

MEDICAL SCHOOL
THE DEPARTMENT OF PHARMACOLOGY

My dear Rankin -

If the Army and Navy and Marines had more men of great medical understanding and hearts of gold in them such as you and Hugh Morgan we would not only win the war but the entire bunch would win their way into Heaven and then there would be a seat to ~~the~~ which arm of the Service sat on the right hand of the hand God Almighty. All of which is a preamble to express to you my deep appreciation for your great thoughtfulness in keeping in touch with Julius Taylor at the Walter Reed Hospital. God bless you. Never in the history of medicine have armed forces received such consideration and you and Hugh are in no small measure responsible for it.

I am for you

W. J. Deshler
