

Minutes of the University Faculty - Feb. 21, 1944

on the campus during the remainder of the current period. He suggested that nothing should be left undone to have the University fully prepared for a great influx of students following the war.

President Donovan also announced the general convocation to be held in Alumni Gymnasium on February 22, with Governor Willis and Major General Charles Scott scheduled as the speakers.

Leon M. Chamberlain
Secretary

Minutes of the University Faculty - March 13, 1944

The University Faculty met in the Assembly Room of Lafferty Hall Monday, March 13, at 4 p.m. President Donovan presided. Members absent were E. F. Farquhar, W. F. Gallaway, W. B. Hamilton, Bernie Shively, B. E. Brewer, W. P. Garrigus, H. B. Price, J. S. Horine, and Vincent Spagnuolo.

The minutes of February 21 were read and approved.

The following recommendations from the College of Arts and Sciences were presented to the University Faculty by Dean Boyd:

1. That the following psychology courses be listed also as sociology courses:

Sociology 9. Individual Development and the Group. (Same course as Psychology 8, Individual Differences).

Sociology 21. The Child in Society. (Same course as Psychology 7, Psychology of the Child.

Sociology 104. Social Psychology. (Same course as Psychology 104, Social Psychology).

Sociology 111. Psycho-Social Relations in Industry. (Same course as Psychology 106, Industrial Psychology).

These courses are to be taught, as in the past, by members of the Psychology Department.

2. That the following new course in physics be approved:

Minutes of the University Faculty - March 13, 1944

Physics 208. Electromagnetic Microwaves. 6 quarter hours. A review of electromagnetic wave theory with emphasis on solutions of Maxwell's wave equations and their applications to the modern problem of microwave transmission. Plane, rectangular and cylindrical wave guides are treated, and the special problems of transmission at hyperfrequency are studied. Lectures and assigned problems. Prerequisites: Mathematics 105a; and Physics 111, Electrical Engineering 133, or equivalent.

3. That a freshman honorary scholarship society for men corresponding to Alpha Lambda Delta, already existing on the campus for freshman women, be established. Phi Eta Sigma, a national honorary scholarship fraternity for freshman men of all colleges, is here recommended.

It is also recommended that the Assistant Dean of the College of Arts and Sciences be charged with the responsibility of approaching the national organization and that in so doing he enlist the advice and assistance of appropriate student and faculty groups.

4. That the section (pp. 17-18) on "Fraternities and Sororities" in the Rules of the Faculty of the University be re-examined and that the classification of the "University organizations" be re-defined so as to distinguish more clearly between Professional, Honor and Class societies and if necessary to add new classifications; that in so doing the difference between organizations popularly regarded as "honorary" and those which are merely clubs and have no membership requirements, except a declared interest in the objectives of the organization, be carefully stated; and that minimum scholarship requirements be established for all organizations popularly known as "honorary".

It is recommended that in the achievement of these recommendations the following definitions, based in part on a program adopted by the National Commission on Fraternities and Sororities in October, 1943, be considered when the University's definitions of societies and their functions are formulated:

1) An Honor Society: An association which received into membership individuals who have achieved creditable scholarship and who fulfill such additional requirements of distinction in some field of education and culture or in general leadership as the society has established; which elects to membership irrespective of affiliation with other specific organizations and associations; which confers membership solely on the basis of character and other specific eligibility. Honor societies shall be classified as follows:

a. Scholarship Honor Societies: Associations which base eligibility and election to membership primarily upon the attainment of a high standard of scholarship.

Minutes of the University Faculty - March 13, 1944

b. Leadership Honor Societies: Associations which base eligibility and election to membership primarily upon meritorious attainment in all-round leadership in student affairs.

It is suggested that Leadership Honor Societies be sub-divided into two groups; those selecting their membership from a particular University class and those selecting their members from the student body regardless of class.

2) A Recognition Society: An association which bases membership on achievement within a given course, department, or special field or interest. It differs from the honor society in that its field is small and specialized.

3) A Professional Society: A specialized association which limits its membership to a specific field of professional education and which organizes its group life specifically to promote professional competency and achievement within its field.

4) A Club: An association which is open to all who express an interest in the objectives of the organization.

5) A Social Fraternity and Sorority. A group which selects its members from all colleges of the University and which organizes the group life of its members as a contributing factor to their educational program, with special emphasis upon personal development and social competency.

It is also recommended:

1) That each student organization be specifically classified under appropriate classification heads, such as those described above, the objectives and functions of the organization to determine its classification:

2) That minimum scholarship requirements be established as prerequisites for membership in all Scholarship and Leadership Honor Societies and for all Recognition and Professional Societies. It is recommended, however, that these minimum scholarship requirements vary from one group of societies to another and between the two divisions of the Leadership Honor Societies.

The course changes recommended under (1) and (2) above were approved. With reference to the establishment of a freshman honorary scholarship society for men, the Faculty voted to request Assistant Dean M. M. White to approach Phi Eta Sigma, a national organization of this kind. He was instructed to examine the possibilities of establishing a society, to be affiliated with this national and to report back to the Faculty.)

The recommendations contained under (4) above, dealing with campus organizations, were referred to the Rules Committee.

Dean Funkhouser read to the Faculty a report from the Graduate Faculty, recommending the following persons for honorary degrees,

Minutes of the University Faculty - March 13, 1944

to be granted at the commencement in June, 1944:

1. Simeon S. Willis, Governor of Kentucky - LL.D.
Admitted to Kentucky Bar, 1901; City Solicitor of Ashland 1918-22; Member, Board of Bar Examiners, State of Kentucky, 1922-28; Associate Justice, Court of Appeals of Kentucky, 1927-33; elected Governor of Kentucky, 1943; Editor, Thornton's Law of Oil and Gas, Fifth Edition, 1931.
2. Frederick Moore Vinson, Washington - LL.D.
A.B. Centre College, 1909 (Ormont Beatty alumni prize winner); LL.B. 1911 (Jacobs junior law prize and senior law prize winner); LL.D. 1938; City Attorney, Louisa, 1913; Commonwealth Attorney, 1921-24; Member of Congress, 1923-29, 1931-37. Associate Justice, U.S. Court of Appeals for the District of Columbia, 1937-43; U.S. Director of Economic Stabilization, 1943 --
3. Jesse Hilton Stuart, Riverton, Ky. - Litt. D.
A.B. Lincoln Memorial University, 1929; Student, Vanderbilt University, 1932-33; Peabody College, summers of 1930, 31, 35; awarded Guggenheim Fellowship for European travel, 1937; awarded Thomas Jefferson Southern Award. Author: Man with a Bull-Tongue Plow, 1934; Head O'W-Hollow, 1936; Beyond Dark Hills, 1938; Trees of Heaven, 1940; Taps for Private Tussie, 1943; numerous magazine contributions.
4. Francis Stephenson Hutchins, Berea College - LL.D.
A.B. Oberlin, 1923; A.M. Yale, LL.D., Lake Forest College, 1935. Instructor Oberlin-Shansi Memorial Schools (China), 1922-4; Yale - in China Association (Changsha) 1926-27; Shantung Christian University (China), 1927-8; Representative, American Trustees of Yale in China Association, 1928-39; Executive Secretary, Changsha International Relief Committee, 1938-39; President of Berea College since 1939.

The Faculty voted to recommend each of the above named persons to the Board of Trustees for the degree indicated.

President Donovan read to the Faculty a suggestion by Dean Taylor, that all members of the University Staff of the rank of assistant professor and above be invited to attend meetings of the University Faculty, though without the privileges of discussion and voting. On motion, duly seconded, this recommendation was approved by the Faculty.

President Donovan announced to the Faculty the two lectures to be given this spring in the College of Arts and Sciences Lecture Series. On Tuesday, April 4, the speaker will be W. D. Funkhouser and the topic, "Some Ethnological Factors in a World Peace". On

Minutes of the University Faculty - March 13, 1944

April 11, the speaker will be A. C. McFarlan and the topic, "A Hobby Grew Up." He indicated that the other two lectures in this particular series would be presented next fall by Thomas D. Clark and A. Capurso.

Leo M. Chamberlain
Secretary

Minutes of the University Faculty - April 10, 1944

The University Faculty met in the Assembly Room of Lafferty Hall Monday, April 10, at 4 p.m. In the absence of President Donovan, Dean Chamberlain presided. Members absent were E. F. Farquhar, B. E. Brewer, L. A. Bradford, W. P. Garrigus, L. J. Horlacher, H. B. Price, J. S. Horine, M. E. Ligon, James H. Graham, Frank D. Peterson, and Vincent Spagnuolo.

The minutes of March 13 were read and approved.

The following recommendations of the College of Arts and Sciences were presented to the University Faculty by Dean Boyd:

New Courses and Changes in Courses

I. Geology

51a. Elements of Geography. Meterology. An introduction to the physical processes controlling weather. Four lectures and recitations per week. No prerequisite. Four quarter hours.

51b. Elements of Geography. Climatology. Principles of climatology and a study of the major climatic regions of the world. Four lectures and recitations per week. No prerequisite. Four quarter hours.

51c. Elements of Geography. Landforms, soil, water and mineral resources and their relation to world populations. Four lectures and recitations per week. No prerequisite. Four quarter hours.

Note: These courses are to replace Geology 24a,b, Elements of Geography.

II. Sociology

112. The Community. Changed from Sociology 8 (same title)

18. Comparative Sociology. To be reinstated in the list of live courses.
