

GENERAL HEADQUARTERS
SOUTHWEST PACIFIC AREA

September 17, 1943

Dear General Rankin:

I'm enclosing a snapshot I made of a small group, including you, during one of your inspection visits here which I thought might be interesting for your scrapbook...plus a clipping.

I know that the Signal Corps photographers photos made during your swing around the circuit also include you a number of times and suggest that you request some of the prints from the Army Pictorial Service or the Signal Corps.

It was a pleasure to be in your company on some of your visits and I sincerely hope you pay us another and longer visit in the not too far distant future.

With sincere regards,

Larry
