Lexington, Kentucky.

Dear Dr. Rankin:

My heartiest congratulations for your election as President of the American Medical Association. We in Baltimore were all delighted to hear of it.

It reminds me of the Carolina darky being treated by a medical man who finally called a surgeon in consultation. The darky asked if the surgeon were a "cuttin" doctor and on receiving an affirmative answer said, "My, my, I must be sick to have a cuttin' doctor, cause that's the highest they is." So that is the way we feel about you now since you added another laurel.

My best to you and to Coley when you see him.

Respectfully yours,

Harry Hull
