

as you know he had previously  
finished the training  
at Miami before going  
to Spokane.

My husband asked  
me to also extend to you  
his congratulations, we  
were both very happy to  
hear about it.

Best wishes to you and  
Edith  
Sincerely

Susan Offett Edmundson

Walter Edmundson reported  
to Randolph Field yesterday.  
From what we read in  
his letter his making a  
good soldier and he is very  
appreciative of the training  
he has had in the Air Corps.  
It is almost unbelievable  
the education and  
training they are given.  
He was stationed at the  
Base Hospital Fort George  
Wright, Spokane and  
there had experience in  
medicine including  
neuro-psychiatry and  
received his appointment  
to Randolph Field from there.
