16.1/2

A GREAT AND GROWING UNIVERSITY . . . THE UNIVERSITY OF KENTUCKY

Copy 1b

Truly one of the leading land grant institutions in the nation, the University of Kentucky has a national and international reputation in such diverse fields as medicine, business, engineering, law and agriculture.

Situated in the heart of the beautiful Bluegrass region of Kentucky, the main campus at Lexington has more than 23,000 students enrolled.

Another 19,000 students are enrolled in the 13 community colleges operated by UK at Ashland, Henderson, Cumberland, Elizabethtown, Prestonsburg, Hopkinsville, Somerset, Louisville, Paducah, Hazard, Maysville, Madisonville and Lexington.

UK is the largest employer in the Lexington/Fayette County area with 7,500 permanent, full-time employees on the payroll.

The main campus, near downtown Lexington, comprises about 625 acres of land.

The University of Kentucky has an outstanding residence hall system. Some 5,000 students live in the residence halls with another 1,500 students in UK's 25 fraternities and 16 sororities.

UK has a Graduate School and 17 academic colleges — Arts and Sciences, Agriculture, Engineering, Business and Economics, Education, Home Economics, Library Science, Social Work, Architecture, Communications, Fine Arts, Law, Medicine, Dentistry, Nursing, Allied Health Professions and Pharmacy.

UK is noted for its research efforts, especially in the fields of energy, tobacco and cancer.

UK's Institute for Mining and Minerals Research is a national leader in energy-related research, especially in the areas of coal liquefaction and gasification.

The UK Tobacco and Health Research Institute is a world-wide leader in research on the problems of tobacco

and health.

Kentucky is a tobacco-growing state, the largest producer of burley tobacco. The UK College of Agriculture has been responsible over the years for the development of 80 percent of the burley tobacco varieties grown anywhere in the world. Its research on tobacco diseases has saved farmers million of dollars.

Kentucky also is a world leader in the thoroughbred horse industry. Scientists at UK did much to save this industry a few years ago when a dreaded disease, called contagious equine metritis (CEM), struck the industry. And vaccines developed at UK for horses are being used all over the world.

Cancer related research funding at the University has doubled to more than \$4 million since 1974 when the Ephraim McDowell Community Cancer Network, an organization affiliated with UK, was founded.

In the arts, about 100,000 people attend the many art, music and theatre productions at UK.

A real boon to the arts at UK was the opening of UK's new Center for the Arts. The building contains a 400-seat recital hall, a 1,500-seat concert hall and the 20,000 square-foot UK Art Museum.

UK's Albert B. Chandler Medical Center, named for the former Kentucky governor and senator, A. B. "Happy" Chandler, has a wide range of programs in education and research.

The five colleges of the Medical Center — Medicine, Dentistry, Nursing, Pharmacy and Allied Health — have more than 2,000 students pursuing bachelor, masters and doctoral degrees in health-related fields.

The Sanders-Brown Research Center on Aging, one of the first facilities of its kind in the nation, was made possible by a matching grant from the John Y. Brown, Jr.

Foundation. It will enable UK scientists and researchers to study the biologic aspects of aging with the ultimate goal of improving the quality of life for the aging.

In athletics, the University of Kentucky features a total of 16 sports — 10 men and six women — while competing on the highest level of national collegiate competition.

The Wildcat basketballers are coached by Joe B. Hall, who took over from his old boss and former mentor, Adolph Rupp, in 1972 and has kept alive a tradition that places the University at the head of the list in total number of victories among the nation's collegiate cage schools. The record includes five NCAA championships and two runner-up trophies, two NIT, five Sugar Bowl, 19 UKIT, and 32 SEC championships, among others.

Wildcat football teams, under the guidance of Fran Curci, have shared a conference championship, won a Peach Bowl and compiled a 10-1 record during the past eight years.

The University has had only eight presidents since its founding in 1865. Dr. Otis Singletary, now in his 12th year as UK president, is a history scholar and nationally-recognized university administrator.

UK graduates almost 6,000 students each year from the main campus and the community colleges.

University
 of Kentucky

WELCOME TO THE UNIVERSITY OF KENTUCKY

Since you're using this map, you're probably a new student or a visitor to the University. If you possibly have time, be sure to take a tour aboard "Old Blue," the old double-deck English bus, donated to UK by the Alumni Association, leaves from the Administration Building Monday through Friday at 9 p.m., and makes the rounds of the campus community. Usually a student tour guide is on hand to give added color to college life, and to explain the many facets of the University and its 23,000-student body.

You are cordially invited to visit the University of Kentucky campus. Here are some other special campus attractions:

SCENIC VIEW . . . See Lexington and parts of Fayette County from the 18th floor lounge of the Patterson Office Tower. Visiting hours are 8 a.m. to 4:30 p.m., Monday through Friday.

ANTHROPOLOGY MUSEUM . . . This campus attraction is open from 8 a.m. to 4:30 p.m., Monday through Friday in Lafferty Hall. A cultural history of Kentucky is the featured exhibit.

ART MUSEUM . . . Located in the west wing of the new Center for the Arts. Open daily, except Mondays, from Noon to 5 p.m. Admission free.

If you would like further knowledge about UK, you may inquire about printed materials at the UK Publications Bureau, Room 101, Mathews Bldg., just to the right of the main gate on Limestone Street. Formal arrangements for campus tours can also be made here at University Information Services, phone: 257-2803.
