Genl Wm Withers Esq
 Sir would you please
 send me one of your Catalogue
 Stone's are giving very kindly
 at present and are looking
 well and I think if she continue
 to drive well she coming
 winter without accident she
 will forget her previous
 misfortunes. She has not ^{fin} forced
 this past summer but in the
 spring I intend to ^{now} her speeded
 a little I think her movements
 as a Trotter are almost Perfection
 I don't think they find them any
 finer gaited then Stone's
 That is the opinion of every one
 that sees her that it is a
 pleasure to ride behind her
