in our lives) the panoramic view . . . It should remind us that for once in our lives we ate immortal bread; we drank immortal wine."

It should prepare us for what comes after . . . the sharing of our experiences, our loves, our successes, our disappointments, yes, even our worldly wealth with that University from whose heights we glimpsed Olympus.

This has been the year in the long history of your Alumni Association in which your Alumni Executive Committee reached out and almost touched the stars. It has been the year of re-dedication, new horizons and new purpose and it has been supplemented and made worth-while through the work and efforts and support of many alumni scattered throughout the commonwealth and the nation.

It has been a year which has been given added impetus by our beloved University President and his administrative officials who have encouraged us and cheered us on and the results of this year of work, study and self-evaluation may prove to be the Alumni Association's finest hour.

It is difficult to record in black and white the time and devotion and service which have been given this year to your Alumni Association by the members of your executive committee and by University officials. It is even more difficult to translate into the written word the hopes and dreams which are embodied in the report I am about to give but this I know: If I can make you see and feel the thinking back of our program for the future, then your reunion week-end will not have been in vain.

Last July I asked the Alumni Executive Committee to reassess and to re-evaluate our program in the light of

several imminent problems. One, and probably the most important one, was the necessity for us, as alumni leaders, to imprint indelibly on the minds and hearts of all of our alumni, the indisputable fact that, although these past three and one-half years have seen the most generous appropriations allotted by the state to the University in all of her history, the commonwealth, with its many obligations, (in its many governmental functions) to all of the people, cannot possibly give the University sufficient funds for all the types of service for which there are demands. Thus, it devolves upon us, as alumni, to supplement these funds from other sources—in short from alumni and friends.

Just about 19% of those University of Kentucky alumni contacted by the office in 1957-'58 contributed to the Alumni Fund. The report for 1958-'59 gives a rosier view. At the close of business on March 31, this year, our percentage of alumni giving had increased to 23.4%—but there is room still for much improvement. Charles William Eliot, late president of Harvard University said at one time, and I quote: "It is, of course, largely by the extent of the support accorded to a college by its own graduates that the world judges of the right of that college to seek cooperation of others in planning for the future. An institution that cannot rally to its financial assistance the men who have taken its degrees and whose diploma is their passport into the world is in a poor position to ask assistance from others. It is not merely what alumni give; it is the fact that they DO give that is of supreme importance."

In 1957-'58 the University received from the commonwealth the largest appropriation in its history and yet, that appropriation totaled only 49% of the operating budget of the University, therefore, you can see the urgent necessity for all of our people, alumni, friends, corporations and industry to supplement state support if we are to take our rightful place among the great universities of the nation.

Hence, your Alumni Board has outlined a program of the future in which

we hope that all of you will participate. Recently, you received a letter from President Frank G. Dickey outlining to you the Alumni Association's broad program of future development. To pinpoint that program we are initiating in September of this year a capital gifts campaign among the alumni.

This is the first time since 1924 you have been asked to make a capital gift to your Alma Mater. This drive will be for the purpose of raising a quarter of a million dollars for the University. The drive will be known as the Century Club campaign and will earnestly solicit from all of you who are in a financial position to contribute, one hundred dollars a year for five years, beginning in the fall of 1959 and culminating with the University's hundredth anniversary in 1965.

For what will your money be used?

(1) Continuing financial recognition to faculty members who make outstanding research contributions.

(2) Assistants to student organizations of distinction.

(3) Aid to faculty members in underwriting trips to professional meetings where research papers and addresses are to be presented.

(4) Continuation of the Alumni Loyalty Fund Scholarships for outstanding students.

(5) Provision of research facilities which are not easily obtainable through the usual sponsoring agencies.

(6) Continuation of our distinguished and distinctive Annual Alumni Seminar.

(7) And, last but not least, an Alumni Center on campus, from which we, as an alumni organization may operate more effectively and to which you may return. A building which is envisioned as a place where industry may come for on-campus meetings, where students may visit for conferences and interviews and where we would be the means of forming an alliance with off-campus groups, corporations and foundations which may eventually redound to the general benefit of the University in obtaining large grants and gifts for the institution.

It is a big program, but the University of Kentucky has a big future if we, her alumni, can awaken within

ourselves the latent feeling of obligation, of duty, even of urgency, which this program should engender.

A report on the year's activities must, of necessity, include a report on two programs which we initiated last year and which I have just mentioned briefly.

At the commencement exercises last May the Alumni Association presented to four members of the University faculty checks for \$500 each for their achievements in writing and research during the two-year period ending January 1, 1958. The purpose of these achievement awards is to encourage more writing and research among faculty members and to give them an added incentive to remain at the University of Kentucky. If you remain for commencement Monday you will see another four members of the faculty so honored.

The other distinguished program initiated last summer by the Alumni Association was an Annual Alumni Seminar with lecturers chosen from among some of our distinguished faculty members and alumni. This Seminar received national recognition and will be held again this year, from June 24 through noon, June 27. All of you are urged and invited to attend. The program was made available to you at the registration desk this morning.

In addition to the contributions made directly to the Alumni Fund this year your Association was responsible for obtaining two scholarships for the College of Engineering. One for \$1,000 and one for \$500. The Executive Committee also was gratified to learn that the late Mrs. Linwood A. Brown, widow of a former faculty member, had bequeathed one-twentieth of her estate to the Alumni Association for our scholarship fund.

In March of this year the University of Kentucky and University of Tennessee entered into another contest. This one, based on alumni loyalty, challenged our members to compete with Tennessee on a basis of annual giving to the Alumni Fund and it was rewarding to record the response which put us over the top, budget wise, for the year now coming to a close.

Last year 288 UK graduates were employed by General Electric Company, this is the corporation which

initiated the corporate alumnus program to encourage annual giving by college and university alumni through a matching gifts plan whereby GE matched individual gifts to any recognized, four-year college or university, made by employees of that company. We were chagrined to report that in 1957-'58 only 11 of the 288 Kentucky graduates with GE took advantage of this program. In 1958-'59 more than 60 participated, the result of the efforts of Mr. Berkley Davis of Owensboro, Mr. Gregory Sheehan of Louisville and the Alumni Office staff.

The final results of these several efforts brought our contributing membership total to 5,859 at the close of business on April 30. The treasurer's report will be given for that period today but the result of the total effort will be published in the AUGUST ALUMNUS following our annual audit.

Two other progressive steps were taken by the Alumni Executive Committee this spring. In order to provide for an increased alumni body and a more comprehensive alumni program, your board voted to increase the elected members of the executive committee from nine to fifteen, thus bringing into the board a larger representation. Formerly you elected three members annually to serve three-year terms on a staggered basis. Beginning this year you elected five members.

The executive committee, in addition, changed life membership fees from \$50 for an individual and \$75 for husband and wife to \$200 for an individual and \$300 for husband and wife, effective June 1, 1959. This action was taken because, in past, life members have considered that a \$50 life membership dispensed forever their obligations to Alma Mater. Interest from this amount as you know, did not pay the cost even of subscription to the ALUMNUS magazine, therefore it was imperative to raise life membership charges.

The other action was in the form of designing uniform by-laws for all alumni clubs, which by-laws abolished local club dues and specified that the general association would allocate to each local club a sum of fifty cents per capita for each local member who contributed to the national organization. This by-law will be effective at

the close of the 1959-'60 fiscal year.

Last spring the Fayette County Alumni Club and the general association combined to offer a spring sports scholarship on a rotating basis to a student participating in one of the spring sports. In addition, your Alumni Loyalty Scholarship Fund, to which you have been contributing for more than a decade, has graduated seven outstanding students on \$2,800 scholarships and now has four students in the University under this scholarship plan. It should be a source of great pride to you to know that at the close of this school year you have expended \$22,400 in this worthy scholarship program.

Last October I reported to the executive committee that in 1957-'58 a total of \$40,677.32 was collected by your Alumni Association directly and used for operations and for various university projects. In addition, a total of \$75,024.30 came to the University through alumni giving or from corporations, mainly through individual alumni effort. We are proud of this report, and we hope that this year and in the years to come you will redouble your efforts and your giving in order that your University may take its place among the great universities of the nation.

Last December you elected, by mail ballot a new alumnus representative to the Board of Trustees of the University. He is Robert H. Hillenmeyer, of Lexington, immediate past president of the Alumni Association and a worthy and dedicated alumnus of this institution.

During the past year the alumni executive committee suffered the loss of a devoted member in the death of Dr. George Wilson of Lexington, who had served as a member of the board for more than 30 years.

Several fine new clubs have been activated this year or, are in the process of activation, and a resurgence of interest has been evidenced. Last fall a fund drive was undertaken by a group of 81 area chairmen in various Kentucky counties and in metropolitan areas with the results I have previously described. To all of these men and women go the gratitude of the University and the Alumni Association. The executive committee hopes, in the near future, to employ a field

secretary to work with organized alumni groups in order that this fine effort may be continued.

On June 13, next, we are inviting back to the campus the presidents of all organized clubs as well as alumni leaders in many communities, to meet with administrative officials and members of the executive committee for a one-day Leadership Conference, the purpose being to define the University's program for the future so that they, in turn may take this information back to their home communities. Only an enlightened and informed alumni body can serve its alma mater adequately.

Through the efforts of Mr. Berkley Davis, GE official from Owensboro, Ky., and a member of the alumni board, the University was invited to participate in the GE College Quiz Bowl in May, a nationally televised program which resulted in a scholarship grant to the University by General Electric.

Your alumni director has served on numerous University and alumni committees this year, has completed a term as vice president of the Joint Kentucky Alumni Council and will take office in 1961 as chairman of the Southern district of the American Alumni Council. In addition she has organized and attended numerous club meetings throughout the state and nation.

I would be derelict in my duty if I did not publicly acknowledge the dedicated service given to the Alumni Association this year by all members of the Executive Committee, the leadership of Mr. William M. Gant, current president, Mr. Robert H. Hillenmeyer, immediate past president and Dr. Ralph Angelucci, incoming president for 1959-'60 and the patience, kindness and understanding given to our many problems by President Frank G. Dickey, Dr. Leo M. Chamberlain, Dr. Frank D. Peterson, Dr. Merl Baker, Prof. Jesse J. Dukeminier, Seminar Coordinator, and other members of the administrative family and staff.

It is with deep appreciation also that we express to the members of the Faculty Awards committee our appreciation for the time and unselfish service given in selecting the award winners for the current year.

It has been a rewarding period in the growth of your Alumni Association and it has been made easier and more pleasant for your director through the unselfishness and devotion demonstrated by the Alumni Office staff—Mrs. Olga Varrone, Mrs. Mae Montjoy, Mrs. Ada Refford, Mrs. Nellie Youmans, Mrs. Mary Miller, Mrs. Betty Wiggs, Mrs. Leslie Eargood and Mrs. Pat Griffin. To all of them go our appreciation for a job well done.

Respectfully submitted,
Helen G. King
Director of Alumni Affairs

Mr. Richard Cooper of Somerset made a motion that the Director's report be approved as read. Seconded by Mr. Robert Hillenmeyer of Lexington, the motion carried unanimously.

Mr. B. A. Shively, treasurer of the Alumni Association, gave the treasurer's report as of the period June, 1958 through May 31, 1959 as follows:

June 15, 1959

To the Directors
University of Kentucky
Alumni Association
Lexington, Kentucky

I have examined the balance sheet of the University of Kentucky Alumni Association, at May 31, 1959, and the related statement of income and expense for the fiscal year ended that date. My examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

In my opinion the accompanying balance sheet and the related statement of income and expense fairly present the financial position of the University of Kentucky Alumni Association at May 31, 1959, and the results of its operations for the fiscal year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Respectfully submitted,
Oliver Clay Maupin, Jr.
Public Accountant

UNIVERSITY OF KENTUCKY
ALUMNI ASSOCIATION

Comparative Statement of Income and Expense
For the Fiscal Years Ended May 31, 1958-'59

Income	May 31, 1958	May 31, 1959

Mr. B. A. Shively made a motion that the treasurer's report be approved as audited by Mr. Clay Maupin of

Lexington. Seconded by Mr. Palmore, the motion carried unanimously.

Under new business, Mr. Gant presented the new officers of the Alumni Association for the year 1959-'60 as follows:

President: Dr. Ralph J. Angelucci, Lexington; Vice President: Mr. L. Berkley Davis, Owensboro.

The five executive committee members to serve for a 3-year term as follows: Richard E. Cooper, Somerset; William Black, Paducah; Smith D. Broadbent, Jr., Cadiz; Guy Huguelet, Jr., Lexington; and Mrs. Hampton C. Adams, Lexington.

Out-going president Mr. Gant addressed the group and welcomed the reunion classes. He also expressed his appreciation to the Executive Committee for their support and cooperation during the year that he served as president. There being no further business to come before the meeting, Mrs. Adams moved that the meeting be adjourned, seconded by Mr. Davis, the motion carried and the meeting adjourned.

Respectfully submitted,
Olga Varrone
Alumni Office Secretary

Paintings by 11 UK artists were included in the Louisville Art Center's 1959 exhibition of art at the J. B. Speed Art Museum this spring. Faculty who exhibited included Raymond Barnhart, associate professor of art; Anne Green, assistant professor of art; Walter Pearce, assistant professor of economics, Frederic Thursz, assistant professor of art. Alumni who exhibited were Marian Williams Heath, '58; Robert Herndon, '58; and Jane Thornburg Neff, '57. Phillip Harris, '59 graduate, won the \$150 purchase prize for an oil painting.

* * *

Dr. Doris M. Seward, University dean of women, in May made a two-week speaking tour through Kentucky covering 1,400 miles.

Dean Seward was principal speaker at 12 regional homemakers meetings where she spoke on the role of educated women. She was accompanied by Miss Viola Hansen, chairman of home economics in University agricultural extension programs.

INDUSTRIES AID
TO COLLEGE

One of the privileges of the college graduate is to be periodically tapped by the old alma mater for funds. The alumnus who hasn't griped about the persistence of these perennial appeals is pretty rare. Nevertheless, graduates of our colleges have become increasingly serious about their responsibilities. Contributions by individuals to alumni fund-raising campaigns have almost doubled in the last four years, increasing from \$77,000,000 in 1955 to \$143,000,000 in 1958.

Alumni willingness to help their "old schools" has a double-barreled effect. Not only do alumni fund drives provide colleges with much-needed funds; they also provide industry with a check on alumni loyalty, which has a bearing on a corporation's willingness to contribute. In awarding Texas A. and M. highest honors in the recent American Alumni Council's first Alumni Incentive Awards Program, Dr. William W. Whitehouse, president of Albion College and of the Association of American Colleges, said, "If our own graduates do not believe in their colleges and back up that belief with their gifts, why should business and industry be asked to contribute?"

Significantly, the United States Steel Foundation donated the funds that made the Alumni Incentive Awards possible this year. For some time corporation grants have been based to a considerable degree on alumni support, but this is the first instance in which national attention has been focused specifically on the importance to the future of American education of the alumni-industry relationship. As the vast private fortunes that used to endow our educational institutions have dwindled and the necessity for Government aid threatens the independence of many institutions, it is heartening that private industry and private citizens are taking positive steps to meet the challenge of the times.

SPORTS NEWS

By KEN KUHN
UK Sports Publicity Director

There'll be a "new look" in Kentucky football in '59.

Not only will the Wildcats present a new face in the form of a promising crop of 38 rookies replacing 12 departed letter winners, but Head Coach Blanton Collier had decreed a new three-unit system of operations in an effort to get the greatest possible mileage out of his Multiple T offense and rugged defense.

The system, basically similar to that used by Louisiana State in its parade to the national championship last season, calls for the organization of the team into three separate units to be called—in Kentucky's case—combination, offense and defense. The combination team is designed to include those players most capable of playing both ways while the other two specialty units are made up of men who are best as either offensive or defensive operatives.

As Coach Collier sees the system, made possible by the new relaxed substitution rules and the promise of sufficient numbers for the first time, the advantages are that it will allow more effective use of a player's potentialities, provide more rest and hence allow his men to work harder while in the game. He also figures it will give more men a chance to play and the coaches a better idea of what some younger boys can do plus creating better morale stemming from the fact that 33 men will be "first stringers". While each player will be assigned to a specific unit, there is due to be a lot of switching between the various teams and some players likely will see service on all units.

Coaching staff changes have added four new faces in the ranks of assistants, replacing an equal number of departed aides, and brought in some new thoughts, but Coach Collier intends to stick with the Multiple T offense that carried the Wildcats to a 5-4-1 record last season despite hard luck on injuries and a "killer" schedule. New on the Kentucky staff are Bob Cummings, formerly of Georgia Tech; Don Shula, at Virginia last sea-

son; ex-Wildcat All-American end Howard Schellenberger; and veteran high school and college coach Norman Deeb. Collier himself received a "vote of confidence" since last season in the form of a contract extension to 1965.

In addition to surviving academic battles with a low mortality rate, the major obstacles standing in the way of a good season for the Wildcats in 1959 are fast development of adequate depth—particularly in the line and at fullback—and avoidance of injuries that proved so costly a year ago.

The always difficult problem of getting everyone to tackle the books with the same forcefulness utilized on the football field has been made increasingly difficult this year by a recent raising of academic standards at Kentucky. However, Coach Collier is proud that most of his charges passed the test successfully and thereby will provide the hands necessary for the three-unit plan.

With 55 per cent of his prospective squad made up of raw rookies and only 20 experienced operatives available for assignment, the necessity for speed in bringing around number two men at most positions is all too obvious. "You can't win consistently in this league with just 11 good men," Collier points out. "It takes at least two good teams and, when you don't have enough experience, you better bring some younger boys around fast."

Although he hesitates to even think about it, the Wildcat chief obviously is concerned over injuries—past and future. Regular quarterback Lowell Hughes missed spring work due to a knee operation to correct an injury received in the Auburn game last year, but it is hoped he will be ready in time for the season opener.

On the brighter side of the picture, Coach Collier looks to better overall balance, ability and experience-wise, and greater versatility by the upcoming team. More than the presence of a handful of outstanding individuals, he is impressed with the promise of a large number of less experienced

hands. It's hard to make a distinction between line and backfield and say one is better than the other, but most of the experts like the looks of the ball carrying combo as a unit.

Leading this pack is 1958 Southeastern Conference "Sophomore of the Year" Calvin Bird, a fleet footed youngster who led the league in pass receiving (21 for 373 yards and 4 TD's) and stood a close second in scoring with 65 points last season. Bird will see duty at left half in the spot held down in '58 by Glenn Shaw. The power-packed Shaw, tenth best ball carrier in the SEC last season, was shifted in spring workouts to fill the vacated fullback position. Teaming up with this duo and taking over for graduated ground gaining leader Bobby Cravens at right half will be junior Charley Sturgeon. Handling the quarter chores will be Hughes, a senior, and cohort Jerry Eisaman, a red-shirt junior. Both completed over 50 per cent of their tosses last year to rank near the top in conference passing.

In the line, where four of the six starters and nine of 12 lettermen were lost, the standouts among veterans are Bob Talamni, considered by Collier to be one of the South's finest guards; end Dickie Mueller, an All-SEC Sophomore team pick last year and pre-season all-conference choice for '59; tackle George Boone; and guard Jimmy Johns. All four were starters last season and appear on the number one unit again, but on different platoons.

Top new faces are likely to be brilliant Lloyd Hodge, a promising sophomore fullback last year who looked terrific in the new position of linebacking center this spring; Irvine Goode, a rookie center who shapes up at a rugged 6-5 and 215 and showed great potential in spring practice; and Bill Ransdell, consistently impressive sophomore quarterback-halfback.

Passing was one of the '58 team's strong points as they stood third in the SEC aerial statistics and seems destined again to become the main offensive forte with both of last season's top arms, Hughes and Eisaman, returning along with ace receivers Bird and Mueller.

The ground attack was hurt by the graduation of top ground gainer Cravens (4.2 average on 441 yards in 104 carries), but Coach Collier is hopeful that improvement from with-

in the ranks will offset losses. Big guns should be halfbacks Bird and Sturgeon, fullback Shaw.

The biggest obstacle facing the Colliermen in their quest for a good season, however, may be another man-killing schedule. Perhaps even more significant than the overall power of the opponents is the difficult arrangement that sees the Wildcats called on to face four of the nation's top teams before mid-season. Kentucky meets perennially-powerful Georgia Tech and Ole Miss' Gator Bowl champs in the first two weeks and then, after stepping outside the tough Southeastern for a match with Detroit, faces undefeated Auburn and National Champion Louisiana State to climax the initial half of their campaign. Rounding out the season, UK meets Georgia, Miami (Fla.), Vanderbilt, Xavier (Ohio) and Tennessee.

Norman Deeb Appointed To Coaching Staff

Kentucky's football coaching staff for 1959 was completed recently with the addition of Norman Deeb, a native Kentuckian and veteran high school coach, as freshman line coach.

Deeb brings to the staff experience based on 10 years of coaching, virtually all of it in Kentucky high school ranks. He was head coach at Bellevue High in 1956 and 1957, posting a record of 13 wins against six losses while teaching the T formation and variations. Prior to the Bellevue assignment, he served as line coach at Shelbyville High for five years.

Deeb also was line coach at Bullis Prep School in Maryland from 1949 to 1951 and, during his tenure, the service academy preparatory school won the mythical National Prep School Championship in the Beach Bowl at Daytona Beach, Fla. His last coaching assignment was at Xavier University in Cincinnati, where he coached the line during the 1958 season.

Born in Louisville, the 36-year-old Deeb attended public school in Shelbyville and graduated from Eastern Kentucky State College in 1947 after an interruption of 42 months for army duty, much of it in Italy. He played tackle for the Maroons.

1959 KENTUCKY FOOTBALL SCHEDULE

Date	Opponent - Site	Starting Time
September 19	Georgia Tech at Lexington	8:00 p.m. CDT
September 26	Mississippi at Lexington	8:00 p.m. CDT
October 2	Detroit at Detroit *	8:15 p.m. EST
October 10	Auburn at Auburn	2:00 p.m. CST

DOWN IN FRONT

The following column is reprinted in full from the June 12 Lexington Leader.

By LARRY SHROPSHIRE

"He didn't know all the rules of softball, so he'll be a failure in life, I guess." That was a comment spoken in mock despair by Blanton Collier as he explained why one particular University football player failed to post a perfect 4.0 standing for his first two semesters as a college student.

The UK gridiron headmaster is fairly swelling with pride over the scholastic achievements of his huckies during the spring term, with special emphasis naturally on the reports received on one of his freshmen.

This lad wears the rather commonplace name of Bill Smith, but there's plenty distinctive in the academic marks so far of William Hayden Smith, a proud product of Tilghman High in Paducah who's headed for a major in the rather difficult field of physics. The alert and aggressive little halfback hopeful received a grade of "A" in every subject during the fall semester, but his standing for the spring term plummeted to 3.8 out of a possible 4.0.

Oddly enough, the class in which he got a "B" in the spring was a physical-education course, this chap who gained all-state recognition as a Tilghman fullback and was a standout in track as well during several seasons at that school.

Sure enough, he may have been deficient in the rules of softball or something of that nature, but evidently he didn't miss much in his freshman study in general chemistry.

Chemistry frosh at UK the last four years have been given as a final examination a standard 105-minute test used nationally so schools generally can grade and compare their pupils on the same basis, and the test this year was taken by 4,078 students in some 40 colleges and universities throughout the country.

Young Bill Smith, the academic chiefs reported, made a higher raw score than any other UK student has made in four years, and on a national

basis in this year's grading he ranked in the top one per cent.

Closely heeding instruction and pursuing homework assignments so well that he comes through with marks of that kind, 18-year-old Bill wouldn't seem to have time for anything other than study and football, but he does have hobbies—astronomy, tennis and girls, and just skip any question on why he lists them in that order.

Athletics and study could come to him naturally, though. He is one of five children in the family of Eurie Smith, a high school coach and science teacher in Louisville who gained all-conference laurels as a college tackle in the old SIAA in 1933.

Tutored in high school by veteran Coach Ralph McWright, Bill was a 165-pound fullback for Tilghman for three seasons, but he was moved to halfback with the UK frosh and compiled a four-yard average on rushing gains last fall.

It seems almost a cinch that he'll know all the plays perfectly as he bids for varsity service, and certainly he'll never cause the coaching staff any worry about whether he'll make grades to be scholastically eligible.

For that matter, Collier now says proudly that the complete report on spring-term grades by his gridders has pretty much lifted any concern he has felt about the willingness or ability of his players to apply themselves to meet scholastic requirements to retain athletic eligibility and obtain a full college education as well.

As most folks in this area know, UK last year tightened requirements and set higher grade levels that freshmen first and then upperclassmen must attain to remain in school. The ruling may not have impressed everybody when announced, but the ranks of believers swelled when grades for the fall term were posted and some 50 per cent of the freshmen found themselves placed on probation.

Some 30 or 35 scholarship gridders were among those on probation for the spring semester, and undoubtedly Collier and his assistants had many, many moments of fretting about how sharply the squad might be trimmed

by the grading pencils of professors at the end of the term.

When the grades came through, though, they found that 10 of the 80 football men had standings above 3.0 (equivalent of all As and Bs) and 27 were at the 2.5 level or above, while the average for the entire squad stood at 2.25, the best mark the gridders have achieved since he took over the UK job in 1954, Collier said.

Six of the 80 would have failed to have made the grade under the old lower standards. Under the stiffer new requirements, only seven flunked and were dropped from school. Fewer than 10, including varsity men, red-shirts and freshmen, are in probationary status and attending summer school to bring up their grades to be eligible in the fall.

The squad has not been hurt by the loss of those who did fail, Collier said, and he added that he was confident those in summer study would earn satisfactory grades, including several players who have met requirements but are taking summer classes so they may carry lighter loads during the regular terms.

The reason the Wildcats did so well in whipping the books? Well, basically, Collier thinks, it was just a case of desire among the athletes—their desire and determination to play college football and to play for UK. Sure, the coaches had a squad meeting at the start of the term to make sure that every boy understood he would climb or fall back off the scholastic steps entirely on his own efforts, they made compulsory a 2 and a half hour nightly study hall and they checked more closely than ever before on grades and progress.

What put the squad over that hump in the scholastic trail, though, was the same thing that produced a good spring practice this year—desire.

Collier goes with the idea that most of us do what we have to do, and not much more, and he feels that his gridders, just as other students, will meet whatever requirements are set.

If passing grades hereafter are to be "C," instead of the "D" which the schools have required these many years, more students will come from high school better prepared, more serious and more determined to obtain the most from their educational opportunities.

THE K

The UK chief, of course, is realist enough to know that the tougher academic hurdles will from time to time deliver real blows to UK football—as the higher composite standings are required of upperclassmen and as his team competes, in the country's toughest league, against schools with lower requirements. He can merely hope that overall effect is for the better.

ALUMNI NUPTIALS

1940

Pete Keig of Lake Forest, Ill., to Mrs. Susan Jackson Karstorn, '40, on April 25 in Deerfield, Ill.

1945

Dr. Jesse E. Adams, '45, of Lexington to Hattie Boewestter of Athens, Ala., on Feb. 21 in Nashville, Tenn.

1950

Thomas Rakins Spillman, '50, of Berea and Margaret Louise Crawley of Louisville on Feb. 14 in Louisville.

1952

Robert A. Stoehr, III, of Cincinnati to Margaret A. Hoinig, '52, of Ashland on Dec. 6, 1958, in Dayton, Ohio.

1953

Theodore Friedman to Suzanne Lois Neuman, '53, both of Lexington on April 12 in Lexington.

1954

John H. VanCleve, '54, of Calhoun to Ann Lloyd Igleheart of Utica on March 28 in Mt. Pleasant.

1955

Ronald Davis Hughes, '55, and Shirley Anne Blakeman, both of Lexington on Feb. 22 in Lexington.

Lt. Robert Edwin Jones, '55, and Shirley Jean Goodwin, '56, both of Lexington on Feb. 22 in Lexington.

1956

Robert Eugene Basta of Evanston, Ill., to Mary Keller, '56, of Flemingsburg on April 18 in Flemingsburg.

Alan Fredric Bloomfield and Dana Louise Stidham, '56, both of Lexington on Feb. 14 in Lexington.

Howard Leslie Schnellenberger, '56, of Louisville to Beverlee Ann Donnelly of Quebec Canada, on May 2 in Westmount, Quebec.

1957

George Emerson Jones, '57, of Mt. Olivet to Patricia Ann Hardy of Rice Station on Feb. 15 in Lexington.

Lt. Delanore Lee Cannon, '57, of Benton to Martha Josephine Hood of San Benito, Texas, on June 6 in Harlingen, Texas.

1958

Roy Barry Russell, '58, of Portsmouth, Ohio, to Betty Ann Gray of Lexington on June 27 in Lexington.

Robert Douglas McCullough, '58, of Lexington to Anna Ballantine Murphy of Charleston, W. Va., on June 27 in Charleston.

Robert Edward Simpson, '58, of Paris to Janet Louise Clayton of Oak Park, Ill., on March 21 in Oak Park.

Robert Howard Jones, '58, of Harlan to Betty Jane Marcum, '58, of Lexington on April 12 at Salyersville.

Gerl McKinney, '58, of Stanford to Joyce Evaree Caswell of Lexington on May 10 in Lexington.

William Gibson Simpson, Jr., '59, of Louisville to Jane Walker of Lexington on May 16 in Lexington.

Carl Edward Ford of Berea to Valerie Ann Smith, '58, of Lexington on April 4 in Lexington.

1959

William Davis Dickens, '59, of Lexington to Roberta B. Purcell of Nicholasville on June 27 in Nicholasville, Ky.

William Homer Sexton, '59, to Ebba Joe Haagensen, '56, both of Lexington, on June 6 in Lexington.

Richard Frederick Lombard, '59, of Hollywood, Fla., to Bobbie Ann Rader, '59, of Hazard on June 7 in Hazard.

ALMA MAGNA MATER

1950

To James Levin, '50, and Mrs. Levin of Louisville, a daughter, Zoe Ann, on January 25.
To Charles Dougherty, '50, and Mary Seale Dougherty, '47, a son in April at Pittsburgh.

1952

To William L. Lamb, '52, and Mrs. Lamb, of Lexington, a son this spring.

1953

To Arden Z. Heller, '53, and Mrs. Heller of Middletown, Ohio, a daughter, Nancy Kathryn, on May 5.

1955

To Lt. Charles E. Shinnick, '55, and Mrs. Joan Claassen Shinnick, '53, who are living in France, a daughter on March 31.

1957

To Glenn Dorroh, Jr., '57, and Mrs. Dorroh of Lexington, a son on May 14.

OBITUARIES

MRS. NANCY MOHNEY CALVERT, '42 died Feb. 25 in Cincinnati. Before moving to Cincinnati in 1951, she lived in Cleveland. Survivors include her husband.

MRS. MARY ANDREW LÖCKRIDGE CANNON, 1907 class, died April 17 in Mt. Sterling.

WILCE BURTON CARNES, '40, died on May 19 in Cincinnati. A former football player at UK, he was office manager for Progressive Motor Sales, Cincinnati. Survivors include his wife.

JOHN E. DONLEY, class of 1958, died on Jan. 9 in Norristown, Pa. He was an agriculture major at UK. Survivors include his mother.

HERBERT F. FELIX, '16, died on Feb. 7 in Franklinton, La. For several years he was principal of the Franklinton high school. He later taught at the Enon high school near Franklinton. Survivors include his wife.

JUDGE EMRA H. IRELAND of Evansville, Ind., died Oct. 29, '58. He last attended UK in 1903.

H. H. JEWETT, retired entomologist at the University, died April 2 in Lexington. He was a native of Ohio and came to UK in 1911. Survivors include his wife.

SAMUEL H. MCGUIRE, educational specialist with the Armed Forces Industrial College at Fort McNair, died on Nov. 24, 1958. He was graduated from UK in 1926 and was then on the faculty. He taught also at Morehead State College and Muskingum College, New Concord, Ohio. For six years he was director of the office of reports and analysis of the American Red Cross. Survivors include his wife.

ELIZABETH MICHLER, class of '38, died in Louisville on Feb. 18. She had been an engineer for the Navy Department in Washington.

KERN P. PATTERSON, '32, died on May 2 in Louisville. He was an employee of the State Department of Education. His wife preceded him in death.

B. G. ROADCAP, class of 1906, died March 28 in Louisville. He was a pharmacist in Louisville for 52 years and a past president of the Retail Veterans Drug Club. Survivors include his wife.
