

# National Honors Won By Kernel Cartoonist

Kernel editorial cartoonist Ray Cravens has tied for first place in a nation-wide safe driving campaign in college newspapers.

His prize-winning cartoon, which appeared in the Dec. 20 edition of the Kernel, was judged in the tenth annual college newspaper

safe driving contest, sponsored by the Lumbermen's Mutual Casualty Co., Chicago. First prize in the cartoon competition was \$100.

It was the first time Cravens had entered his

work in a contest since he has been at the University of Kentucky. He has never taken any courses in drawing, but pursues it as a hobby.

A graduate student in political science here, Cravens is a candidate for a doctorate in philosophy. He has been editorial cartoonist for the Kernel since the fall of 1956.

While he was serving as an Air Force reserve officer in the South Pacific in 1954, the cartoonist won first prize for a flying safety poster in world-wide service competition.

Cravens received his bachelor's and master's degrees from Western Kentucky State College. He lives in Cooperstown with his wife, Ann.

## Baker Honored By Ky. Jaycees

Dr. Merl Baker, UK Mechanical Engineering professor, is one of three young Kentuckians judged outstanding for 1957 by the Kentucky Junior Chamber of Commerce. The others are Don S. Sturgill, Lexington, commissioner of public safety, and Dr. James E. Croley, Jr., mayor of Pineville.

Dr. Baker, 33, is executive director of the Kentucky Research Foundation. He is credited with greatly increasing the number of grants and contracts for research programs at UK.

Holder of a Ph.D. degree from Purdue University, he has done basic research in the field of heat transfer and thermodynamics, which contributes to the store of knowledge important to the development of rockets and satellites.

In explaining the importance of

heat transfer to satellites, Dr. Baker said "excessive heating produced by friction with the air will cause objects (satellites) to burn up unless an adequate cooling system is incorporated."

Dr. Baker is also credited with bringing the 1961 meeting of the American Society for Engineering Education to Lexington. This meeting will bring almost 3,000 leading engineering educators and many industrialists from throughout the nation to Lexington.

The three young men were selected by a judging panel of Kentucky leaders on the basis of their contributions to civic life and welfare of their communities and state and all-around leadership ability. They received their awards at the recent Kentucky Junior Chamber of Commerce banquet in Bowling Green.

In 1953, Dr. Baker received a Gold Medal Award from the American Association of Mechanical Engineers for having made the outstanding contribution to mechanical engineering in the first 10 years after receiving a baccalaureate degree.

Dr. Baker received his B.S. degree from UK and his M.S. and Ph.D. degrees from Purdue. He has published technical articles in several magazines.

He and his wife, Emily, also a UK graduate, have two children, age four and two.

MERL BAKER

## Re-Organization For SGA Is Under Consideration

A new plan of organization featuring better communication and representation between students and the student governing body has been presented to the SGA for consideration.

The new system, as proposed by the SGA Organizations Committee, would entail a Senate consisting of two members from each of the colleges of the University, and a House consisting of representatives of the organizations on campus.

The organizations represented in the House would be allowed one representative per 200 students, with no organization having more than five representatives.

An alternate plan for the representation in the House was offered. It included representatives from each sorority and fraternity, as well as those from the major campus organizations.

Several months ago SGA President Dave Ravencraft appointed this committee to study the present organization and functioning of the SGA and recommend and changes that would better it in any way.

The results of this study were reported Monday night by Pete Perlman, chairman of the Organizations Committee. His committee reported that they had found the present system outmoded and unrepresentative of the majority of the students.

Perlman stated that his committee, and the other organizations they had worked with, felt that representatives to the SGA should have a tangible group to be responsible to. This is not true of the present representative system.

After discussions with the Inter-Fraternity Council, Panhellenic, Men's Residence Halls Governing Council, Women's House President's Council, and a group of 150

## Opera Star To Appear In Concert Series

Coloratura Soprano Star of the Metropolitan Opera, Roberta Peters, will appear at the Coliseum, Wednesday, Feb. 19th, at 8:15 p.m. She is well-known for her appearances on such television programs as "Voice of Firestone" and "The Ed Sullivan Show."

Miss Peters will sing 18 selections including works by Rossini, Ravel, Debussy, Richard Strauss, and Schumann. She will be accompanied by George Trovillo, pianist, and James Genus, flutist.

Born in New York City and completely trained in America, she won a Metropolitan Opera contract when 20. RCA Victor has flown her to Rome to record complete operas. Sir Thomas Beecham took her to London to star in his Festival of Britain production of "The Bohemian Girl" at the Royal Opera House.

Miss Peters, currently on her

sixth concert tour of the U. S. and Canada, is sponsored by The Central Kentucky Concert and Lecture Series.

ROBERTA PETERS

## Kyian Queen Crowning To Be Saturday

Thirty-two coeds will compete tonight in Memorial Hall for the title of Kentuckian Queen, 1958. She will be crowned tomorrow night at the Kentuckian Dance in the Student Union ballroom. All but five of the contestants will be eliminated by three judges tonight in a contest beginning at 7:30 p.m. They will be judged on the basis of beauty alone.

At a luncheon tomorrow afternoon at the Lafayette Hotel, a panel will select the queen, the two attendants and the two members of the court, this time judging on poise and social grace.

Charlie Blair and his orchestra will provide music for the dance, which lasts from 9 a.m. to 1 a.m. Girls attending the dance will have 1:30 a.m. permission. The coronation will take place at 11 p.m. The dance will be semi-formal.

Admission to the dance is \$2 per couple in advance sales, and \$2.50 at the door. Tickets will be on sale today in the Kentuckian office, 210 Journalism building, and tonight in Memorial Hall.

This year's Kentuckian Queen will also be UK's representative to the spring Mountain Laurel Festival in Pineville.

The arrangement grew from an agreement between Dean of Women Doris M. Seward and the Kentuckian. Formerly, the office of the dean of women was in charge of selecting the Mountain Laurel Queen candidate.

JOHN EGERTON

JIM BLAND

## Two Changes Made On Staff Of Kernel

The Board of Student Publications has named Jim Bland, a Journalism senior from Louisville, to succeed Frank Strunk as editor of the Kernel.

Bland was moved up from his post as make-up editor when Strunk resigned to accept a position with a Lexington paper. The board appointed John Egerton

to the make-up post vacated by Bland. Egerton, a senior topical major from Cadiz, will continue his duties as promotion manager.

Both Bland and Egerton are Army veterans and members of Sigma Delta Chi, men's professional journalistic fraternity. Bland has an overall standing of 3.0, while Egerton has a 2.9.

### ID CARDS

Student ID cards may be picked up from 9 a.m. to 4 p.m. in the lobby of Memorial Coliseum, Monday, Feb. 17. Students who have not yet had pictures made for ID cards may do so from 9 a.m. to 1 p.m. at the Coliseum Monday. This will be the final date for taking pictures.

## Committee Reports On Kammerer

A UK faculty-board of trustees committee has recommended that the University administration review the case of Dr. Gladys Kammerer of the Political Science Department, and Pres. Frank G. Dickey has said there is "no reason why the recommendation should not be followed to the letter."

The committee, composed of three members of the faculty and three members of the board of trustees, was formed last fall to review all complaints of the faculty. Dr. Kammerer came under consideration when she said she was denied a salary increase because she had spoken out against Gov. Chandler's changes in the state's Child Welfare program.

When Dr. Kammerer's statement was made public last July, Dr. Dickey said her actions over the years had made for bad public relations for the University. The controversy developed after Dr. Kammerer was named "Distinguished Professor of the Year" and did not receive the customary pay increase which has accompanied the honor in the past.

The committee's report said in part that "... the merit of Dr. Kammerer be restudied thoroughly and if this study indicates merit that has been overlooked, that a proper adjustment in salary be made."

Dr. Dickey told a Kernel reporter yesterday that he felt "the

(Continued on Page 7)

## Dickey Says UK Will Get Budget Raise

UK is assured of an increase of \$3,790,800 for operating expenses and \$7,500,000 for buildings in the next two years, President Frank G. Dickey said this week.

The bulk of the increase for new buildings would be \$6 million for the new medical center. The rest of the capital outlay—\$1,500,000—is marked for three off-campus centers at Covington, Cumberland, and Henderson. In addition, \$6 million is encumbered for medical school expenses in 1960-62.

State appropriations to the Division of Colleges in 1958-60 should increase by \$1,122,000 for operating expenses. The Division of Colleges will have an additional \$240,000 for 1958-59 for the start of an IBM computing center for training and research and the full operation of the Ashland Center.

The Agricultural Experiment Station and the Agricultural Extension Service would get increases of \$203,000 and \$147,000, respectively, over current operating expenses in the next biennium.

**Rush Party**

The usual round of rush parties got under way this week with fraternities and sororities entertaining prospective pledges. Here two actives help rushee Kay Vaughan don her coat. They are, left to right, Fran Gray, and Melinda Rosenbaum. Rushee Claire Hudgins looks on. The girls were guests at a Mardi Gras party.

## Exotic Foods Highlight Cosmopolitan Club Dinner

Food from at least nine foreign countries will be served at the Cosmopolitan Club's annual international dinner next Sat., Feb. 22, at 6 p.m. in the dining room of the Second Presbyterian Church.

The menu includes Italian pizza, Hungarian paprikas csirke (chicken), Indian fried rice, French

bread, Swedish rye bread and liver schnitten, an Austrian-Hungarian pastry.

Other dishes include gado gado, a salad composed of 15 ingredients such as cabbage, roasted peanuts, bean sprouts, green beans, and coconut. Sooshi, which is made of nori (seaweed) wrapped around rice balls with a filling of egg, sesame seeds, and spinach, in the center, will also be served.

After the dinner, club members will present a musical and dance program in native costumes, representing Japan, Mexico, Korea, Germany, Austria, Indonesia and France.

## Fight For Your Rights!

Within the next few weeks, more than 30,000 college students will practically lose their right to vote unless they stand up and fight.

There are, at present, two bills in committee in the State Legislature which would provide for the repeal of the absentee ballot except for use by members of the armed forces and their spouses. These are House bills 38 and 118 which were introduced last month.

This move to repeal the absentee vote was brought about because 13 counties were suspected of irregularities in the administration of the absentee ballots last spring. Rather than repair the bill to the point where such acts are impossible, the legislators want to penalize the residents of the other 107 counties. This is clearly a case of throwing away a whole barrel of apples because there are two or three rotten ones.

*If passed, and there is much sentiment for the repeal bill in Frankfort, this would deprive most college students and all Kentuckians employed by the Federal government in the District of Columbia of the right to vote.*

They probably make up a good percentage of the intelligent voters in this state.

Only slightly over two years ago, the people of this state saw fit to let 18-year-olds have the voting franchise. Now, the legislators propose to take away that franchise from the college students—the more intelligent of the teen-age voters—and leave it for the less intelligent which still reside in their home county.

*This is sheer nonsense! It amounts to a penalty for attending college. College students can't afford to lay out of classes a day or two to return home—perhaps several hundred miles—to vote on election day. It would hurt their grades and their purses.*

Two colleges in the state have already protested against the bill, Georgetown and Eastern. The students signed petitions and representatives of the student body appeared at Frankfort to protest. Such a movement is underway on campus.

*The Kernel heartily endorses it and suggests that the student body do likewise by putting their signatures to the petition.*

The right to vote is one of the basic rights and privileges of a democracy. Lose the right to vote and you lose the right to protest, make changes, or choices, and the other freedoms which are so often taken for granted.

*If students want to keep these rights, they'll have to fight for them.*

## UNIVERSITY SOAPBOX

# Dr. Anderson Opens Series On Russian Education

(Ed. Note: This is the first of 12 sections which will run in the Kernel during the next few months. This series is an analysis of the Russian educational system and how it compares with the American system. It was written for the Kernel by Dr. C. Arnold Anderson of the Sociology Dept. He has been working specifically on Russian education. The UK faculty research fund helped finance Dr. Anderson's study.)

### I. RUSSIA, TOO, DOESN'T KNOW WHAT TO DO ABOUT ITS SCHOOLS

During World War II and within a short period the U.S. produced the atom bomb. It was during this same period, as some will remember, that the military, employers, and all the self-appointed critics were crying that American education had deteriorated. It was only a small group of talented men, furnished with unlimited resources, who developed the bomb in a crash program. But the craftsmen who built the delicate instruments for Oak Ridge were equally essential for this success. Perhaps, after all, the quality of the American schools was less important than the abundance of resources and the concentration of skills on the project.

In the same way the production of Sputnik proves little about the general quality of Soviet schools. Obviously Russia has at least a few schools training some outstanding scientists and engineers. Their crash program did the rest. But their victory did not come out of nothing. Few Americans know that the first textbook in the world on aeronautics

was published in Russia before the first world war. Indeed, many of the best senior Russian scientists were educated in universities developed in the Tsarist period.

France, on the other hand, has long had excellent schools, but relatively few discoveries come out of France today. One cannot make sweeping generalizations about schools on the basis of random spectacular examples. In order to get a reliable picture we must consider the whole range of schools in both Russia and the U.S.

In these short articles on Russian education the purpose is not to prove that either school system is superior but only to give a clear description of the main features. At the outset it is necessary to face up to the fact that the external features of the two educational systems have a great deal in common. Europeans are as much impressed by the similarities of the two nations as by their differences. In 1835 the French observer De Tocqueville wrote: "There are at the present time two great nations in the world, which started from different points, but seem to tend towards the same end. I allude to the Russians and the Americans." There are fundamental contrasts in purpose, spirit, and political setting of these two school systems. But they become more alike each year and at the same time find they must struggle with the same problems.

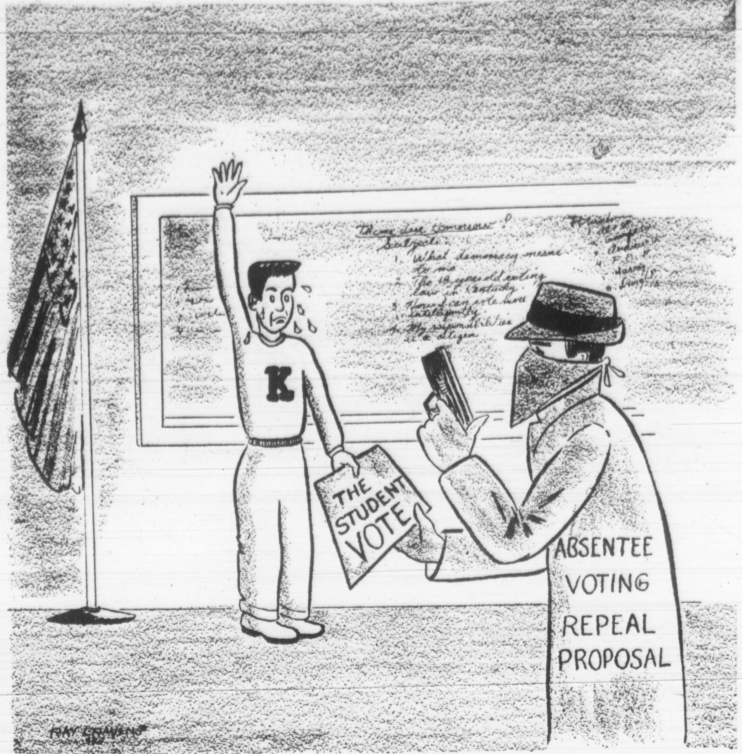

Until the last few years the primary educational task for Russia was to spread literacy and develop the basic industrial skills. Their relatively few scientists and engineers concentrated on copying the best knowledge and machines of the rest of the world. Except in weapons and a few other fields, pioneering work has been emphasized only in the last few years. We, on the other hand, were among the most productive scientific nations.

We have tried to do original work, with all too few men for the job. Our best men have been scattered over all fields of knowledge. Much of our best talent was used to improve consumer goods such as television or automobiles or lawnmowers. The Russian government had little interest in helping consumers live better.

There has been too much tendency in discussions on this subject to compare the best Russian features with our typical schools. The Russian system, like ours, is a very spotty one. Their teachers are underpaid. Their rural schools are inferior. Most of their children receive far less than the intended amount of schooling. In turn, we have some of the best primary, secondary, and higher schools in the world.

It would be foolish and premature to conclude that we should remodel our schools on the Russian plan. First of all, as mentioned, Sputnik proves little. Second, the real task is to decide which parts of our system are doing a good job and which need rebuilding. Finally, to ape them by throwing all our emphasis upon science and engineering would be to confess that their system of life is really better than ours. We could not actually copy their school system without copying many other parts of Russian society. We can strengthen those schools and programs we now have which have proved they can deliver the particular Russian results that we do want to copy.

There must be a lot of American professors and teachers enjoying some sour laughs these days. Just a few years ago they were accused of misleading American youth and of spreading foreign, even Russian ideas. Now, suddenly their critics want to copy wholesale from Russia. Now our teachers must save the country.

Alright, Hand It Over

## Open Letter From Editor

In a recent staff change, the author of this editorial was named editor of the Kernel for the second semester, succeeding Frank Strunk.

Mr. Strunk set a high standard which it will be difficult to measure up to. But I shall do the best possible to meet that standard.

As far as the basic Kernel policies go there will be no major changes. The Kernel may differ in some small way from that of last semester, but not to such a degree that it will be overly obvious.

If anyone on the campus has a gripe or an opinion which he thinks should be aired or some information which the student body should be aware of, the Kernel wishes to know about it.

Any letter to the editor which is signed and not of a libelous nature will be printed. The writer's name will be withheld on request.

These have always been the policies of the Kernel and will continue to be.

## New Look For SGA?

The plan to re-organize the Student Government Association here is worth the careful consideration of not only members of the assembly, but the student body as well.

Under the proposed system, SGA will be in closer contact with the students. At the same time its members will represent more workable and better defined segments of the student body. Much of the apathy on campus regarding SGA in recent years can be traced to the fact that the members of the organization have been in poor communication with the interests they represent.

Any move which would facilitate the relations between students and their representatives in campus government would stimulate much needed interest as well as give impetus to the governing body.

While it may disquiet a few, the new plan has the advantage of subordinating all other student organizations on campus to SGA. There can be no other alternative if such a thing as student government is to exist.

Should SGA decide to revise its framework and constitution, it will have to be ratified by a vote of the students. If and when an election is held, it will be interesting to see how many of the decriers of the association will be outspoken enough to vote for a change.

Dredging The Channels:

# Behind-The-Screen View Of Television Taken By Satirist

By JIM HAMPTON

We have just been apprised of the fact that there are more than forty million television sets scattered across this vast domain of we, the people of the United States. And every night, in clapboard shack and pillared manse alike, a large segment of our populace sits with eyes transfixed on the luminescent rectangle across the room. They await with keen anticipation their favorite programs, absorbing in the meantime varying amounts of phraseology concocted by advertising firms and purporting to show that the consumption of the sponsor's product will make the viewer healthy, wealthy and socially acceptable.

Also dedicated to the progress of television are the unseen hordes of writers, producers, designers and others whose contributions make up the finished show as it appears on the networks' stations. Utilizing their manifold talents and their sponsor's tax-deductible budgets, these artists provide what amounts to a lion's share of the intellectual diet of many an American household. Few children know who Tom Palne or George Washington Carver were, but nine out of ten can probably identify, on first sight, a picture of Captain Viedo. Let us pause to examine this thing called television, and take a look at the effect it has had upon the common weal.

Those of us who are not more gainfully employed can turn their sets on early in the morning and find edification and pertinent facts gushing forth from their Super Aurophonic sets—information, on issues of vital national importance, to wit:

At an hour when most of us are going to class or work, one can watch Cartoon Capers, a laugh-a-minute collection of archaic animation which some sharp movie producer unloaded on the television stations at a tidy profit. By merely flicking the knob to another station, one can behold the wondrous adventures of Captain Kangaroo as they unfold before his very eyes.

Later in the morning, when husbands have been banished to the office and the kids (clad in Mickey Mouse shirt and coonskin tarboosh a la Crockett) deposited at school, the harried housewife can take a breather and follow the latest adventures of any number of soap-opera heroines. These heart-rendering, soul-searching romances have been known to render the strongest woman prostrate with grief at the cruel blows which fate has dealt Linda Lightheart, girl stenographer.

It is in the evening, however, when the whole family gathers in living room or den, that television's finest efforts are trotted out for the public's approval. Then, while half the nation watches with breathless, bug-eyed awe, one can see John Q. Ordinary win yaehs, trips around the world and college educations for answering questions such as "Where is the Brooklyn Bridge located?" and "Who were the parties in the famous case of Marbury versus Madison?" The less erudite contestants must be and an occasional mink coat.

## Reader Terms Kernel Story 'Despicable'

My Dear Mr. Hampton:

After reading your recent despicable article in the "Kentucky Kernel," I felt not only compelled, but duty bound, to write this letter of contradiction. I don't know why you felt you had to drag the name of one of the finest rock and roll performers in the United States into the mire, but I'm quite sure you had no basis for your statements concerning Little Richard. Have you ever seen this great artist in person, Mr. Hampton? Do you even know anything about him? Did you know that only a few short months ago, Mr. (Little) Richard Penniman cast his opulence into the sea to prove to the world that he was ready to serve his Maker by entering the ministry? Yes, he is now an ordained Baptist minister!

I have been privileged to view Mr. Penniman and his band on three occasions [sic], and I have never witnessed such a display of talent and versatility [sic] before or since. You wonder at the use of the word privilege, Mr. Hampton, but let me relate some of the performer's background to you.

Richard Penniman was born into a large Negro family just twenty-one years ago. (Do you start at the word Negro?) The family's material wealth was small, but they were richly endowed by close family unity. Mr. and Mrs. Penniman were soon to watch their small son, Richard, grow in stature and sing and play the piano in the church choir. After appearing on local radio stations, and cutting several records, Little Richard soon gained fame and fortune with his first hit record, Tutti Frutti. Have you ever danced across a crowded floor to such tremendous recordings as Lucille, She's Got It, Keep A'Knocking, Miss Ann, and countless others, which were not only sung, but composed by Little Richard, himself?

Ponder these questions! Meditate these facts thoroughly! Were you fair, Mr. Hampton? More important, are YOU prejudiced?

Linda Jane Montgomery  
Christian College  
Columbia, Missouri

(We must admit that we have not seen this "great artist" in person, since just hearing him is more than we can tolerate. And we know little and care less about him, except that he "cast his opulence into the sea" and became a Seventh Day Adventist, not a Baptist, minister. As to the rest of your letter, we're still pondering and meditating that!—E.D.)

### BE IT EVER SO HUMBLE

Today let us apply the hot white light of sustained thinking to the greatest single problem besetting American colleges. I refer, of course, to homesickness.

It is enough to rend the heart, walking along a campus at night and listening to entire dormitories sobbing themselves to sleep. And in the morning when the poor, forlorn students rise from their tear-stained pallets and refuse their breakfasts and shamble off to class, their lips trembling, their eyelids gritty, it is enough to turn the bones to ash.

What can be done to overcome homesickness? Well sir, the obvious solution is for the student to put his home on rollers and bring it to college with him. This, however, presents three serious problems:

1) It is likely to play hob with your wine cellar; many wines, as we all know, will not travel.

...the little matter of getting your house through the Holland Tunnel!

2) There is the matter of getting your house through the Holland Tunnel, which has a clearance of only 14 feet, 8 inches. This, of course, is ample for ranch houses, but quite impossible for Cape Cods, Georgians, and Saltboxes, and I, for one, think it would be a flagrant injustice to deny higher education to students from Cape Cod, Georgia, and Saltbox.

3) There is the question of public utilities. Your house—and, of course, all the other houses in your town—has wires leading to the municipal power plant, pipes leading to the municipal water supply and gas main. So you will find when you start rolling your house to college that you are, willy-nilly, dragging all the other houses in town with you. This will result in gross population shifts and will make the Bureau of the Census cross as bears.

No, I'm afraid that taking your house to college is not feasible. The thing to do, then, is to make your campus lodgings as close a replica of your home as possible.

Adorn your quarters with familiar objects, things that will constantly remind you of home. Your brother Sam, for instance. Or your citizenship papers. Or a carton of Marlboros.

There is nothing like Marlboros, dear friends, to make you feel completely at home. They're so easy, so friendly, so welcome, so likable. The filter is great. The flavor is marvelous. The Flip-Top Box is wonderful. The tattoo is optional.

Decorating your diggings with familiar objects is an excellent remedy for homesickness, but it is not without its hazards. Take, for instance, the case of Tignor Sigafos and Estabrook Raunch who were assigned to share a room last fall in the freshman dorm.

Tignor, an ice-skating addict from Minnesota, brought with him 44 barrels over which he had jumped the previous winter to win the Minnesota Jumping-Over-Barrels Championship. Estabrook, a history major from Massachusetts, brought Plymouth Rock.

Well sir, there was simply not enough room for 44 barrels and Plymouth Rock too. Tignor and Estabrook fell into such a violent quarrel that the entire dorm was kept awake for twelve days and twelve nights. Finally the Dean of Men was called in to adjudicate the dispute. He listened carefully to both sides of the argument, then took Tignor and Estabrook and pierced their ears and sold them to gypsies.

And now all is quiet in the dorm, and everyone sits in peace and smokes his Marlboros, whose makers bring you this column throughout the school year.

# Kentuckian Dance, Valentines Top Weekend

By DIZZY WHIZ WALDEN

February is the month of "Hearts and Flowers". (sigh)—A month where one looks hopefully over his shoulder to see if he truly has a valentine on which to bestow all his princely charm and affection. A month that huffs and puffs up enough power to tackle you and hit you in the back of the head with a gift called LOVE.

Of course, this month means something different to each individual—the same as love is a different and new experience to every particular person.

## Modified Sorority Rush Is Underway

Seven sororities started rush last Sunday employing a new type of modified formal rush.

Modified formal rush is being used this semester to help shorten the time usually required for formal rush. Only one tea, one formal party, and preference night are being given for the rushers. In formal rush a series of three informal parties, three formal parties, and a preference night were given.

The sororities rushing this time are Alpha Delta Pi, Alpha Xi Delta, Alpha Gamma Delta, Delta Zeta, Kappa Delta, Kappa Alpha Theta, and Zeta Tau Alpha.

The girls will receive the bids next Wednesday at the Student Union Building at 5 p.m. Open rush will begin Feb. 20.

It would take 220 Rhode Islands to equal the area of the state of Texas.

In a recent issue of Mademoiselle there appeared an article on love. But not just 20th century romantic love as we know it today. The author spoke of "knowledgeable" love or "self-conscious" love, where one sensibly and intelligently weighs whether the mate is suitable by studying the probable happiness or probable setbacks. In other words—a prognosis of love and marriage.

Too much emphasis is placed on the kind of dreamy love found in movies and books today. Modern man must develop a talent for knowing when to use the head and when to use the heart.

Let us look at what famous poets, philosophers and lovers have to say on the subject.

Inscription on a Sundial

Time is  
Too slow for those who wait,  
Too swift for those who fear,  
Too long for those who grieve,  
Too short for those who rejoice,  
But for those who love, time is Eternity.  
Hours fly,  
Flowers die,  
New days,  
New ways,  
Pass by,  
Love stays.

By Thomas à Kempis

Love is swift, sincere, pious, pleasant, gentle, strong, patient, faithful, prudent, long-suffering, manly and never seeking her own; for whosoever a man seeketh his own, shall be filled with love.

by P. J. Bailey

Ask not of me what is love?  
Ask what is good of God above—  
Ask of the great sun what is light—  
Ask of the darkness of the night—  
Ask of sin what may be forgiven—  
Ask what is happiness of Heaven—  
Ask what is folly of the crowd—  
Ask what is fashion of the shroud—  
Ask what is sweetness of thy kiss—  
Ask of thyself what beauty is.

by Shakespeare

Good shepherd, tell this youth what 'tis to love.  
It is to be all made of sighs and tears  
It is to be all made of faith and service  
It is to be all made of fantasy . . .  
It is to be all made of fantasy . . .

by Thackeray

Queen of Mardi Gras

Lynna Chase, representing the Cosmopolitan Club, was crowned Queen of the Mardi Gras dance last Saturday. A freshman in the College of Arts and Sciences, Lynna was selected from a group of five finalists. Nancy Ann Cox, Pi Kappa Alpha representative, was the queen's attendant.

The Tri Deltas and Deltas won first place in the best comic strip portrayals. The dance was sponsored by the Newman Club.

"When a man is in love with one woman in a family, it is astonishing how fond he becomes of every person connected with it. He ingratiates himself with the maids; he is bland with the butler; he interests himself about the footman; he runs on errands for the daughters; he gives advice and lends money to the young son at college; he pats little dogs which he would kick otherwise; he smiles at old stories which would make him break out in yawns, were they uttered by anyone but papa."

by George Bernard Shaw

"No man is a match for a woman, except with a poker and a pair of hob-nailed boots—not always even then."

KENTUCKIAN DANCE tickets will be on sale at the Kentuckian Office in the Journalism Building or at the various fraternity house. They will be \$2. If bought at door, the tickets will be \$2.50. Groups that wish for reserved tables, call Don Mills at the ATO house. Limbo, Limbo, Limbo with me . . . (dedicated to those gay ones back from the sands of Florida)

Vacations are rare, I quite agree, But when they come, they're really a spree! You travel one thousand miles or more

And wind up in Fla. in a down-pour. The mind—from exams weighed a ton— Only deteriorated in the "liquid sun". The Elbow Club was howling each precious moment.

As for the beach—you really combed it. There were evening parties by the sea And in the morn, you slept in a tree. Romances bloom, romances die.

Sea horses bite toes, and smoke gets in the eye. You bought root beer to bring good cheer. (too bad you can't eat the rest of the year) But with this verse, each that provokes—"Twas not in vain, y'all were 'good folks'."

# UK Student Paintings On Exhibit In Kentucky Wesleyan Art Show

By CHARLES WADE

Eight UK students have paintings on exhibit in the second annual Exhibition of Drawings and Paintings at Kentucky Wesleyan College in Owensboro.

Ju-Hsi Chou, from Taipei, Formosa, won the \$200 purchase prize in the oil category for his "Painting No. 177". It is a quiet abstraction in soft grays and browns, with subtly emerging areas of stronger color.—Western execution, Oriental feeling. Chou has been at UK since the summer of 1956.

The seven other UK students in the show are Jane Thornburg Neff, Gwendolyn McGowan, Marion Cox, Gay Anderson, Marfan Williams, Ellsworth Taylor, and Charles Wade.

One hundred and fifty entries were made of these 40 were selected for exhibition. Artists of Western Kentucky, Louisville, Lexington, and Danville are represented, as well as artists from Evansville and Bloomington, Indiana. Jurors for the show were Dr. Justus Bjor and his wife, Senta Bier. Dr. Bier is

director of the Allen R. Hite Art Institute, University of Louisville.

That these eight students have successfully entered the Exhibition in open competition (against professionals as well as against students in other colleges and universities), and especially that one of them was awarded a top prize, is demonstrative of the merit of UK art students' work.

WILL CARE for children, do your typing or your ironing in my home, 350 Park Ave., phone 2-7978.

### A Date To Remember

Today is Valentine's Day, an occasion which usually calls for hearts and flowers and all the other items that strike a sentimental chord. Our hearts and flowers go out this week to Joyce Applebaum, an Education freshman from Louisville.

President and Mrs. Frank G. Dickey will honor the seniors in the various colleges at a series of open houses to be held at Maxwell Place during the second semester. Husbands and/or wives are included in the invitation as are the faculty and staff members of the respective colleges. The schedule for these open houses follows:

(All times are Central Daylight Time)

Tuesday, February 25 (4:00-6:00 p.m.)—Colleges of Commerce, Education, and Pharmacy

Wednesday, March 12 (4:00-6:00 p.m.)—College of Agriculture and Home Economics

Thursday, March 13 (4:00-6:00 p.m.)—College of Law, Graduate School

Wednesday, March 26 (4:00-6:00 p.m.)—College of Engineering

In addition to honoring the members of the senior class, President and Mrs. Dickey will also be hosts for open houses honoring sophomore and junior students on the following dates:

(All times are Central Daylight Time)

Sunday, February 23 (4:30-6:00 p.m.)—Sophomores (all colleges)

Sunday, April 27 (4:00-6:00 p.m.)—Juniors (all colleges)

In January of 1783, Great Britain recognized the independence of the United States by the Treaty of Paris.

Only once has the speaker of the house ever become president. When James K. Polk was elected in 1844.

## SGA

(Continued from Page 1)

students from the Pharmacy College the Organizations Committee recommended.

"That the University of Kentucky Student Government Association adopt a representative system in which both organizations and colleges be represented."

The Committee's report pointed out several strong points of the recommended system. It would be representative of all the students, communications would be greatly improved, it is more in keeping with a democratic system of government, it is patterned after a proven system of government, and there would be more people involved in the actual decision and policy making.

The report also pointed out several possible objections. The chief objection, it said, would be that representation is not on a strictly apportionate basis. Also, students elected in the winter elections would have to sacrifice one semester of office, and some organizations would have to give up some personal prestige in favor of this more representative system.

The Committee recommended that this new system be adopted. The Assembly was instructed to weigh the advantages and disadvantages of the proposed system. The deciding vote will be held sometime in the near future.

Transfer students eligible for membership to Links, Junior Women's honorary, should fill application forms at the Dean of Women's office before Feb. 21.

GHOUL, MAN, GHOUL! These DTD's won first prize for their costumes at last week's Mardi Gras dance.

## Students Of SEC Schools To Be Little Derby Guests

SGA will invite student government representatives from the SEC schools to attend the Little Kentucky Derby here in the spring.

The assembly will pay the travel expenses for the president or some appointed representative of each

school. The total expense will be about \$374.

Also at Monday night's session, new SGA members, elected last semester were inducted into the Assembly. The oath was administered by John Darsie, chairman of the Judiciary Committee.

Those inducted were Wayne Priest, Sarah House, Bill Kinkoad, Dave Becker, Walter Gooch, Dick Roberts, Kent Combs, Jim Hiel, Donna Lawson, Ted Powers, J. R. McWilliams and Harold Grooms. The outgoing members were presented with SGA keys by President Dave Ravencraft.

## UK Grads Help Launch Satellite

Two UK graduates of the College of Engineering helped to launch the Army's Jupiter-C and satellite Explorer at Cape Canaveral, Fla., last week.

They are Lionel Edward Fannin, 29, of the class of 1951, and John T. Humphrey, who graduated in 1957.

Fannin was pictured in a feature story about the launching in the Feb. 10 issue of Life magazine.

Both Fannin and Humphrey are mechanical engineers employed by the Army Ballistic Missile Agency Firing Laboratory at Cape Canaveral.

## Enrollment For Spring Sets Record

The University's second semester enrollment—placed at 8,202 Tuesday by University Registrar Charles F. Alton—is the largest total enrollment recorded for a spring term.

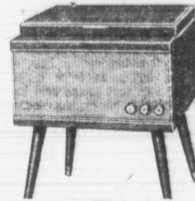

This figure includes 6,504 students taking regular work on the Lexington campus, 550 at the Northern Center in Covington, 424 at the Ashland Center in Ashland, and 724 enrolled in evening classes at Lexington.

A total of 7,550 students was recorded for the same semester last year, an increase of 652 for the present semester.

The 1957 fall enrollment of 8,794 was an all-time high for the University.

The 8,202 figure does not include 1,705 persons enrolled in correspondence courses.

**Next Season's Cage Squad  
Will Have Ample Talent  
Up From Freshman Ranks**

By ED FORD, Sports Editor

The Wildcats of Coach Adolph Rupp have certainly been impressive since the UKIF. The Cats have won 10 of 11 games since they suffered a 77-70 loss to West Virginia in the opening round of the Christmas tourney. The outlook for another SEC championship is good and, of course, Kentucky must be counted as a definite contender for the NCAA championship in March.

This season will, however, take its toll of graduating seniors. No less than nine men will be lost from the 1957-58 squad. The only returning varsity men will be Johnny Cox, Don Mills, Phil Johnson, Lowell Hughes, and Dick Howe.

Next year's team, however, will not lack sufficient talent. This year's freshman squad has a number of outstanding cagers who should take up most of the slack. Bobby Slusher, Howard Dardeen, Billy Ray Lickert, and Ned Jennings are a few of the outstanding prospects for the varsity next season. Although Kentucky loses both of its starting guards this year, three others, in addition to Lickert, will be moving up from the frosh squad. Dick Parsons, Dave Eakins, and Calvin Bird will all be ready for varsity play next campaign. Another valuable addition at the forward spot will be the newest member of the freshman team, Carroll Burchett.

At the present time the best prospects appear to be Slusher, Dardeen, Lickert, and Jennings. All four have double-figure scoring averages with Slusher leading with an 18.8 mark through nine games. Dardeen has averaged 18.3 per game; followed by Lickert at 16.5 and Jennings with 16.6. The 6-9 Jennings has appeared in only five games, being sidelined for the rest of the season by an appendectomy.

All four are also good rebounders with Jennings leading in this department with a 12.6 average. Slusher has 10.6 per game, Lickert 10.2, and Dardeen 9.3.

These four, along with three upcoming guards, and a capable forward should give the Wildcats another potent varsity for the 1958-59 season.

**Now A Manager**—David Coapman, who attended the University of Kentucky School of Journalism from 1952-55, is now the manager of light-heavyweight Clint Bacon of Toledo. According to Coapman, Bacon will fight any light-heavy on two weeks notice and will meet any heavyweight up to 190 on a month's notification. Coapman says Bacon, who's 28, was Archie Moore's sparring partner up until the Moore-Floyd Patterson fight of last year. Bacon's biggest win was a victory over Moore, Coapman says. Undeclared in the last three years, Bacon has beaten Eddie Cotton, Andy Mayfield, and Jimmy Morris and has knocked out over half of his opponents.

**New Assistant**—Tom Freeman, a member of this fall's cross country team, is now intramural assistant to Dr. William E. McCubbin. Freeman replaces Jim Johnson who graduated in January and is now attending a baseball umpire's school in Florida.

**Cats Rest From SEC Race;  
Battle Loyola In Windy City**

By LARRY VAN HOOSE

Kentucky takes time out from its SEC title chase to battle non-conference foe Loyola tomorrow night in the first game of the Chicago Stadium double-header at 8:45.

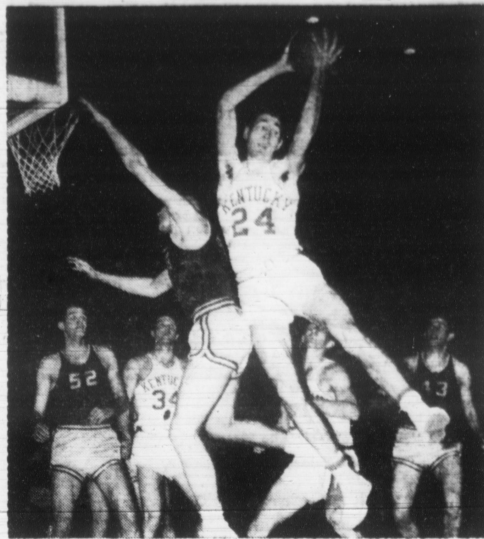

The Cats continue their conference championship wars when Vanderbilt's Commodores come to Lexington Monday night seeking revenge for their loss to Kentucky earlier this season. It will be the last home game for the Ruppmen unless they win their way into the NCAA Regional Tournament here March 14-15.

Loyola will be trying to avenge the 72-42 beating the Cats claimed here in December. The series, which started in 1949 when the Ramblers humbled the UK cagers in the National Invitational, stands at 4-1 in favor of the Kentuckians.

The upset-minded Chicagoans, who played Western Michigan Wednesday night after surprising strong Memphis State last Saturday, have recently shown a stronger scoring attack than that which they displayed in Lexington in their "comedy of errors" loss to UK.

Al Norville (6-4) and Art McZier (6-4) are the probable starting forwards for Coach George Ireland's quintet. Jim Gorman, 6-6 pivotman, has led the Ramblers this season. Guard posts will be filled by veteran Paul Sheedy (6-2)

(Continued on Page 11)

**Maroons' Hazard**

Jumping Johnny Cox, the Hazard ace who scored 22 points Monday night against Mississippi State, hauls down a rebound over the head of Dale Fisher as Bailey Howell (52) and Jerry Keeton (43) of the Maroons watch. Other UK players are Ed Beck and Vernon Hatton.

EAST MAIN OPPOSITE ESPLANADE

**Success Secret**

Here is a good example of the practice makes perfect theory. SAE, the 1957 I-M fraternity volleyball king, prepares to defend its title with a lively practice game as another season gets under way. They play the ATO's Tuesday in Alumni gym.

**Intramural Volleyball Underway**

The fraternity volleyball tournament started Tuesday with seven games being played. In division one PKA downed SX and ATO defeated SN; division two winners were KS over AGR, ZBT over KA and PDT over Farmhouse, PSK beat PGD and LXA beat SPE in division three.

The ping-pong doubles tourney is in progress with 92 men from all fraternities participating. Play will continue through March. Playing deadlines are posted on the intramural bulletin board in Alumni Gymnasium.

At the end of the first semester, SAE lead all fraternities in group participation total points with 205. Following SAE are KS, 166; PKT, 145; DTD, 134. The Rapscaillions are 82 points ahead of their closest competitor, BSU, in the independent division. The Rapscaillions have 137 points.

President Thomas Jefferson compiled a Bible for his own use. The Union of Soviet Socialist Republics was organized as a federation on Dec. 30, 1922. The YWCA was founded in this country in 1888.

**UK Blasts State Zone; Scores Ninth SEC Win**

By BILL PASTUCH

Kentucky's fast break was slowed down to a waltz Saturday night by a tight Mississippi State zone defense, but the Cats walked off the court with a 72-62 victory over the stalling Maroons.

A near capacity crowd of 11,450 fans at Memorial Coliseum saw the Ruppmen employ State's ball-control techniques during the last nine minutes of the game to gain their ninth SEC triumph in 10 outings.

In the second half Kentucky breezed to a 17-point lead when Cox hit a jumper with 12:56 remaining. After that the Maroons went to work and narrowed the gap to four points on several occasions, but were never able to tie it up.

With Beck fouling out with 8:02 left in the game, Kentucky at this point decided to do something about the seemingly impenetrable

State zone. Coach Rupp had his charges simply toying with the ball at the top of the key. After better than two minutes had gone by, referee Max Macon warned State's of the rule whereby a team behind in scoring has only 30 seconds in which to try to gain possession of the basketball or be charged with a technical foul.

State relented and broke into a man to man defense which brought on a rash of intentional fouls by the Maroons as they tried desperately to gain possession of the ball. Kentucky's Odie Smith bore the brunt of State's fouling strategy and proceeded to put the game on ice for the Cats at the free throw line.

Bailey Howell took high scoring honors with 28. For Kentucky, Cox poured through 22 points to gain runner up spot, while Hatton, Crigler and Smith had 18, 17 and 11 points respectively.

## Morehead Topped Twice; Frosh Win By 96-65, 100-89

By PAUL SCOTT

The University of Kentucky freshmen rolled to their ninth and tenth victories of the season by outclassing the Morehead frosh 96-65 in the Coliseum Monday and 100-89 Tuesday in Morehead.

Billy Lickert again paced the Kittens' attack with 26 and 28 points. Since Ned Jennings was lost for the season last week because of an appendectomy, Lickert has been averaging better than 20 points a game.

The Kittens fired in 50 points in both halves as Harry Lancaster's cagers hit the century mark for the fourth time this year. It was their fifth win in seven nights.

Indiana's contribution to the campus, Howard Dardeen, pumped home 44 points in the two frosh.

### CATS REST

(Continued from Page 9)

and sophomore Tom O'Connor, 6-3. The second game of the Saturday night twin-bill pits Notre Dame against North Carolina at 10:30.

Already eliminated from the SEC champion race, the Commodores enter the Coliseum a wiser bunch than when they were startled by sneak weapon Earl "Brother" Adkins. The smooth-moving senior from Ashland had the greatest night of his collegiate career, hitting 25 points to lead the Cats to an 86-81 victory.

Vandy brings an 11-9 record to town, the brightest spots in the surprisingly mediocre slate being wins over Mississippi State 74-52 and Ole Miss 68-59. Bob Polk's cagers are 4-5 in the SEC as they lost by five points to Alabama and by eight to Auburn in their closest defeats.

The in and out hoopsters from Nashville will start against Adolph Rupp's league leaders with Jim Henry and Jim French at the guards. Henry is the leading scorer with 21.8 for 18 games and is hitting at a 47.2 clip from the field.

A new face against the Wildcats will be Ben Rowan at forward with Hub Houglund at the other. Houglund, a Scottsburg, Indiana product, is averaging 11.2 points a

Bobby Slusher had 38 and Dick Parsons tallied 36. The squad's latest addition, Carroll Burchett, 6-5 former Flat Gap star, hit for 16.

Monday the Kittens will entertain the Georgetown "B" team in a preliminary to the UK-Vandy encounter. It will be the final home appearance for the yearlings.

Thursday the Kittens will journey to Campbellsville Junior College. They whipped the Campbellsville club 92-49 on the Coliseum court earlier.

Three Kittens are averaging in the double-figures after 10 tilts. They are Slusher (19.2), Dardeen (17.9), and Lickert (17.7). Ned Jennings, who ended his career as a freshman after performing in five games, had a 16.6 mean.

game. Don Hinton, 6-6 star from Rockport, Indiana, will start in the pivot since regular center Jack Pirrie is out with a dislocated shoulder. Hinton has a 9.9 scoring average and has pulled down 159 rebounds in 18 games this season.

The UK-Vandy series is the oldest cage feud next to Tennessee for the Wildcats, who have won 54 tilts from the Commodores while dropping only 12 since 1912.

## UK Runners Look Good In Relays; Franta Sets UK Pole Vault Mark

By GEORGE SMITH

Running against the best competition in their collegiate careers, members of the University of Kentucky track team fared well in their second indoor meet of the season Saturday in the Michigan State Relays at East Lansing.

Outstanding among the Wildcats was Dave Franta who set a new UK pole vault record with a vault of 13'8" to tie for third-place honors.

Ray Blasingame and Buddy Gum sparked the Wildcats in the running events. The Lexington sophomore placed second in the 600-yard dash in a time of 1:13.5. Blasingame won his semi-final heat of the 75-yard high hurdles in 9.2. Last year's winning time was 9.3. In the finals, however, Blasingame finished fifth in a race that saw Olympic champion Glenn Davis of Ohio State set a new meet record in a sizzling 8.9.

In their indoor meet against Purdue and Ohio State, Kentucky, represented by a team of 10 men as compared to their opponents' 30, managed to place in every event but two. Blasingame and Press Whalen shared in the scoring honors for the Cats. Whalen

finished second in the mile and third in the two-mile. Whalen's times were 4:25 and 10:19 respectively.

Blasingame placed second in the 70-yard low hurdles and third in the highs. He also was fourth in the shot put.

Other Kentuckians scoring were:

E. G. Plummer, third in the mile and half-mile; Buddy Gum, third in the 440; Dick Steckler, fourth in the 60-yard dash and Jim Murphy, fourth in the high jump.

Today the Wildcat track team journeys to Columbia, Mo., for a dual meet against the University of Missouri.

### TIPS ON TOGS

**DRIP—DRIP—DRIP**—(And I don't mean a leaky faucet). I am clueing you in about a new type drip dry shirt—for you lovers of button down, oxford cloth shirts (and who isn't?) This will be good news—"Manhattan," has produced this all cotton drip dry oxford shirt, and it seems to me that it is a very practical idea for a college student—saves quite a few shekles on the laundry bill—wash it out—hang it on the plastic hanger (comes with each shirt—don't use wire—just you know and you can leave the iron sitting in your corner—because your shirt will be dry in a jiffy and smooth as "HI-FI").

**BOB BONICH**—Ex-U. of K. Football player, now commerce senior (and one of my best friends), was very patently attired the other eve. His hand woven Harris Tweed sport coat was of muted brown and tan stripe. He blended this with charcoal brown "Ivy" Flannel slax, a white pin collar shirt, with gold collar pin and matching gold cuff links, a pure silk repp tie of subdued brown—olive and light blue stripes, Sox of dark brown and tan argyles. His shoes of the brown bass type by "Bostonian"—set the out-fit off to perfection. Brother Bonich, I take off my blanket to you!!

**EARLY BIRD**—(But a wise one), James Stuckert, president of Kappa Sigma, selected one of his spring threads today—Dacron and Wool—(I said he was wise). "Ivy" cut with grey stripes and when he selects the correct accessories—**MAN!**

**HERE WE GO AGAIN**—Request for "round table" discussions are coming in and a couple of dates have been set. If your group is interested in having one of these gab fests about clothes—just contact me and I will be glad to meet with you.

So long for now,

**Win a trip for 2  
to the N.C.A.A. FINALS!**

Last  
Chance to  
Enter the  
Courier-Journal's  
**WEEKLY  
BASKETBALL  
CONTEST**

You can be an honored guest for the biggest basketball event of the year—the finals of the N.C.A.A. Tournament to be played at the State Fairgrounds in Louisville next month.

You'll also win an all-expense-paid weekend in Louisville . . . stay at the Henry Clay Hotel . . . have breakfast in bed . . . lunch at Louisville's newest steak house, the Jim Porter Tavern . . . have dinner at the unusual seafood restaurant, Leo's Hideaway . . . meet and dine with the nation's top college basketball coaches.

All this is just part of the holiday you'll enjoy if you win the top prize in the final week of The Courier-Journal's Weekly Basketball Contest. This is your last chance so don't miss it—win a trip for two to the N.C.A.A. finals. (Of course, we are hoping that Kentucky will be represented.)

The rules and sample entry blank for the final contest will be in the sports section of Sunday's Courier-Journal. Don't miss it!

Fast Break!!

Kentucky center Ed Beck is shown about to start a fast break following a rebound in the Jan. 18 game with Tennessee. Other identifiable players are Tennessee's Dajen Showalter (43), Johnny Cox (24), Tennessee's Don Reeveris (35), and Vernon Hatton (32).

## The Kentucky KERNEL

Vol. XLIX University of Kentucky Number 15  
Lexington, Ky., Friday, Feb. 14, 1958

# CATS LOSE, RETAIN SEC LEAD

By BILL TULLY

Kentucky's conference-leading Wildcats fell into a tie for first place with the Georgia Tech Yellowjackets over the semester vacation as the engineers avenged an earlier 76-60 loss to the Cats by trouncing them 71-52 at Atlanta.

The Cats regained the lead later, however, following two Tech losses and Kentucky wins over Georgia 74-55, and Florida 78-56. Just as the holidays began the Kentuckians ran their SEC mark to 5 wins against no losses before Tech came up with the spoiler.

Johnny Cox regained, at least temporarily, his last year's form by dumping in 30 points to lead the Cats over the Tennessee Volunteers. All five of the Cat starters hit in double figures as senior guard Vernon Hatton got 14, and John Crigler, Ed Beck and Adrian Smith all tabbed 11.

On the night of January 27 the

Kentuckians fell apart in the second half after holding a two-point halftime lead while the Yellow Jackets got red hot to gain a 19-point victory. With a little over fifteen minutes left to go the Techmen broke a 39-39 tie and from then on took complete charge.

Former Adair County High star Terry Randall led all scorers as he racked up 26 markers. His running mate at guard Bud Blemker was second high with 21. Kentucky was led by Vernon Hatton who garnered 12 points. No other Cats reached dual figures.

Just two nights later the Cats took over the SEC lead individually as they regained their form to trounce the Georgia Bulldogs. Led by Vernon Hatton with 20, Adkins with 14, and Adrian Smith with 12 markers, the Cats rolled over the Bulldogs by a 19-point margin. Johnny Cox had 10 points to be the fourth Cat starter in double figures. Edmonson and Enstley led the Bulldogs with 14 each while Cabaniss added 12.

Although they looked ragged, the Cats picked up their thirteenth

win of the season against four defeats, only one of which is in the Southeastern Conference. Georgia rallied in the second half but Adkins, subbing for Smith, poured in his 14 points in the last sixteen minutes to give the Cats the boost they needed. Possibly the most surprising thing of the night was the Georgia rebounding strength. The usually strong rebounding Cats were able to only outgrab the Bulldogs 55-51.

Last Friday the Cats strengthened their hold on first place as they topped Florida. They were sparked by the spectacular play of Hatton who ripped the netting for 35 big markers, the largest output of any Cat this season.

Tech suffered a 74-72 loss to Alabama last week and is tied, so far as conference losses are concerned, with Tennessee and Alabama for second place in the conference.

Kentucky has games remaining with both Tennessee and Alabama and must consider these two critical to say the least in their quest for their eighteenth SEC title.

Kentucky, who shot an amazing 50 per cent in the first half against the Johnny Rebs, pulled away from the visitors in the opening minutes of play and held a 19-5 lead. The Cats broke the game's lone tie at 3-3 on Crigler's two free throws and tip-in, and scored 12 more while the frigid frivers of Bonnie Graham hit two.

Cox, who played the game with a bandaged right hand, then hooked in two field goals that delighted the partisan audience and put the Cats ahead 25-10. Hatton and Crigler combined for six markers and the UK margin was stretched to 18 at 31-13.

The Cats grabbed their first 20-point bulge on Smith's driving lay-up, making the tally 39-19. The Rebels matched baskets with the Cats as Bobby Williams, 6-2 guard, hit six straight points and held the deficit at 20 until Smith garnered a crisp and Cox hooked again to make the score 53-29. Crigler finished the UK scoring with two free throws and a jump shot, giving the Cats a 57-34 intermission bulge.

Mississippi returned from the rest period and dropped through four points before Kentucky could

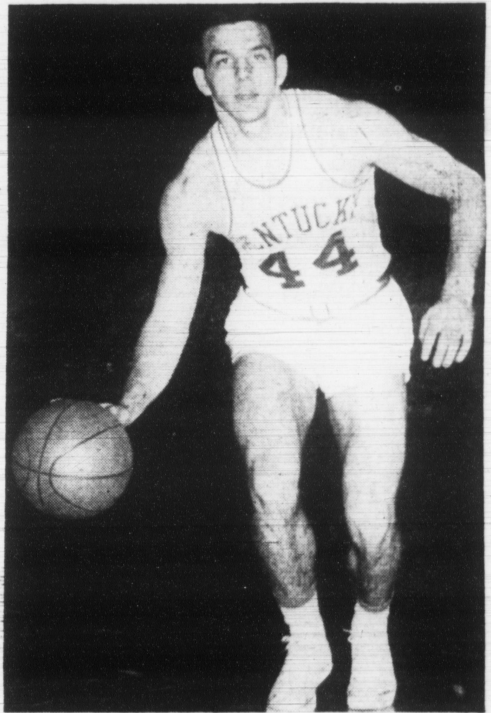

hit. Cox hit a jump to make the score 59-38 and at this point forward Carlton Garner cut loose for seven points while Cox was getting UK's second goal of the period on a hook shot. The 16-point difference was the closest Mississippi could come.

Hatton and Crigler accounted for Kentucky's next 16 points and made the score 77-53. Don Mills blasted a hook and a jumper and substitutes Abe Collinsworth, Earl Adkins, Phil Johnson, Billy Ray Cassidy, and Lowell Hughes took care of the scoring the rest of the game.

Mills and Hughes led the relievers with five apiece and Collinsworth hit for three. All 11 men who saw action appeared in the scoring column as Cassidy and Johnson had two each.

Garner led the losers with 20 points on eight of 28 attempts from the field and four for five free throws. He was followed by Ivan Richmann, who had 15 and Williams with 12.

Kentucky hit 40.2 per cent for the fray and had 79 rebounds, while Ole Miss hit 28.6 per cent and rebounded only 54 times.

Familiar Face?

Probably so if you are a UK football, basketball, or baseball fan. Our photographer caught Lowell Hughes in Memorial Coliseum for this shot, but it could just as well have been on the gridiron or the baseball diamond since the versatile athlete performs on all three for the Wildcats.

## Hughes May Prove To Be Another Wah Wah Jones

By LARRY VAN ROOSE

It took the University of Kentucky 12 years to find an all-around athlete to compare with the fabulous Wah Wah Jones, but it appears Wildcat bosses have done just that.

The Kentucky athletic chiefs returned to the Eastern region of Kentucky where Jones played before signing at UK to bring another prize player, Lowell Hughes of Prestonsburg, to Lexington.

The grant-in-aid which Hughes affixed his name to was first a football scholarship, but Kentucky coaches will probably agree that it was a three-in-one bargain deal.

Besides playing football, Lowell goes to basketball and then to baseball as the seasons come. Past performances will prove that he is a qualified performer in each sport.

Going by the seasons, football comes first in the 6-0, 175-pound sophomore's crowded schedule. At Prestonsburg, the muscular quarterback was an All-American prep star and was named to captain of the Kentucky All-State eleven in his junior year. Moving up from the UK freshman grid ranks, Lowell, in his first season as an SEC player, won the starting role at quarterback with the Cats and was named on an All-SEC sophomore squad. His passing ranked him near the top in the SEC this year.

(Continued on Page 12)

## Undefeated Kittens Get Eighth Victory

By PAUL SCOTT

The University of Kentucky Kittens registered three victories in a period of four days last week to run their season's winning streak to eight straight games.

The undefeated Frosh of Coach Harry Lancaster recorded their eighth triumph Saturday night at the expense of Lees Junior College, 124-61. Billy Ray Lickert paced the victory with 28 points as the Kittens went over the century mark for the third time this season.

The UK Frosh hit 55 of 99 shots from the field for a 55.1-percentage, but fell 11 points short of the Frosh scoring record of 135. The record was set in 1954 against Sue Bennett. Lees' managed 15 field goals out of 45 tries for a 33.3 mark.

Lees' forward Les Scodarallo edged Lickert for scoring honors as he collected 36 points. Howard Dardeen-garnered 24 for the Kittens followed by Bobby Slusher

with 20, Dick Parsons with 18, Allen Hughes with 12, and Dave Eakins with 11.

Friday night saw the Kittens take their second straight victory of the season over the Baby Commodores of Vanderbilt, 85-59.

Bobby Slusher was the major factor in the victory as he poured in 32 points. The 6-4 Lone Jack product hit 14 of 22 shots from the field to register the highest single game scoring total for a UK freshman this season.

The contest was tied six times in the first half before the Frosh finally pulled away to a 41-32 halftime margin. It was all Kentucky in the second half as the Kittens led by as much as 30 points at one time. Vandy was never able to get closer than seven points to the Kittens during the final 20 minutes of play.

Following Slusher in the Kentucky scoring was Billy Ray Lickert who tallied 13 markers although he hit on only five of 26 field goal attempts. Dick Parsons contributed 12 and Carroll Burchett, newest member of the freshman team, dropped in 11. Burchett was also a stand-out on defense.

John Doninger, former Louisville Eastern star, paced Vandy with 19 points. He was followed by 6-7 Billy Depp who added 16.

The Kittens stopped the Transylvania Jayvees 115-74 last

(Continued on Page 7)

### Books Before Baskets

That's Roger Newman's dilemma as the ex-Greenville All-State cager registers for the coming semester. NCAA regulations make the former UK frosh ineligible, so Newman will spend the coming term with the books, but the 6-4 cager will be reready next year.

## Beck Joins Victory Tour

Ed Beck has accepted a berth on the touring United States basketball team which will play all over the Orient this summer in a "Venture for Victory."

The team is made up of players who plan to go into various forms of ministerial work and are chosen on the basis of Christian leadership as well as athletic ability.

"I'm very grateful and very honored to have been chosen for the tour," the 6-7 pivotman for

the Wildcats said Sunday. "The tour is right down my alley so to speak since I have been thinking of going into foreign ministry for the last few years, and I can get first hand experience from playing before the crowds which basketball games in the Orient always attract," he said.

The team leaves June 6 and will return to the United States sometime in August. Games are slated

(Continued on Page 12)

**Winter Wonderland**

Familiar buildings take on unusually beautiful appearance when seen from an unusual angle. Especially is this so when a field of snow surrounds it as in this photo of Memorial Hall.

## Pershing Riflemen Invited To National Drill Meets

The University's Pershing Riflemen will be pointing toward two of their major meets of the year as they resume practice this semester.

Company C has been invited to an Illinois Invitational Drill Meet at Champaign, Ill., at the end of March, and later in the spring the sharpshooters will go to Athens, Ohio, for the First Regiment's annual drill meet.

In their most recent outing the riflemen won a dual drill meet with Eastern Kentucky State College Jan. 11, scoring 1,015 points to 971

for the Richmond squad. Col. William E. Grubbs, head of the UK military science department, presented a meet trophy to Bob Hammond, UK platoon commander, following the competition.

## Youngsters Are Taught Latin Here

The University of Kentucky Division of Extended Programs has opened two courses in Latin for elementary school children this semester.

The beginning class which meets on Monday afternoons is under the direction of Mrs. Marianne Jones Rowland, a teacher in the Fayette County elementary schools. The Tuesday continuation class is taught by Dr. Jonah W. D. Skiles, head of the Ancient Languages and Literature Department. These classes are being taught in the Enoch Grehan Journalism Building.

# Gifts Totaling \$116,577 Accepted By University Trustees Board

Gifts totaling \$116,577, including \$82,459 in grants which will be administered by the Kentucky Research Foundation, have been accepted by the executive committee of the University's Board of Trustees.

Miscellaneous gifts accepted included 100 shares of oil company stock, a portrait of Kentucky Governor John White Stevenson, and a collection of Governor Stevenson's notebooks, letterbooks and diaries.

Donors and their gifts follow: International Minerals and Chemical Corp., Stokie, Ill., \$5,000 to the Agricultural Experiment Station for research in pasture fertilization studies; Fund for the Advancement of Education, New York City, \$10,000 as final payment on a grant of \$20,000 for the utilization of college teaching resources program.

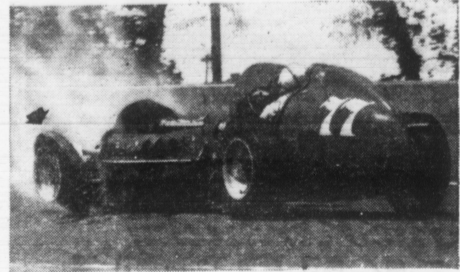

United States Tobacco Co., Nashville, \$2,400 to the Department of Agronomy for continuance of studies on low nicotine tobacco; Herschel Weil, Lexington, \$300 for the Jonas Weil Scholarship Fund (to be presented to the senior student in agriculture with the highest cumulative standing for the first three years of his college career); Southern Regional Education Board, \$13,250 for use in a cooperative project to study the preparation of college teachers.

Charles Pfizer and Co., Terre Haute, Ind., \$1,000 to the Experiment Station for sheep and beef cattle research with tranquilizers; WHAS Crusade for Children, \$1,468 to the Audiology Clinic to maintain a graduate assistant in meeting a rising case load of children with hearing handicaps; Aubrey Feed Mills, Louisville, \$800 to the Experiment Station for use in a project dealing with early weaning of pigs.

Gifts to be administered by the Kentucky Research Foundation include: Murray Ramey, Chattanooga, \$2,500 in support of the College of Engineering's scholarship program; Mr. and Mrs. Louis Ware, Chicago, \$1,000 to the Louis Ware Scholarship Fund (engineering); anonymous, \$300 for a scholarship for the 1958-59 school year. R. C. McDowell, Cleveland, \$4,000

Washington, D. C., \$8,100 to the Department of Zoology in support of research entitled "Nutrient Supply of Certain Alaska Lakes"; Ford Foundation, \$4,100 for stimulation of scholarly publications in the humanities and social sciences. (Continued on Page 7)

to the McDowell Scholarship Fund; National Science Foundation,

## MY CLOSEST SHAVE by Pat Flaherty

1956 Indianapolis Speedway Winner

"My closest shave was at Indianapolis in 1953," says Pat Flaherty, 1956 Indianapolis winner. "The track temperature that day hit 115 and the exhaust fumes hung right down on the speedway. I was going into the north turn at 130 mph when the fumes got me. I blacked out, hit the outside concrete fence, and skidded along for 120 feet. The car was demolished, my helmet was torn off, my safety belt broke—but I didn't break a single bone!"

For YOUR Close Shave—with a razor, not a racing car—try new Colgate Instant Shave. What a way to shave! It's the quickest, *easiest* way ever, no matter what razor you use. Smooth, too! Shaves your whiskers, saves your skin. A great shave buy for the tough-beard guy!

FEBRUARY 18

The broader the base,  
the brighter the future.

It just makes good sense—the range of job opportunities is far wider and advancement opportunities greater with a company operating on the sound basis of diversified engineering and manufacturing.

# A DU PONT JOB-FINDER CHART FOR BS-MS ENGINEERS AND SCIENTISTS

Here is a sampling of the kinds of engineers and scientists which Du Pont will employ this year with BS-MS training—and their fields of work. The chart is an easy way to match your own interests against job openings at Du Pont.

For example: If you are a mechanical engineer, run your finger across the "Mechanical Engineers"

column. The code letters refer to the type of work (Research, Development, etc.). The departments of the Company are listed across the top. The column across the bottom indicates some of the locations where these departments have openings. Du Pont also has opportunities for other engineering and scientific specialties, but space does not permit a complete listing.

## Fitzgerald Returns From Music Clinic

Prof. Bernard Fitzgerald, head of the Music Department, has returned from Washington, D. C., where he appeared as guest conductor of the U. S. Navy Band during the fourth annual All Eastern Band and Instrumental Clinic. Approximately six hundred high school and college band directors from the 26 states east of the Mississippi River attended the event sponsored by the Naval College of Music.

New musical works, representing all publishing houses, were performed by the U. S. Navy Band; the U. S. Naval Academy Band; the Naval School of Music Faculty Band; and the Naval School of Music Clinic Band.

Mr. Fitzgerald conducted the Navy Band in a performance of "Canzona," by Peter Mennin, and "Marche de Concert," by Houston Bright.

During the two-day event he also conducted the other bands in selected new publications for band, including his recently published transcriptions of selections from the opera, "Hansel and Gretel," by Humperdinck.

During the current school year, Prof. Fitzgerald has appeared as

guest conductor of the Florida All State Band in Tampa, Fla. He will be the conductor for the second annual Regional High School Band in Paris, Ky., Feb. 14-15, and the Kentucky All State High School Band in Lexington on Feb. 19-20.

## Trustees Approve Faculty Members

Five members of the University of Kentucky faculty were approved for membership on the Graduate Faculty by trustees of the University recently.

They are: Dr. Eldon D. Smith, associate professor of agricultural economics; Dr. Robert Straus, professor of medical sociology; Dr. William H. Stroube, associate agronomist; Dr. Norman L. Taylor, associate agronomist; and Dr. Bennett H. Wall, associate professor of history.

The Graduate Faculty determines the policies of the Graduate School and makes recommendations to the University Faculty on matters requiring approval of that body.

## Fellowships Are Announced For Public Service Study

Students interested in public affairs and public service careers who will receive their B.A. in June have been offered an opportunity to apply for fellowships to study at three different universities. The fellowships grant \$1,500 a year plus college fees. Each fellowship approximates \$1,950 in total value. Beginning this June fellows will

serve with a public agency such as TVA or a department in a city or state government. In the 1958-59 school session they will take graduate courses at the universities of Alabama, Tennessee, and Kentucky.

Completion of the 12-months training period entitles fellows to a certificate in public administration. They can be awarded a masters degree at either of the three universities upon completing a thesis and passing examinations.

For eligibility requirements and other information students should write the Educational Director, Southern Regional Training Program in Public Administration, University of Alabama, University, Alabama. The deadline for submitting applications is March 10, 1958.

A series of changing exhibitions is presented each year in the University Art Gallery under the direction of the Department of Art. These exhibitions include paintings, drawings, prints and sculpture by major masters of the past and present, work by contemporary artists of the Kentucky-Ohio Valley region, and an Annual Student Exhibition.

## Universal Day Of Prayer Set For Sunday

The Rev. Troy Eslinger, pastor of Hunter Presbyterian Church, will be the speaker at the Universal Day of Prayer for Students in the College of the Bible chapel Sunday at 8:15 a.m.

The Rev. John R. King, chairman of the planning committee, said the observance is being sponsored in the United States by the United Student Christian Council. Similar services will be held in 57 countries throughout the world.

The World's Student Christian Federation, of which USCC is a part, has conducted the services since 1897.

Rev. King said the observance is designed to bring all student religious organizations together for an ecumenical service of prayer and dedication to the mission of the church among students throughout the world.

## Two Football Players Injured In Collision

Two University of Kentucky football players were injured as they returned to school after the recent between-semester vacation. Both Jerry Eisaman and Jim Martin received back injuries in an automobile accident in Ohio, about one hundred miles north of Maysville.

The two boys were taken to a Cincinnati, Ohio hospital where it was determined that their injuries were not as serious as first indicated. Martin had a wrenched neck which was originally thought

to be broken. Eisaman received injuries to several vertebrae in the lower part of his back. Both boys are expected to be able to play next season, however.

Martin was driving Eisaman's car at the time of the accident. Both Eisaman, 195-pound quarterback from Bethel, Pennsylvania, and Martin, 218-pound tackle from Homestead, Pennsylvania, were held out of competition at UK this year and have three years of eligibility remaining.

### New Exhibit

Two-thousand-year-old sandals found in Mammoth Cave will be the "Exhibit of the Month" for February at the UK Museum of Anthropology. Dr. Douglas W. Schwartz, director of the museum, said the sandals are similar to those on the remains of a prehistoric Indian found in the cave in 1935.

The exhibit was prepared by Miss Joyce Bryner, graduate assistant in the museum. Featuring the sandals, it also includes illustrations of the method used for their manufacture.

## Official Expresses Opposition To Repeal Of Absentee Vote

A proposal to repeal most of Kentucky's absentee voting laws has been opposed by the state superintendent of public instruction, Robert R. Martin, because it would "disfranchise 32,000 young Kentucky citizens attending colleges and universities."

The proposal would repeal existing absentee voting laws except as they apply to members of the armed forces and their spouses. The suggestion is now in the hands of the state legislature's committee on suffrage, elections and constitutional amendments.

Proponents of the repeal bill have argued that college students may register and vote in the counties in which they attend school. Mr. Martin said, "That is demonstrably false," the state school superintendent stated, "because a student entering school in September cannot possibly satisfy the six months' county residence re-

quirements in time to vote in November."

He concluded that "these college students have no interest in voting for the city and county officials of the governing subdivision in which they just happen to be temporary residents."

"A student from Pike County attending the University of Kentucky in Fayette County, for instance, is not vitally concerned with who is elected mayor of Lexington."

Mr. Martin conceded that "some abuses of the absent voter machinery have caused it to fall into disrepute with some of our citizens," but he advised against "shooting the dog to get rid of the tick."

The superintendent charged that the proposal "whether intended that way or not, would be a greater boon to machine politics in this state than anything else that has been suggested in many a day."

## Medical Center Receives 4,300-Volume Collection

The Medical Center has acquired 4,300 volumes of rare medical journals, a big step toward the basic library for the center.

The books were obtained from the Wistar Institute of Anatomy and Physiology in Philadelphia.

Funds for the \$32,000 collection were provided by William Arnold Hanger, New York engineering-firm executive and director of the Kentucky Medical Foundation. Hanger's home is in Richmond.

Hanger was quoted as saying he acquired the collection for the library here because he "didn't want to see it get away." The books include a large amount of material in the basic medical sciences, neurology, and psychiatry.

Alfred Brandon, head medical librarian, said the number of rare journals, "give the library a very firm foundation for its basic collection."

Some of the works will be new to the Southern area, and Brandon said he hopes that the books will serve a large number of medical people throughout the state.

Alexandria, in a rich agricultural area, is an old village with sturdy brick homes and many trees. When Kenton county was formed from the western half of Campbell county, the seat of government was moved from Visalia to Alexandria.

## Tea Set For Seniors By Dickeys

President and Mrs. Frank G. Dickey held a reception at Maxwell Place yesterday for the seniors of the Arts and Science College.

The reception, held from 4 to 6 p.m., was attended by students, faculty and staff members and their husbands and wives.

Future receptions are planned for Commerce, Education and Pharmacy seniors on Feb. 25. A reception for the other college's seniors have also been planned. The College of Agriculture reception will be on March 12, Law and Graduate Schools on March 13, and Engineering, March 26.

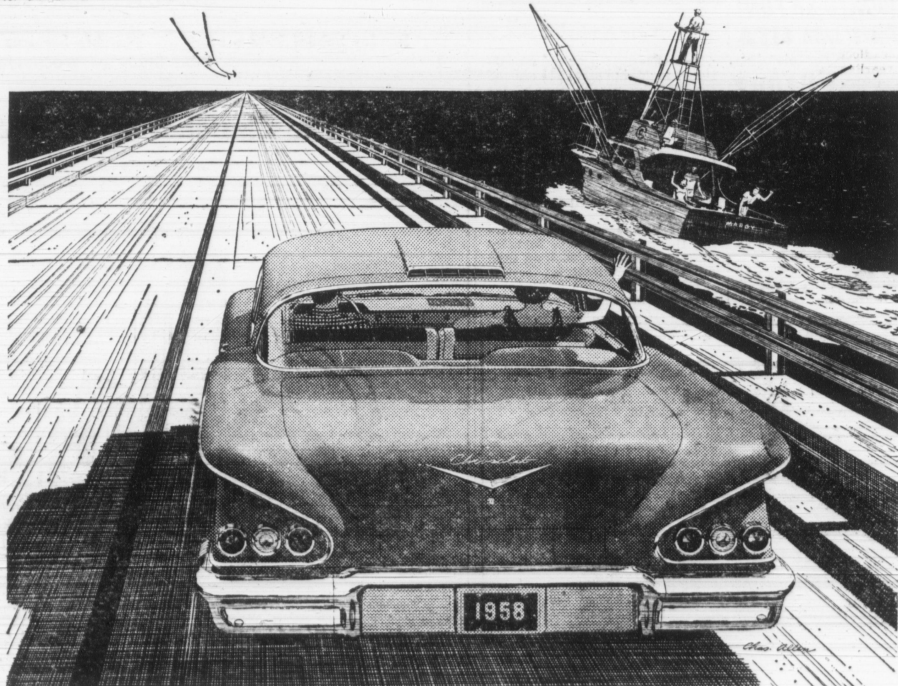

President Dickey and his wife have also planned to hold receptions for sophomore students on Feb. 23 and junior students on April 27.

Y., portrait, notebooks, letterbooks and diaries of Governor John White Stevenson, to the University Library.

## KITTENS GET

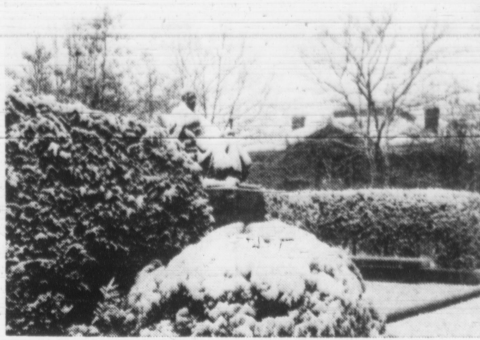

(Continued from Page 1)

Wednesday night at McAllister Auditorium.

After leading by only 49-44 at halftime, the Frosh poured through 66 points in the second half to turn the contest into a complete rout. Howard Dardeen led the second half attack and finished with 27 points. Bobby Slusher was next with 22. Lickert had 17, Dick Parsons 15 and Dave Eakins contributed 13. Ronnie Hale led Transy with 19.

The Kittens had their closest call of the season at Nashville against Vanderbilt. Billy Ray Lickert dropped in two free throws with 1:28 remaining to break a 65-65 deadlock and give the Kentucky yearlings the victory.

The Frosh saw their 43-34 halftime lead erased in the second half as Vandy tied the score 56-all with 10 minutes to play.

Patterson's Vista

No, he isn't frozen in the chair, girls, although he may look that way. President Patterson, the first to hold the position at the University, looks over his snow-covered domain.

## Article By Schwartz Set For Publication

Dr. Douglas W. Schwartz, UK faculty member who has explored the Grand Canyon area for archaeological specimens, has written an article on his findings for the February issue of "Scientific American."

The article describes the settlement of the plateau around the canyon. Schwartz expresses the belief the settlers of the canyon are the same group, driven there for shelter from raiding parties.

Schwartz gathered much of his information during the winter of 1953-54 when he lived in a village of the Havasupai Indians. He has made several trips into the canyon since and plans to make more research to provide an intensive background of the area.

## Official Of DuPont To Speak Wednesday

UK journalism students will hear a former public relations man for the Du Pont company speak on "The Practice of Industrial Public Relations," Wednesday.

John H. Noyes, now the Southern District Manager for the Du Pont Company's Extension Division, will include in his talk the role of industrial research and business enterprise in strengthening the nation's economy.

He will speak in room 211 of the Journalism Building at 10 a.m.

Anyone interested is invited to attend. Mr. Noyes has been with the Du Pont Company since 1955. He is a graduate of Wesleyan University, Middletown, Conn. Since his discharge from the Navy after World War II, Mr. Noyes has been a newspaper reporter, radio newscaster and editor. From 1953 to 1955, he was a member of the administrative staff of Wesleyan University.

## Registration Day

With the several inches of snow and cold weather came 7,000 students to register for the second semester of classes. Some 200 showed up on the Friday before registration to be oriented into the process.

This series of photos is to show some of the frustrations, and agonies students go through each time this mob scene is re-enacted.

Perhaps within the next year this will no longer be necessary. A committee is studying the possibility of installing a pre-registration process.

**In Demand**  
The College Chamber of Commerce table had what was in greatest demand—information for the many perplexed registrants.

### Dean White

Dean M. M. White of the College of Arts and Sciences answers the questions of four freshmen. It's quite possible that with the myriad of questions he receives he could qualify for "What Should Be My Line", a college panel show.

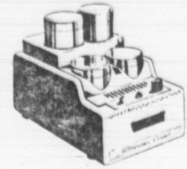

### Classification Test

Mrs. Catherine Boyd, a junior transfer student from Oklahoma State goes through the series of tests for counselling and entrance to the University. More than 200 students went through this process in Memorial Hall.

A court in New York convicted a man and sentenced him to prison for shooting his wife . . . over a bridge game!

## Family Group Announces Speech Dates

"Teaching the Young Child About Sex" will be the topic of the next lecture to be presented by the Lexington and Fayette County Council on Family Relations.

Dr. Emily Warfield, Lexington pediatrician, will discuss this topic at 7:30 p.m. next Tuesday at the University High Auditorium.

Dr. Warfield's talk is one of four being presented in the family relations series, "New Concepts of Parenthood and Childhood."

Tickets for this and the other family relations programs may be purchased by students for 50 cents and 75 cents for adults. These may be purchased at the door.

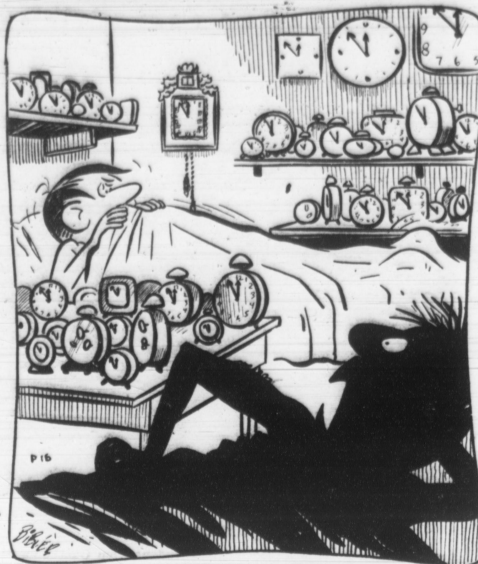

Dr. Esther McGinnis of Ohio State University will speak at 7:30 p.m. on Feb. 25 on "Helping Your Child to Self-Realization."

On March 4, Professor Harold Wetzel of the University of Kentucky, will moderate a panel discussing the "Role of the Father." Dr. Helen Marshall, UK Home Economics professor, Dr. Graham Dimmick, Director of the Lexington Child Guidance Clinic, and Dr. Ray Hayes, of the Lexington Department of Mental Health, will participate in this discussion.

Vanceburg was a port of entry in pioneer days for hunters from Pennsylvania and the East who came down the Ohio River in search of game in the wild hills and well-watered valleys to the south. In 1865, an act of the Legislature made Vanceburg the seat of Lewis County.

## LITTLE MAN ON CAMPUS

by Dick Bibler

"IT'S YOUR TIME TO WIND THE ALARMS TONITE."

## Senior Selected For Study At University Of Heidelberg

A University of Kentucky senior in mathematics has been selected to study next fall at the University of Heidelberg in Germany.

Francis Leigh Bell, Ft. Mitchell, was chosen as the 1958-59 UK representative in a student exchange program between the two schools. Bell, who minored in German, will receive his A.B. degree in June and will leave for Germany in November.

One student is selected each year for the program on the basis of scholastic standing, knowledge of the language, and personality. The student is furnished with room and tuition during his period of study.

Bell will devote most of his study to mathematics at the University of Heidelberg and will return to the University of Kentucky to continue his studies toward a master's degree in that field, he said. Following that, he plans to teach.

Frederick Goldbecker, a major from Louisville, is presently representing UK at Heidelberg. Under special arrangement, two Heidelberg students (rather than one) are studying at UK this year. They are Willi Grawe, Messinghausen, Germany, history; and Erika Bellstedt, Bremen, Germany, commerce.

Heidelberg's ties with the University of Kentucky extend back to 1948, when UK "adopted" the German school following a tour of Germany by former president H. L. Donovan as an educational advisor to the American Military Government.

R. R. Hancock, President of the Incorporated Society of Headmasters: Schools are aiming too much at teaching pupils the content of other men's minds, and too little at training them to discover the capacity of their own.

## YWCA Plans Series Of Faith Explanations

Members of the University of Kentucky YWCA have announced the dates and speakers for a spring semester lecture series dealing with the history, doctrines and structure of the different denominations and faiths.

The different speakers will include these topics in their presentations and will preside over discussions with students.

The talks will be made each Tuesday afternoon in the Y Chapel of the SUB from 4 to 5 p.m.

The various talks and speakers are as follows: Feb. 18, Roman Catholic, Father James Herlihy; Feb. 25, Jewish, Rabbi Joseph Rosenbloom; March 11, Methodist, Rev. Thomas Fornash; March 18, Presbyterian, Rev. John King; March 25, Episcopal, Dr. Virginia Bellamy;

April 1, Christian (Disciples), Rev. Newton Fowler; April 8, Bap-

tist, Rev. Calvin Zongker, April 15, Lutheran; April 22, Christian Science, Theodore Metzner from 4:40-5:30; Unitarian, Dr. John Flint, 4:30-5 p.m.; April 29, National Council of Churches and World Council of Churches, Dr. Howard Short.

Charles P. Curtis in "A Commonplace Book": There are only two ways to be unprejudiced and impartial. One is to be completely ignorant. The other is to be completely indifferent. Bias and prejudice are attitudes to be kept in hand, not attitudes to be avoided.

Sydney J. Harris in "Majority of One": It's hard to decide which are the most exasperating to be with—stupid people who never talk, or the bright people who never listen.

# Archaeological Survey Finds Artifacts Of Indian Cultures

Artifacts that may provide clues to a missing link in knowledge of prehistoric Kentucky have been found in an archaeological survey of the Rough River basin, according to project director Douglas Schwartz of the University of Kentucky.

Dr. Schwartz, assistant professor of Anthropology, said evidences of both the Adena and Archaic cultures were found at sites in Breckinridge and Grayson counties during the survey, conducted during November and December. Schwartz has completed his analysis of the items collected.

The Archaic culture, which existed from 5,000 B.C. to 1500 B.C., was made up of hunters and "gatherers" and the Adena culture, which lasted during the period of

800 B.C. to 800 A.D., was made up of farmers.

It is the 700-year period between the two cultures that is still a mystery. Whether the Archaic hunters gradually switched to farming or if the farming Adenas are a completely new group that migrated to the area has been one of the major questions facing Kentucky Archaeologists.

Dr. Schwartz said arrowheads, pottery, shell tools, and bones, some belonging to each culture, were found during the survey, chiefly along tributaries of the Rough River. The Archaic people were known to have lived near this area, but the Adena people lived much farther north, chiefly in Southern Ohio and Northern Kentucky.

Whether or not the finds actually indicate a transitional period can not be determined on the basis of what has been found thus far, said the UK faculty member, who

is also director of the University's Museum of Anthropology.

Because of unfavorable weather during the survey period, Schwartz and T. G. Sloan, field archaeologist for the University, were not able to find much material.

In order to prove or disprove the indications of the transition period, Schwartz said he hopes to get more funds from the National Park Service and do further excavating in the area before it is flooded this fall when a dam is completed.

The survey is one of two contracted by the UK Department of Anthropology in cooperation with the National Park Service and the Kentucky Department of Conservation on areas to be flooded. The second project, the area behind the Barkley damsite, is being surveyed now and is expected to be completed in March.

## Honorary Elects Officers

Four new officers have been elected by the UK chapter of Delta Sigma Pi, business administration honorary, to replace members who completed their degree requirements at mid-year.

They are T. O. Hall Jr., Louisville, vice president; Carl McClure, Henderson, secretary; John Mar-

shall Broome, Hopkinsville, historian, and Robert Edmond Gray, Louisville, chapter efficiency chairman.

Former officers were Tom Jones, vice president; Richard Handmaker, secretary, and Eugene Heupel, historian, chapter efficiency and contest chairman.

Ole Miss center Ivan Richmann (22) tries vainly to hold onto a rebound in Saturday night's game at Memorial Coliseum. Fained expressions are also shown by Johnny Cox (24) and Don Mills (54). Other players are Adrian Smith (behind Mills) and John Crigler (32).

**BECK JOINS**

(Continued from Page 1)

for morning and afternoon and special occasions call for three games a day.

A unique feature of the games will be the half-time show in which a player will speak, using the "unorthodox approach" to Christianity as Coach Don Odle calls it. When the cagers play in Formosa and Indonesia the half-

time subject will be completely anti-Communist, Beck disclosed.

"The players have to give up summer employment and will receive no pay, but since basketball is the Orient's second biggest sport the tour presents a great opportunity to reach a large number of people," said the big center.

Other plays who will make the

**Lowell Hughes May Prove**

(Continued from Page 1)

An All-Stater in basketball while at Prestonsburg, the amiable athlete authored a 40.2 average per game, second only to the record of Kelly Coleman in 1956. A jump shot from anywhere on the court is Hughes' best shot. In last year's yearling campaign, he earned a 15-point average, the team's third highest.

With the passing of the basketball season, the tennis shoes will be traded for baseball spikes and Lowell will assume his position as second baseman for baseball coach Harry Lancaster. Prestonsburg sports fans will tell you that this is the versatile star's first love. Following an outstanding baseball career in high school, major league scouts from Milwaukee, Brooklyn, Cincinnati, and New York's Giants offered the righthanded slugger contracts.

"When I was a senior a Giant scout was watching us play and he told me he could only stay for three innings. I hit a lucky single in the first inning and in the third inning-lucked one over the fence," Lowell relates. The Giants offered a \$4,000 contract, but four years at UK came first for Lowell who is the brother of former Cat quarterback Delmar Hughes.

Majoring in Personnel Management, Hughes maintains a 2.7 av-

erage despite his perpetual performances on Kentucky's athletic fields. The Hughes tradition of good athletes is likely to continue when the third of these famous brothers graduates this spring. Paul Phillip, also a talented player in three sports, is reported to be headed for a grant-in-aid.

Majoring in Personnel Management, Hughes maintains a 2.7 average despite his perpetual performances on Kentucky's athletic fields. The Hughes tradition of good athletes is likely to continue when the third of these famous brothers graduates this spring. Paul Phillip, also a talented player in three sports, is reported to be headed for a grant-in-aid.

# Former Girl Baseball Star Now Shines As Zoologist

By PAUL SCOTT

Whether you star as a professional baseball pitcher or by dissecting a frog in a zoology laboratory, "you have to like it or you just can't do it," says Patricia Ann Scott.

Pat, as she is known by all her friends at the University of Kentucky, is considered a top woman athlete, but zoology has won the heart of the one-time star pitcher for the professional Ft. Wayne Daisies of the All-American Girl's Baseball League.

Pat graduated from St. Henry High School in Erlanger, Ky. in 1948 and for several years she couldn't make up her mind on what course to pursue in college. After working two years as an assistant technician in a biology research laboratory in Cincinnati, Pat finally chose zoology for her college major.

When Pat was asked why she did not choose physical education as her major she said, "Well, it just didn't seem like the thing that would satisfy me. I also do not want to teach."

Pat enrolled at UK in the fall of 1955 and was immediately reinstated to amateur status by the commissioner of the Amateur Athletic Union, Pat said. "No objections have been raised to my eligibility since my reinstatement."

Pat spent three years on the Ft. Wayne team from 1951 to 1953 and compiled a very respectable record of 48 wins and 26 losses. The Daisies won the league pennant in 1952 and 1953. Pat was fortunate enough to pitch the pennant-winning game in 1952.

This was Pat's only professional venture in sports. When asked if pay was the main attraction to her

in sports participation Pat said, "Certainly not! Whether pay is involved or not, I just like to play." In 1954 Pat drove from her home in Burlington, Ky. to Frankfort, a distance of 80 miles, to pitch for a Frankfort softball team and she received no compensation for her participation.

Many trophies are on display at the University's Keeneland Hall that Pat has won through team participation. She also won the Lexington badminton (singles) championship last year.

Pat is on the University's field hockey team. She is also very active in the Women's Athletic Association. She takes part in the WAA tournaments, which include tennis, badminton, ping pong and volley ball.

Baseball, basketball and horseback riding are Pat's three favorite sports. She does a lot of horseback riding in the spring and fall. "All these indoor and outdoor sports help me keep in shape throughout the year," Pat said.

Bowling takes the spotlight in the winter with Pat. She bowls with the Bluegrass Lane's team in Lexington's Monday Night Women's League. Pat recently bowled 255, which is this season's high game for the league.

These are some pretty fair accomplishments for a girl who had only two sports to choose from in high school. Those were tennis and volley ball.

Pat delved into basketball after high school. She played the game from 1948 to 1951 and played on two state championship teams. The teams were a Cincinnati upholstering squad and a Middletown, Ohio team sponsored by the American Legion. Pat made the Queen City all-star team while playing with Cincinnati. Her position was guard.

Pat gives these hints to the interested, sports-minded woman. "Make up your mind to do your best in every sport you play," she said. "The beginner should have coaching help," she continued, "because if you start out wrong it's hard to get back on the right track. Setting up rules, such as eating habits and an exercise schedule will help you stay fit," Pat added.

Pat said she doesn't believe a woman should compete against a man in sporting events or play a man's game, such as football. "Playing doubles, such as tennis or ping pong, with a man and woman

on each side is the only exception," Pat said.

Sports have meant a lot to Pat. She has travelled to many places and has met a lot of people, but one thing Pat said that everyone should remember, "Never underestimate the power of your opponent."

Stanford, an attractive residential town with a leisurely way-of-life, has many old houses bordering its quiet, tree-shaded streets. It is the seat of Lincoln County, one of the three original counties of the Kentucky formed in 1780.

The Alumni Association was established to render service both to the University and its former students.

**Baseball Star Bowls, Too**

Former professional baseball pitcher Pat Scott is now starring as a bowler. She recently bowled a 255 game which is the season's high for the Monday Night Women's League at the Bluegrass Lanes. Pat is a sophomore in the Arts and Sciences College.

## Ever meet a trusting soul?

"You can't go wrong looking for a job these days," he assures you. "Opportunities are great all over. All the good companies have about the same to offer."

Do they? A lot of not-so-trusting souls think otherwise. They suspect that some companies have much more to offer than others, and they want to find out which those are.

We'll help. We want to tell you how much the Bell Telephone Companies offer in the way of advancement opportunities, training, pay and benefits, professional associates and working conditions. No matter what your educational background—the arts, the sciences, business or engineering—make a date to talk with a Bell interviewer when he visits your campus. You can also get information about the careers these companies offer by reading the Bell Telephone booklet on file in your Placement Office, or by writing for "Challenge and Opportunity" to:

# Florida State Tops Catfish In Swimming Season Opener

Kentucky's swimming team opened a seven-meet season Wednesday night by dropping a 59-25 decision to Florida State at the Coliseum pool.

The visitors took first-place finishes in eight of the 10 events. The only Kentucky victories were in the 440-yard freestyle, won by Dave Wild, and in the 50-yard freestyle won by Harold Eaton.

The Wildcat tankmen, who last

year captured decisions in their last five dual meets for a 6-6 season record and took fourth place in the Southeastern Conference meet at Lexington, are getting a late start due to scholastic troubles that forced cancellation of first semester meets.

Coach Algie Reece said he anticipated being able to call on only 10 men for each meet. Five lettermen return and the squad is rounded out by an equal number of sophomores. "Although this size squad is hardly adequate to compete in

the many events that make up a swimming meet, we are determined to keep the sport alive at Kentucky and are hopeful that our limited competition will stimulate interest," Reece declared.

Veterans back for a final campaign include freestyler Harold Eaton, Riverton, N.J.; Casey Neuman and David Wild, both of Lexington Lafayette. Junior lettermen are Olaf Haugen, Paducah diver; and Guy Hisle, Mt. Sterling freestyler. Newcomers include David Allen, Sebree, breast stroke and butterfly; Mike Durbin, Lexington Lafayette, backstroke; George Kyle, Mt. Sterling, breast and butterfly; Harold Tinnel, Louisville Southern, freestyle; and Charles Wigglesworth, Lexington Lafayette, backstroke and diver.

The remaining schedule: Feb. 8 at Ga. Tech; Feb. 12, Louisville here; Feb. 15, Centre here; Feb. 21 at Seawannee; Feb. 22 at Vanderbilt; Feb. 27 at Eastern Kentucky; March 1-3 SEC Meet at Athens, Ga.

### HATTON LEADS

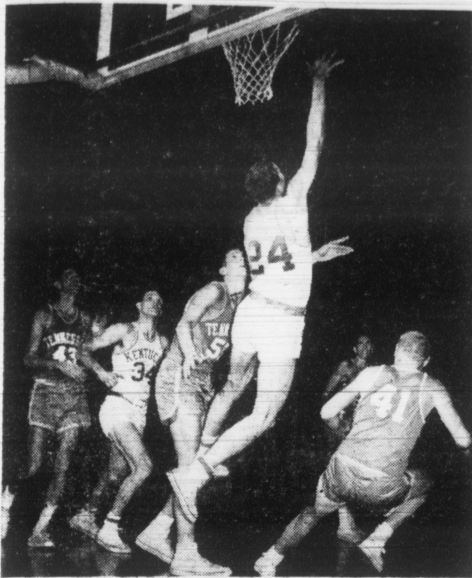

Vernon Hatton still leads Kentucky in scoring, currently sporting a 17.0 average through 18 games. Johnny Cox ranks second with an average of 14.1, followed by Adrian Smith with 13.1 and John Crigler with 13.3.

Cox leads the Cats in rebounding having grabbed 222. Ed Beck is second with 214.

Season's Haul

Lou Michaels displays the trophies awarded him this year. They are left to right: SEC Player of the Year trophy, Look All-American team award, and Lineman of the Year trophy. He holds his AP All-American certificate.

Two More For Cox

Johnny Cox scores for Kentucky against Tennessee. Other players are Tennessee's Dalen Showalter (43), Ed Beck (34), and Leon Armerman (41). The Cats won 77-68.
