Dear Fred:

My warmest congratulations on your election to the presidency of the American Medical Association. It is an honor well deserved.

I always rejoice when happiness comes your way. I am constituted that way. I have always been known as an individual of unswerving loyalty to my friends and you have shown your friendship to me in the past. Hence, I rejoice in this new, well-merited honor.

You, undoubtedly, are receiving the Journal of the International College of Surgeons. It is coming along beautifully. I am sending you an advance copy of the June issue.

We have 6,000 readers - 4,000 in the United States and 2,000 in Latin America.

I should like to make the proper announcement of your election to the presidency and I would appreciate if you would send me a glossy print of yourself. I can get your curriculum vitae from Morris Fishbein. Or, if you prefer I will have Morris send me the cut which they have run in the Journal. He is very cooperative that way.

It will interest you to know that my book on **MODERN SURGICAL TECHNIC** has had four printings in one year. It has just been translated into Spanish and Portugese. Its popularity exceeds all my expectations. This makes me happy.

My book on **SURGICAL ERRORS AND SAFEGUARDS** has seen three or four editions and I am working on a new one now which is to be out by the first of the year. The first foreword was written by Dr. Bevan. To this new edition, I will be honored if you will write the foreword.
