KENTUCKY ELEMENTARY SCHOOLS
1968-69

FOREWORD

A review of the accreditation of elementary schools of the state for the school year 1968-69 continues to indicate that major progress is being made in most areas of elementary education.

Progress in the various areas reflects the great concern that elementary personnel have for meeting the individual needs of children. The importance of this concern is shown by improvement in the following areas:

- ✓ Expansion of curriculum offerings
- ✓ Increase of experimental programs
- ✓ Greater variety of teaching procedures and techniques
- ✓ The use of various teaching aids in quantity and quality which reached an all time high during this past year

Elementary schools with eight or more teachers are classified as Extended, Standard, Provisional or Approved. Appropriate standards and criteria adopted by the State Board of Education are written into regulations for accrediting the elementary schools.

You will note that there are still relatively few schools classified as Extended but you will also observe a gradual increase in the number of Standard schools and a slight decrease in the number of Provisional schools.

I trust this bulletin will be helpful to both elementary school personnel and others striving for a qualitative elementary school for each child in Kentucky.

ELEMENTARY SCHOOLS FOR THE SCHOOL YEAR 1968-69

There were 1,052 elementary schools accredited by the State Board of Education during the school year 1968-69. Of this number 699 were under the control of the county school districts and 218 were under the control of the independent districts. Nineteen (19) were state or federal and 116 were private schools. As will be seen, there was a variety of organizations according to the grades included in the type of organization. By far, the greatest number of organizations conform to a 1-8 type of organization or a 1-6 organization. Of these 455 were organizations offering a program from one through the eighth grade and 291 offered a program from one to six grades making a total of 746 schools out of 1,052.

Table I below shows the number of accredited elementary schools classified according to the type of control for six years from 1963-69.

1968-69	699	218	19	116	1,052

The total number of elementary schools operating in Kentucky including all of the elementary schools of seven teachers and below as well as the 1,052 accredited schools, numbered 1,585 schools. Of this number, there were 166 one-teacher schools compared to 248 one-teacher schools last year. Comparison of the schools of other sizes can be seen by study of the summary information included in the back of this book.

The number of pupils enrolled in the accredited elementary schools continues to grow. This year there were 471,406 pupils enrolled in these schools for the year. Of this number 314,233 were in the schools under the control of the county school districts, and 105,120 were enrolled in the schools under the control of the inde-

pendent school districts. The others were enrolled in schools which were operated by state or federal authorities or in the private schools.

In all of the elementary schools, there was a total staff of approximately 24,300 teachers, supervisors, principals, and other special instructional personnel serving during the school year of 1968-69. Of this number 20,022.8 were serving in the schools of eight or more teachers or schools accredited by the State Board of Education.

Table IV following shows the number of elementary schools accredited for the school year of 1968-69 compared with the school year of 1959-60, classified according to size.

TABLE IV
NUMBER OF ACCREDITED ELEMENTARY SCHOOLS FOR THE
SCHOOL YEARS 1959-60 AND 1968-69 CLASSIFIED
ACCORDING TO SIZE IN NUMBER OF TEACHERS

Size Classification	1959-60	Number	1968-69
8-12	401		265
13-16	215		261
17-20	100		165
21-24	71		130
25 and up	77		231
Total	864		1,052

It will be seen from a study of Table IV that the schools of 16 teachers and below, have decreased in number from 616 to 526 during the ten-year period while the schools of 17 teachers and above have increased from 248 to 526.

The trend in the development of the elementary schools throughout the state is towards the larger elementary school unit in order to make it practical to offer an effective program of education.
